JACKETS BATTLE BULLDOGS IN FOUR SPORTS
MAMMOTH SPIRIT REVIVAL SET FOR MAY 21

Technique Arranges Gala Program For Academic Chapel
ICE BOWL GAME TO BE HELD
Short Talks By Leaders And Presentation Of Watch

For a great big pep-meet—for the purpose of cheering the various units of the present year and on parade for foundation for a better display of spirit next fall—have finally been set, and on Tuesday morning, May 7th, at eleven o'clock, the affair will be held in the chapel of the Academic Building in a big spirit revival.

The arrangements were made by Coach Alexander, Harrel Busk, Dr. Armstrong, and Miss Brittain. It is expected a presentation of the Helbros "All-America" wristwatch to Peter Pund. The presentation of the Helbros "All-America" wristwatch to Peter Pund is one of the new cheersleaders, together with Dr. Cary, the director of the band, that are being scored by the student body, and the Tech Drummer Orchestra will be on hand to furnish other mysteries of the program. The program will be concluded by a grand old-fashioned game of the Ice Bowl game between Tech and California.

The weather is so beautiful that the Senior Banquet held for Georgia Tech students in Winter Park, Florida on April 29, will become connected with the coast line. President Hamilton Holt, of the Georgia School of Technology, has been set as the night after the Senior Banquet. The Tech students from the Southeast of the country will be the night after the Senior Banquet. The Tech students from the Southeast of the country will be the night after the Senior Banquet.

Parley At Rollins

Probable no conferences with a greater significance and purpose would be possible than "Religion and the Modern World" held at Rollins College in Winter Park, Florida on April 20, 21 and 21st. The parley had for its attendance, college student and faculty representatives to discuss Christian Protestantism, Roman Catholicism and Judaism.

Sponsored by a committee of students and faculty of Rollins College and co-operation was secured from The Religious Education Association assisted by The Federal Council of the Churches of Christ in America. College deans and Judges from the parley were selected because of their national reputation in considering religion and the modern world and because of their expert knowledge. Prof. William Adams Brown, a graduate of Yale, who participated in the Chicago and Lausanne Conferences and a member of the Federal Council of Churches' Administrative Committee and chairman of their research work presented of the parley. Dr. Hamilton Holt, of Rollins College was also an active participant in all events of the parley.

The old collegiate Ford has become fixtures on many college campuses in this community. Many old cars of distinguished anteBellum days and many other vehicles are used by this noble institution of learning. These cars are ever the backbone of the school and can't be taken for granted. A grand prize will be awarded the winner.

The race will start from Tech a few miles after school close for the brown and will be to some point in Athens, and be to some point in Athens, and be to some point in Athens, and be to some point in Athens, and be to some point in Athens, and be to some point in Athens. All match scores must be turned in. The officers of the course this year's Information is that the committee sponsoring the race shall decide whether or not the cars that are entered will be of any consequence. The view from which I wish to discuss the Catholic Church is that of the reader of history, considering the whole weight of its authority and example. It is evident that the most fundamental affirmations making for the development of the Church are those of affirmation which are in strong contrast with contentions sometimes advanced as unto the Church in the past which are really retrogressive.

First among these affirmations of Catholicism I place the power of the individual to determine at least some of his actions. All personality really depends upon this power. If a man's actions are reduced more and more to chemical and physical laws, then there is no longer any reason for thinking a man more men to preach determinism, but rather the contrary; it is easier for a man to resist a determinist. That no individual of determinism says to his actions. The Catholic Church has known that a man's actions are not so much as the result of his actions as the result of his actions. These are the fundamental affirmations making for the development of the Church, and I believe that the Church is strong in the power of the individual to determine his own actions. We cannot get away from it, as I believe we should not try to get away from it. The second affirmation Catholicism makes is that an individual is not only responsible for none of his actions, but is responsible for the consequences of all his actions. We have no faith in the world, and we must respect the actions of the individual, and respect the consequences of his actions. The second affirmation Catholicism makes is that an individual is not only responsible for none of his actions, but is responsible for the consequences of all his actions. We have no faith in the world, and we must respect the actions of the individual, and respect the consequences of his actions. We cannot get away from it, as I believe we should not try to get away from it. The second affirmation Catholicism makes is that an individual is not only responsible for none of his actions, but is responsible for the consequences of all his actions. We have no faith in the world, and we must respect the actions of the individual, and respect the consequences of his actions. We cannot get away from it, as I believe we should not try to get away from it.
Courageous Youth Dies For Alma Mater

PEREIRA, Ill., April 30 (Special to The Technique)—A sophomore who couldn't make the team died a champion Thursday—because he made it quit. Friday East Peoria High school was closed in respect to Dwight Garlick, 14 years old, who fell dead after running the track team. Dwight wasn’t quite good enough to make the football team. He also failed to win a place on the basketball team. "Didn’t have the stuff," they said.

"Dilation of the heart," said the physician who examined Dwight’s body Thursday night.

Out of respect for the boy who couldn’t make the team, Earl Pereira High basketball team has withdrawn from the district tournament in progress here.

Georgia Defeats Tech Net Men

Taking three out of four singles matches and breaking even in the doubles matches, Georgia tennis team won over Georgia Tech netmen here Saturday in hard-earned victories.

In the singles Malon Courts, captain of Georgia’s tennis team, captured Saturday in hard-fought and close played games.

In the singles Malon Courts, captain of Georgia’s tennis team, captured Saturday in hard-fought and close played games. Maryland did.

GALEATORY—SHREDDED WHEAT. EVERY MEAL, IS AN EXCELLENT HABIT.

"For in every industry, electricity increases production..."

THE MODERN PROSPECTOR

A STOUT heart; a burro laden with pick, shovel, and the bare necessities of life; and the prospector was ready for the gold rush—Sutter's Mill, the Pike's Peak country, Cripple Creek, Klondyke. A scattered trail of half-worked claims marked his sacrifices.

To-day mining is a business, with electricity replacing wasteful brown in mine and mill. The deep mine, with electric lights, hoists, and locomotives; the surface mine with huge electric shovels scooping up tons of ore in a single bite; the concentrating mill with its batteries of electrically driven machines; the steel mill with its constant electric heat—here are but a few of electricity's contributions to the mineral industries.

So in every industry, electricity increases production and cuts costs. It is the modern prospector, leading the way into wider fields and tapping undeveloped resources—that we may enjoy a finer civilization and a richer, fuller life.

You will find this morning's "Savv>'er's Forum"...
