Who can say what changes a man will undergo during his four years-plus at Georgia Tech? No one can. But, can you think of a single person who hasn't changed?

What brings freshmen to Tech? Some are pushed into it by their parents. Many come of their own volition, but with little conception of what lies ahead. A fortunate few know what to expect and are prepared for it: one of the most ruthless academic weeding-out processes in existence. Sadly enough, the days of scholarly leisure and the “Gentleman’s C” are gone. Scholastic survival of the fittest is the order of the day in today’s large institutions of quality. So it is at Georgia Tech.
