Carmichael, Lee Elected Bus. Managers

BY MACK STACK

The election of Hugh Carmichael as new Business Manager of the Daily Yellow Jacket was announced this week by the Georgia Tech Publications Board.

Carmichael, a senior in Electrical Engineering, was selected to succeed Wally Buchanan, who was elected to the position last spring but was later abroad when his assignment as a cadet in the Army Air Forces ended.

Lee, a junior in Industrial Management, who has been on the business staffs of the Yellow Jacket, Techniqua, and Engineer for several quarters, will continue acting Business Manager of the Yellow Jacket, replacing Tom Dent, elected last spring but who is not currently enrolled in school.

In announcing these elections the Publications Board also presented the basis on which the elections were held.

The voting jars for the contest will be available at 8 a.m. and 5 p.m. at the Information Desk in the Administration Building each day of the contest, October 30-28.

By Walt Miller

New Council President Jack Todd said in an interview this week, "Last year's council left us a high mark to shoot for; and Neil Turner, as president, set an example that I only hope I can match. We have a fine group of hard-working representatives, and under the new constitution, should get a lot accomplished. Any complaints or suggestions will be welcomed and will receive prompt action."

Jack objected strongly to the initiations in last week's TECHNIQUE that he is doing all the planning and work of the council. "In fact," he says, "I have had only a small part of the council's work. There are twenty-five councilmen who command equal or more credit."

Todd Compliments '46 Council And Former President Turner

By Ted Carroll

Alpha Phi Omega and The Atlanta Community Chest will hold its annual Ugly Man Contest on the Tech campus next week for the purpose of raising funds for the Community Chest.

Application blanks for contest entry have been distributed to the various fraternities, dormitories and organizations on the Tech campus and bottles bearing the pictures of the various men entering the contest will be placed at the information desk in the Administration Building next Monday morning and will remain through Tuesday of the following week. All students are eligible for this contest. Votes must be cast each day and may be deposited in the bottle in the Administration Building. Charles Cooper, chairman of the Ugly Man Contest Committee of Alpha Phi Omega states, "Any organization which has not received Ugly Man Contest entry blanks can secure them by contacting me through Box N in the East Office. All interested individuals can also obtain information of the contest from me.

The voting jars for the contest will be available at 8 a.m. and 5 p.m. at the Information Desk in the Administration Building each day of the contest, October 30-28.

This Ugly Man Contest is one of the oldest campus projects and has been responsible for large contributions to Atlanta Community Chest drives. Last year the contest raised $1,600.00 for the drive which more than enabled Georgia Tech to meet its quota.

Collegiate Press Assn. Awards Technique Top Rating for '46-7

According to a recent announcement of the 1946-47 Associated Collegiate Press ratings, THE TECHNIQUE attained a superior honor score. It was rated "All-American" among a group of one-year colleges having an enrollment of 4,000 or more.

The rating system is based on a point system. To make competition as fair as possible, newspapers are classified according to size of school, enrollment of school, and frequency of issue.

Yellow Jacket

A meeting of the Yellow Jacket executive board will be held at 5 p.m. in the Publications Lounge of the YMCA.

The subject of the issue of the Yellow Jacket should be distributed in about two weeks, announce its co-editors. Material suitable for the November issue is requested. Contributions may be placed in the Yellow Jacket box in the Administration building lobby.

Community Chest Drive Features UMOC Contest

Placement Started On 1948 Graduates
First of January

The employment and placement system for the seniors and graduate students of 1948 will begin 8 January 1948.

In order for us to write all of the companies and get everything organized, we must have a meeting of our seniors and graduate students who expect to complete their work in the March 1948 class, June 1948 class, and September 1948 class.

Thereafter, all seniors and graduate students who expect to fall into one of these three classes are urged to meet for a brief organizational meeting in the West Stands of the Stadium of Grant Field, at 4 p.m., Thursday, October 22.

Any senior and graduate student who has a class or laboratory connecting with this hour will see me personally for the explanation not later than October 21.

The above-named senior and graduate students are urged to attend the meeting.

Fred Ajax

New Directory Ready At YMCA Desk

The new student directory compiled by the YMCA Cab inet, is now at the "Y" desk for free distribution to the student body.

This directory includes, besides the student's name, his box number, phone number, school address, church membership, courses, class, marital status, and an indication of whether or not he is a veteran.

The voting jars for the contest will be available at 8 a.m. and 5 p.m. at the Information Desk in the Administration Building each day of the contest, October 30-28.
Omicron Delta Kappa, National Honor Society, Announces Election Deadline

Omicron Delta Kappa, national honorary leadership fraternity, announced this week that applications for membership would be accepted through November 1, 1947. The ODK point list is printed in this issue for the benefit of students desiring membership. Students can secure membership application forms in Prof. Wenn's office, 311 Swan Hall, and should turn these forms in to the same office before the November 1 deadline.

