Months before the 1965 edition was on the Foote and Davies' presses, plans for the 1966 Blueprint were already keeping me away from the math books. Not to be bogged down by tradition, I carefully reasoned exactly what belongs in a college yearbook—for instance, a dedication at a school like Georgia Tech is nothing but a deadweight discontinuity in an otherwise interesting introduction. The result is a straightforward (you won't find any bull manure cluttering up the pages) record of what it's like to go to this school in the year 1966. The book is designed to please the Georgia Tech student; I sincerely hope you like it.

Turning out 436 pages is a difficult assignment, but this year's staff shouldered the responsibility. Jim Oliver and Deloye Burrell were the key men: Oliver did a beautiful job with the layouts and Burrell handled the time-consuming position of photo editor. The section heads, Ronnie Ogletree, Dan Tarkington, Allen Park, JoAnne Freeman, and David Driskell, all labored the long hours that made my senior year at Georgia Tech bearable. Business Manager Tom Williams deserves the credit for making our $40,000 crank turn.

Thanks also go to past editor Bill Sumits—time spent working on his 1965 yearbook was excellent training for this editor. As Tech's Director of Publications Bob Wallace, Jr., told me last summer: "Son," he said, thumbing through the pages of Sumits' photographic masterpiece, "you've got a hard act to follow."

—Phil Miller
CHAPMAN, BENJAMIN EDGAR, Salem, Va.; Chemistry; Sigma Phi, President; Guard, Vice President; American Institute of Chemical Engineers.

CHAPMAN, FRANK BROOKS, Gainesville, Ga.; Architectural Team; Dorm Construction; Scabbard & Blade; Bulldog Club; Freshman Glee Club; Alpha-Y-Phalanx; American Institute of Architects; President; Engineering.

TEXTILES... on the way UP!

Today's textile industry plays a modern, dynamic role in our lives through its continuing scientific research and development. Cone Mills is an important part of this great industry.

If you are interested in joining a progressive team of people engaged in production, administration, research and sales, come to see us or write our Industrial Relations Department.

The absolute test of any educational program is the kind of man it produces . . .

That the Georgia Institute of Technology has for four consecutive years been nationally recognized as the outstanding public institution in the area of sustained alumni support is merely one reflection of the kind of man Tech produces. This strong support from alumni and friends and from corporations and foundations has been a major factor in insuring that Georgia Tech could continue to offer quality educational programs. Future voluntary support on an expanding basis is essential if the Institute is to maintain its leadership in technological education.