ODK points are awarded upon three outstanding principles:
1. Importance of the job in the minds of the students.
2. Leadership required to get the job.
3. Amount of ability and work required.

These principles serve as the basis by which ODK hopes to stimulate the conception and quality of Tech student leadership. To do that it will try to encourage each organization to be as active as possible.

At 20 great Universities...

More wanted than the next three makes combined

Parker 51

77 surveys in 29 countries confirm the Parker 51's amazing popularity. At 20 leading American universities, senior men and women voted Parker more wanted than the next three makes of pens combined. This preference stems from the 51's distinctive styling—it's incomparable performance. Precision-made, it starts on the instant—glides with satin smoothness. And only the "51" is designed for satisfactory use with new Parker Superchrome—the super-brilliant, super-permanent ink that dries as it writes! Choice of points...smart colors, $12.50, $15.00. Pencils, $5.00, $7.50. Sets, $17.50 to $80.00. Parker "V-S" Pens, $8.75. Pencils, $4.00. The Parker Pen Co., Janesville, Wis., and Toronto, Can.

ODK Points

LEADERSHIP
Maximun: 30 points
Required Minimum: 15 points
12 points, President Student Council
Captains Varsity Football team
Captains, Editors of TECHNIQUE and BLUE PRINT
10 points, Business managers of TECHNIQUE and BLUE PRINT
5 points, Editors of YELLOW JACKET and Eta Kappa Nu
9 points, President Interfraternity Council
Captains Baseball, Basketball, or Track
Captains, Editors of Eta Kappa Nu
7 points, President Junior Class
8 points, President Sophomore Class
7 points, Business Manager of Student Council
6 points, Varsity Football Team
5 points, Lt. Colonel in military
4 points, President Sophomore Class
3 points, Student Council
2 points, Editors of Interfraternity Council
1 point, President Freshman Class

PUBLICATIONS

Maximum: 20 Points.
Per Qtr. For the TECHNIQUE, BLUE PRINT, and YELLOW JACKET, 1-3-1 for publication for the first two years, 1-2-2 for publication for the third and fourth years, except staff heads.

SCHOLARSHIP

Maximum: 20 Points.
Awards for membership in the following:
6 points, Phi Kappa Phi
6 points, Tau Beta Phi
4 points, Phi Eta Sigma
2 points, for 3.2 average made during any one year
2 points, for 3.2 average overall for second year
4 points, for maintaining 3.2 overall average second year
6 points, for maintaining 3.2 overall average third year
2 points, per award for scholastic prizes and cups for each of the following:
Phi Kappa Phi Cup
Tau Beta Phi Cup
Eta Eta Sigma Cup
Briarwood Scholarship Cup
AIA, Architectural Medal
Briarwood Scholarship Medal
American Legion
Phi Kappa Phi Cup
Society of Gen'L Engrs.

ATHLETICS

Maximum: 20 Points.
Major Sports: Football, track, baseball, basketball
7 points, first letter
6 points, second letter
5 points, third letter
3 points, per year, squad members not receiving letters
8 points, football, senior managers
4 points, other senior managers
4 points, junior managers
2 points, per year, other managers
Minor Sports: Cross-country, swimming, fencing, tennis, golf, rifle teams, wrestling, and gymnastics
4 points, first letter
3 points, second letter
3 points, third letter
1 point, per year, squad members not receiving letters
3 points, senior managers
2 points, per year, other managers
2 points, freshman numerals
When there is no coach, the managers and squad members not receiving letters will not receive points.
Campus Flag Will Be Flown At Half-Mast
On October 26 in Tribute to War Dead

The United States flag will be flown at half mast on the Georgia Tech campus on October 26 in tribute to the American war dead being returned to this country from abroad, it was announced recently by the Military Department.

The second ship with World War II dead to arrive today will be the ship docking at New York on October 26. It will bring bodies of men killed in the attack on Pearl Harbor were on the first ship that docked at San Francisco on October 10. The flag on the campus was flown at half mast that day.

It was agreed that the decision of the Student Council regarding Tech membership was to be tabled until copies of the N.S.A. constitution and by-laws, together with the convention resolution, be submitted to the council for the coming year.

The parking committee is composed of C. Hobbs, T. Branson, and D. Cutler.

The parking committee is composed of C. Hobbs, T. Branson, and D. Cutler.

The parking committee is composed of C. Hobbs, T. Branson, and D. Cutler.

Hosea Batten reported from the elections committee that plans for freshman elections of Student Council representatives and class officers, which will take place at freshman orientation on November 2, are in progress.

Jack Todd appointed the following permanent standing committees of the Student Council as of 20 December 1947.

1. Co-operative students will execute withdrawal papers now from Room 102 Knowles Building and get them executed as of 20 December 1947.

2. Students to be graduated will fill out disenrollment forms.

3. Students transferring to another school or on-the-job training will also fill out disenrollment forms.

4. Students planning to drop out for one term and return to Georgia Tech will fill out disenrollment forms.

These papers, having been executed by the students now, will be reported to the Veterans Administration from day to day, so that there will be no delay in the Veterans Administration Office receiving due notification.

F. W. Ajay, Coordinator of Veterans Affairs

Pan-American League Greets Tech Latins

A week ago tonight, October 11, the Pan-American League of Atlanta sponsored a Pan-American Fiesta at the Georgia Tech YMCA as a hearty welcome for the 500 students who hail from Latin and South American countries. The personification of a truly "Good-Neighbor Policy," the "Piñata" was a wonderful evening for the Tech Latins.

The evening's program was highlighted by many original performances. The Samba, Rhumba, and Tango folk dances were displayed by Latin professional skill by the Latins who were attired in authentic and colorful costumes. Folk songs and a clever pantomime of a Cuban baseball game preceded the evening's grand feature—Mrs. Estelle Guizar, presenting several songs. Refreshments and dancing were the finale for the Latins and their dates' evening.

"We hope to establish a "Pan-American Fiesta" as an annual affair on the campus of Georgia Tech, and through the able assistance of Mr. Robert Commander of the YMCA we expect an even better Fiesta next year," said Mrs. Joseph Buggins, Regional Director for the League.
Chathamites Meet
Next Tuesday Night
In Knowles Building

A meeting of the Geechee Club will be held on Tuesday, October 21st, in Knowles Building. The Geechee Club is an organization of students living in Chatham County and is open to all persons of that county. The meeting this Tuesday night will be held to discuss plans for a gala party which is scheduled to come off in a few weeks. Many plans are being made for the future to insure all the members a good time while at Tech and at home. The meeting starts promptly at eight in the evening.

Glee Club to Present Program Tuesday for Kiwanis Members

The Georgia Tech Glee Club is scheduled to sing and Blake R. Van Leer, president of Georgia Tech, to speak at the meeting of the Kiwanis Club next Tuesday, announces Mr. Walter Herbert, director of the singing group.

This and more concrete plans for the glee club’s fall activities were discussed at the regular meeting of the chorale body.

"The presence of fifty-six persons was evidence that the glee club is ambitious in its fall activities," stated Bob McNeil, president. He also expressed the hope that other experienced students who would like to sing would be present at the practices held Tuesday and Thursday of each week at the YMCA.

Among other engagements for the glee club is considering a concert at Berea College set tentatively for November 14, business manager Bill Johnson informed those who were present Tuesday.

Some of the members will collaborate with the Agnes Scott glee club in presenting Gilbert and Sullivan’s Mikado the last week in February. Two performances will be held, one at Agnes Scott and one in the O’Keefe high school auditorium, under the auspices of the Student Lecture Series.

Glee Club to Present Program Tuesday for Kiwanis Members

Fresenian Get Indoctrination

In the first of a series of weekly freshmen orientation meetings held last Saturday morning in the gymnasium, various parts of campus life were outlined for the information of the new Tech students.

Jack Todd, student council president, introduced speakers who were interested or connected with the particular topic under discussion.

Fresenian rules were explained by Ramblin’ Wreck President Erskine Love while the Constitution under which the student government operates was discussed by Pete Kelly, former member of the student council constitution committee.

Howard Woodham outlined plans for election of freshmen student council representatives, freshmen class officers, and freshmen voting procedures in the ratification of the new constitution for the student government.

The series of orientations is scheduled to continue for several weeks, with each meeting being directed by the student council.

The singing of the Ramblin’ Wreck closed the meeting.

Ninety Piece Band Rated
Best in History of School

According to Mr. B. L. Risk, director, this year’s band is the largest and best his memory has known. The 1947 edition will make its first drill appearance in the last week in February, and the Jackets take on the Auburn Tigers.

“Before the war, the Tech Band, although not among the best in the South, was just mediocre," Mr. Risk stated. “During the war, however, it became necessary to disband the civilian band, and as a result the V-12 band was formed.

Last year the band, reorganizing in the fall of 1946, had 60 members at the beginning of the term, but due to changes in other tryouts and due to a shortage of untrained students who might be available, the band was reduced to 60. Trips were made with the football team to Duke and Georgia, and at intermission of the Tech plays completely overwhelmed the Georgia Band, both in personnel and composition.

This year 112 students turned out, and after tryouts and eliminations due to schedule conflicts, 90 members are left. According to Mr. Risk this group represents the best of Tech’s musical talent and the band is in capable hands.

The Tech Band, which is composed of boys who are single men, 20 to 24 years of age, has 28 drummers, 20 horn players, 12 saxophones, 20 alto saxophones, 20 tenors, 18 baritones, 12 trombones, 44 bass instruments, and 5 clarinetists.

Chairman of the band, Mr. Jack Todd, is a junior in electrical engineering, and his duties include keeping the band on schedule and making sure that it plays before each game, and at the end of the game.

Trips were made with the football team to Duke and Georgia, and possibly (hopefully) the Alabama game. Observers held down the home stands on Monday, Wednesday, and Friday afternoons for one hour and all are compulsory.

ASTRONOMERS FORM INTERCOLLEGIATE CLUB IN ATLANTA DISTRICT

Professor C. H. Holton of the Department of Mathematics announced recently that an Astronomy Club to include students of colleges in Atlanta and vicinity has been started by Dr. Calder of Agness Scott College.

According to Prof. Holton, the first meeting is slated to be held at 7:30 p.m. on Friday, Oct. 24 at Science Hall of Agness Scott College in Decatur.

An Astronomy Club existed on the Tech campus prior to the war, and all students interested in this science or in telescope-making are invited to join this inter-school organization.

Dr. Calder is well qualified in Astronomy, having studied and worked under Dr. Shapley of Harvard University.

I. Students who desire transportation to the meeting or who would have a ride for someone else are requested to contact Prof. Holton in the Math Building. In addition, if any student would like to become members of this organization but cannot attend the meeting on the 24th, they are asked to notify Prof. Holton which nights would suit them best.

VETS MAY CONTINUE TO RECEIVE G.I. PAY DURING CHRISTMAS

Arrangements have been made with the Veterans Administration to continue the G.I. pay for veterans students on training duty and subsistence continuously from term to term unless the student is on active duty for official interruption request for the period of training.

These interruption forms may be secured from Room 102 Knowles Building. The winter term begins 5 January 1948. Thus, if a student has plenty of entitlement and desires to continue in the G.I. pay beyond the time permitted by Christmas, he should fill out interruption papers.

However, students who might be short of entitlement should request interruption forms by 20 December - 4 January 1948.

P. W. Aja, 
Coordinator of Veterans Affairs.
"Pipe? Coke? Cigarette?"

Rushe Kenneth Barre of Atlanta, flanked by Jane Irving of Agnes Scott on the left and Mary Lou Durham of Atlanta on the right, puts the "treatment" from ATO's Rob Evans (pipe), Lee Estes (cig.), and John Weilichen (cigarette).

Ken felt refreshed enough without coke or tobacco.

**Rushing Terms Given New Freshmen Here**

By Jim Wilford

**MEAL DATE**—They want another look at you. PINK—Your date at the rush functions.

**PLEDGE DUTIES**—Minor tasks assigned new pledges. (heh, heh)

Usually require great physical effort and very little mental output.

**PLEDGE PIN**—A small, insignificant piece of metal signifying something or other.

**RUSH FUNCTION**—Festive occasions where you get calls from on your right hand.

**SILENT PERIOD**—Directly responsible for a number of freshmen rupees. A period in which uncertainty reigns supreme.

**SKELETONS IN THE CLOSET**—Never seen till after rush period.

**SNEAKERS**—Gatherings of a miscellaneous nature at which much bull is shot and slaughtered.

**THE PRESIDENT**—The boy in the fraternity that is hated least.

**WHEELS**—Those individuals moving with a rotary motion followed by spokes of a lesser order. Usually found in abundance during the rushing period.

**Safety Eng. Department Outlines Traffic Program**

By Mack Gregorie

Regardless of how the campus parking situation is analyzed, only one solution may be arrived at—a high state of confusion ushered in with literally hundreds of traffic signs and safety warnings. In an abortive attempt to remove a portion of this derelict’s delirium, the Department of Safety Engineering has outlined extensive plans for traffic control.

**Difficult Situations**

These plans have become so stringent, however, that it is practically impossible for students, much less visitors, to stay within the law and still keep all four wheels on the ground. A pertinent example of this essence of stupidity occurred Thurs- day when a visiting representative of an Atlanta manufacturing concern attempted to park his car.

Spies Sign

Breezing in from Fowler Street the businessman spied one of those tremendous signs written in four different languages which, in effect, prohibit all but fullblooded Indians and the faculty’s relatives from entering the campus. A man of his ability to be stopped by a "sign, so he took a right at the Ceramicus Department and swung up the hill. Chugging through the gloaming he glimpsed a 15 miles per hour speed sign and promptly cut his throttle accordingly. Maybe a Pontiac hydraulic-matic or even a T-model could have made the ascent, but not the representative’s imported Benz-Mercedes, which reportedly had been the only car in all Europe capable of sipping gasoline. The automobile coughed and wheezed as though its valves had creeping paralysis, the pistons knocked like a passionate belle’s heart in Piedmont Park, and finally it eddied over to the curb and a fire plug.

Organized Confusion

Immediately four wards of dynamite blew up. An individual who appeared to be a policeman stuffed his racing forms into his boots and hurried over. Seconds later as the atmosphere cleared of proficiency, the violator of the law discovered that he was the recipient of a parking ticket, a speeding ticket, and a loitering ticket.

**HOP ON THE BUS TO WOODING’S**

Free bus transportation available to and from WOODING’S CAFETERIA at fifteen minute intervals from 11:05 A.M. to 12:20 P.M. and from 5:15 P.M. to 6:45 P.M.

The round trip can be made in 45 minutes with 30 minutes eating time.

Editor, The TECHNIQUE:
On Wednesday afternoon, Oct. 11, a student in Technicalddbork, just had to settle his right thumb
while performing one of the many dangerous
 tasks assigned to engineering hopefuls for home-
 work. The point to be made, however, is that
 nowhere in Techwood dorm was there known to
 exist a first aid kit, or in which to bind up the
 wound. Eventually, by the use of dressings, band-
 -aid and tape, the bleeding was stopped and the
 injured student reported to the hospital, where
 apparently no one knew about the accident.
 It is felt that the situation is potentially
dangerous, and it is suggested that sufficient
 first aid equipment be placed in dormitory in-
spectors' care or in some other accessible place
 so that wounds can be taken care of immediately.
 If this were done, notices could be posted so
 all could be made aware of such equipment on
 very short notice and could put it to vital use. 

Hazen L. Short:

Not so very long ago and not very far away—
in fact, right here—there was an old school cus-
tom which everyone followed pretty well, partly
because it was deeply impressed on all beginning
Tech men passed each other on the campus
and it is suggested that sufficient
first aid equipment be placed in
dormitory in-
spectors' care or in some other accessible place
so that wounds can be taken care of immediately.
If this were done, notices could be posted so
all could be made aware of such equipment on
very short notice and could put it to vital use. 

R. E. Darwin

Editor, The TECHNIQUE:
I have heard it asked several times this
year why the band has not put on its usual show
during the halftime at football games. Some people on the campus have the idea that
the band is not worthy of such a display of
entertainment, that the students from other schools
would not be interested in such an event. It
would be remiss of me not to point out some of the
difficulties that the band faces.

First—membership in the band is strictly vol-
technical, and it is apparent that different equipment would be needed for the different
instruments or purchase of necessary
equipment.

The fourth and fifth difficulties are the most
abundant and binding of all. The old band room
(unsuitable though it was) has been requisitioned
for the new A.A. dining hall, and the band has
had to practice, at least, out in the rain
(literally). The new building on Crenshaw Field
occupies the old drill field, and the A.A. will only
be able to use Grant Field (which is not a proper
field) to make a fancy football band without any
rehearsal hall and with only one hour a week to
practise. We should all be generals!

Regardless of all these difficulties, I believe we
can make a better band. Tech men can be
higher heim. Tech men have never exactly
been the most popular students in the
dressers, around the school, that is, but there is
nothing wrong with our judgment. This is only
one more indication of nationwide masculine
opposition to the recent feminine style changes.
Maybe the old style button-up shirt and tie
will be preferred to the new one. We need
only remember that the great decrease in the amount
of G.I. clothing seen around these parts. Must
be wearing out, or is it being saved? Or did
somebody graduate?
**The Spirit of V. M. I.**

Grant Field was the scene of a great exhibition last Saturday on the part of a majority of the cadets of the state of Virginia. It wasn't the exhibition of a powerful football eleven, although every V.M.I. student should be proud of the showing his team made.

No, it wasn't their football team that was on exhibit. It was the team of some twenty-five thousand fans—it was something of much greater significance—something that goes far deeper than the ability of eleven men to score touchdowns.

That outstanding quality that marked the visiting cadets from Virginia was their indomitable spirit—a spirit that was exhibited through such cheering even in the face of setbacks that Grant Field has never seen the like of in quite some time—a spirit that evidenced their intense devotion and loyalty to their school.

For years editorials have appeared in the pages of the TECHNIQUE deploring the fact that Tech students have no spirit. The time has come when Tech should demonstrate their school spirit more rigorously—possibly so many times that the lines of the faces of the visiting cadets will be seen as a copy of the words "spirit"....

The game was so availing than any editorial could ever be, the exhibition of spirit put on by the corps of cadets—because no student or citizen who attended that game could witness that demonstration by the V.M.I. students during the game without feeling within him something of that indomitable spirit and, in the case of some of students, without being determined to do all in his power to intensify his own school spirit and that of his fellow students, and to exhibit that spirit and its translation to the football games but throughout his entire college life.

CITVdents wished to attend the game, arrangements could be made to charter either several cars of a train, or a special train just for Tech students and their wives and dates.

This suggestion is made to school official for parking in one of three lots outside the stadium. A thorough, diagonal parking is now permitted to park at football games to park every student car parked in a lot, fifty dollars to be raised, every source of income must be utilized to the greatest extent possible.

---

**Excused Absences for 'Bama Game**

On Saturday, Nov. 15, Tech's football squad travels over to Birmingham, Ala., to meet the Crimson Tide from the University of Alabama. It will be a very crucial football game, especially if the Jackets go into it with a bowl bid.

With cars the trip could easily be made in approximately four hours. In case large numbers of students should definitely have this right of parking free in these lots, so that as much money as possible be raised for the Fund. TECHNIQUE urges students in parking at football games to park outside of this lots as much as possible.

For the last game, many students entered parking lots while there was still plenty of curb parking space, thereby decreasing the number of non-students lots, and the proceeds which go into this worthwhile Fund.

Fewer students would park in one of these three lots, but would use other space if available, if they knew that the school would bear the financial responsibility for every student car parked in a lot, fifty dollars to be raised, every source of income must be utilized to the greatest extent possible.

---

**Seating Situation Improved**

The Student Council believes that students should definitely have this right of parking free in these lots, so that as much money as possible be raised for the Fund. TECHNIQUE urges students in parking at football games to park outside of these lots as much as possible.

For the last game, many students entered parking lots while there was still plenty of curb parking space, thereby decreasing the number of non-students lots, and the proceeds which go into this worthwhile Fund.

Fewer students would park in one of these three lots, but would use other space if available, if they knew that the school would bear the financial responsibility for every student car parked in a lot, fifty dollars to be raised, every source of income must be utilized to the greatest extent possible.

Henry B. Cauklins: The Surveyor

Take note, all ye southern damsels who would walk as if out of Madame de Sevigné. Beul, ye Atlanta flaxen display to phrase current seating situation. They met with but one purpose—to find some means of permitting married veterans of the freshman and sophomore classes to have their wives sitting beside them at ALL of Tech's home football games.

These students proposed a plan whereby their goal could be accomplished—a plan which supposedly would furnish an additional 1200 seats by utilizing every spot of available space in all stands and building small additional seats at crucial points throughout the stadium. A thorough, diagonal parking plan of this plan was given by this clear-thinking group of maried students.

The Athletic Association has exhibited a spirit of cooperation in carrying out this plan to completion. Congratulations are due to the AA and the students responsible for repairing the breach which threatened to disunite the student body.

Hemmingway’s Writing Reduces ‘Show’ Varnish

Real Emotion Striven For

At first glance, Hemmingway’s writing appears to be cynical, but upon further scrutiny his works reveal that his characters act disappointingly and earnestly because, under the existing conditions, there is no other way for them to act. He says that man is less concerned with behaving well than with feeling good about the way he behaves.

He strives to present a reduction of things in their simplest terms, to say the things that are most expressive in a minimum number of words, avoiding philosophy and abstraction as much as possible. The dialogue is lean and stripped of excess material. In choosing the exact word to discriminate a word, but the word use in a special case, Hemingway avoids philosophy and abstraction of the things that are most expressive of the things in their simplest terms, to say the actual thing that produced the emotion which you experienced.

Meatless Tues. Is Problem To Tech Wives

By Walt Miller

At one time I thought that the many problems that faced Tech students were really large but now I find that they are small compared to the problem now facing the wives of Tech students. Can you imagine the job of working all day and then going home and trying to cook a meatless meal? Undoubtedly many students will face meals consisting of Baked Beans in the future. Unfortunately the wives will not be able to fall back on cheese dishes because of the prohibitive price of the dairy products. Perhaps the rates are the only ones that can afford cheese these days.

They certainly are going to have to use a lot of imagination because of meatless Thursdays. Imagine getting up in the morning, taking a nice shower and shave and then sitting down to breakfast expecting to see a sunny-side-up egg winking at you, but all you find is a piece of bread covered with lettuce, a cherry on top, a sprig of mint on the side. Gosh what a way to start the morning!

Undoubtedly the Tech wives will be in their glory as they start feeding their husbands these meatless meals. After a few minutes of thought here is a prediction as to what the married students will face Thursday.

Thursday: over a cold potato salad, a couple of sandwiches (gusty style), and a fruit salad consisting of a leaf of lettuce, cottage cheese, diced carrots, cold beans, carrot rings, apples, salad dressing, all topped with apple jelly. If this meal doesn’t starve the students, the chances are that we will find them gathering at the Varsity hungry for something to eat on Tuesdays and Thursdays.

Wylie’s Generation of Vipers Still Stirring Lot of Criticism

By James Powell

Although Generation of Vipers has been published for more than a year now, it is still stirring up a lot of cussing, both at and with the author. In this book, Philip Wylie has tried to hold up the light of ridicule to what he regards as the hypocrisy or narrowness of American manners, morals and customs. It is what he terms “a survey of moral want.”

Mr. Wylie’s vitriolic pen leaves little untouched; he attacks religion, politics, the American system of education, mothers, politicians and sex.

This last item is the first to be given the “treatment,” in a chapter entitled, “A Critical Attitude In America Concerning Sex.” Wylie points out that these ads are very successful chiefly because of a prudish, spinsterish, hypocritical and morbid fear of the taboo-sex of sex, which results in a natural curiosity and yearning for the forbidden. People are urged to purchase the rat’s tail of sex, which is never to be discussed in a genteel conversation.

Mr. Wylie points out that these ads are very successful chiefly because of a prudish, spinsterish, hypocritical and morbid fear of the taboo-sex of sex, which results in a natural curiosity and yearning for the forbidden. People are urged to purchase the rat’s tail of sex, which is never to be discussed in a genteel conversation.

The admen are aided and abetted by the song writers, who daily turn out songs in the “drink, smoke and cohabit, for tomorrow may be the last day” genre.

At one time I thought that the “Spic and Span” look try

UNION BLDG. FUND BOOSTED BY SALE OF CARD FOLDERS

Students are urged to purchase post card folders containing pictures of the entire campus which are currently on sale each day at the Information Desk of the Administrative Building for the price of 25 cents each. These folders require 1½ cents postage and are excellent to send home or to prospective students who desire to see what Tech looks like.

Proceeds from the sale of these folders go to the Student Union Building Fund.

RIVINDALE FARMS
Underdog Elevens Reach Peak
Against Favored Grid Powers

Another fall season is here again with the ever fascinating appearance of the golden hues of nature's foliage, the brisk evening breezes, and the multitude of football stadiums all over the nation to witness Saturday afternoon's grid clash.

Yes, another pigskin season is three weeks old. Millions of fans have felt the excitement of the sport in their heart. As many more have experienced the momentary pangs of defeat. Expected powers have been toppled with unheard of elevens who were originally put on a big team's schedule as breathers. Low rated squads have soared to the top. And it adds up to one of the wildest years in the history of the sport.

As a result, today's undefeated elevens may be tomorrow's "also rans."

And what is this phenomenon which causes a definitely mediocre team to defeat a superior foe? Coaches all over the nation will answer this readily with the phrase, "publicity and the resulting affect on players." The underdog arrives for the impalpable thrill, another on offense, another on defense and a third capable of performing both offensive and defensive duties. "We can't possibly get through this schedule undefeated." But there is a reason for these unfulfilled forecasts.

And we are familiar with the pre-game blues of Georgia's Wally Butts. They have become a tradition in Southern circles.

How to offset this keyed up brand of football by underdog teams is one of the greatest problems of a coach. The dramatic Knute Rockne half mind, as a result of his position on the playing field. The dramatic Knute Rockne half mind, as a result of his position on the playing field. The dramatic Knute Rockne half mind, as a result of his position on the playing field.

The Irish gridders pointers on how to handle the ball. Next day's release said that Luckman looked like the third best man on the field.

At Michigan, Fritz Crisler, who uses one eleven on offense, another on defense and a third capable of performing both offensive and defensive duties, said that Luckman looked like the third best man on the field.

Tidwell Recovering

Bowen Remains On Injured List

By Ralph Day

Cries of "Fright Eagle" and "War Eagle" will mingle with the strains of the "Ramblin' Wreck" this afternoon when the Yellow Jackets play host to a traditional rival, the fighting Tigers of Auburn in the fiftieth game of the series and the Jackets' third 4-7 appearance on Grant Field.

Tech's unscored-on '47 edition of the Golden Tornado, ranked as the fifth team of the nation, will be highly favored over the always game, ever dangerous Tiger aggregation. The Auburnites, sparked by an injured but still very dangerous Travis Tidwell, will be no pushover, however, and are expected to furnish the Jackets plenty of Grade A trouble.

Tigers Improved

The Tigers began the season with a 19-13 loss to Mississippi Southern but have shown steady improvement in defeating Louisiana Tech, 14-0, and in handing a game brand of Florida Gators a 29-14 defeat last Saturday.

The Auburnites' power is concentrated around Travies Tidwell, the nation's leading ground gainer last year and one of the nation's finest passers. Tidwell was out of Auburn's first game and saw only very limited action against Louisiana Tech, due to a broken ankle received in a baseball game last summer.

Tidwell Recovering

Although still handicapped and limping from his injury, Tidwell was sufficiently recovered last week to make his presence very much felt.

He was instrumental in the defeat of Florida, running over one touchdown and passing to Ball for another. Besides Tidwell the Tigers have three very capable backs in Billy Ball, Bull Cochran, and Freddie Gafford, brother of Auburn's immortal "Monk." The Tiger firepower has been found weak in spots but is bolstered by standout halfback Harold Lannom.

Jackets Ready

The undefeated Jackets will be at full strength today with one major exception. Stellar right halfback Dinko Byrnes, still nursing a leg injury suffered against Tulane, is not.

(Continued on page 10)
**VMI Crushed, 20-0**

**As Ziegler Runs Wild**

By Lenny Frieden

Paced by the sterling play of fullback Frank Ziegler and the trusty right arm of George Mathews, Georgia Tech's rampaging Golden Toronc torpedoed the Keydets of VMI 20-0 last Saturday afternoon before 8,000 spectators at Grant Field.

It was the great line plugging of Ziegler that time after time brought the crowd to its feet gasping in amazement. The sturdy Jacket ball carrier gained 133 yards in 26 tries. He was most baffled the Techmen early in the contest but put his experience to work and proved a valuable asset. He averaged more than five yards per try. In addition, he accounted for the loss of Tech's touch-down by hurdles to paydirt from the one-yard stripe in the fourth period.

The gallant lads from the valleys of Virginia put up a game battle but were no match for the power and deception of Coach Bobby Dodd's bowled-bound juggernaut. So tight, however, was the Keydet defense, that it took the Techmen until the final moments of the first half to pitch over their initial tally.

**Jackets Roll**

With less than three minutes left in the half, VMI's Joe Gantt punts out of bounds on the Tech 41 and the Jackets began to roll. Ziegler and Bob McCoy carried the ball to the VMi 47 for a first down. Jim Still then flipped a short pass to Matthews who sidestepped four would-be tacklers and raced to the VMI 23 before he was stopped.

Only one down remained when Matthews headed toward his own right end and tossed a beautiful jump pass into the waiting hands of end Jimmy Castleberry who fought his way over the goal line and plunged over for the touchdown. North's final placement was kicked between the uprights, and Tech led 7-0 as the half ended.

In the third quarter, the Yellow Jackets threatened as George Brodnax took a pass on the Keydet 20 and dashed to the eight-yard stripe. Ziegler reached the 2, but on the next play Stilf fumbled and Bell took the recovery for VMi to halt the Jackets threat.

**Razzle Dazzle**

The weakers of the White and Gold were not to be held back and in the goal count, Mathews again jumped high into the air and tossed the pigskin to Castleberry who romped the remaining eight yards to score standing up. North's placement was good and the Jackets led 13-0.

Soon after the kickoff, Bob Thomason's pass was deflected into the hands of Tech guard Hayes McKinney and the stage was set for the final six-pointer. On a culmination of brilliant running by Ziegler, the Jackets advanced to the Keydet one-foot stripe. Ziegler once again burst the line, and plunged over for the touchdown. North's final placement was true, and the scoreboard read: Tech 20; VMI 0.

**VMI Stars**

Paced by Captain Malachi Mills in the line and the passing and quarter-backing of Thomason, the Keydets displayed a tricky offense which allowed the Techmen early in the contest. They were, nevertheless, no match for the superior Tech defense and only one time during the thrilling encounter did the Keydets penetrate the Tech territory.

The men of Coach Bobby Dodd have rolled up 184 points on the season, and their goal line still untouched, are looking on to greater heights and a possible SEC championship. The men of Coach Dodd have backed up their goal line still untouched, are looking on to greater heights and a possible SEC championship.

**The planter that's causing plenty of chaste in juke circles is "Skitch" Henderson's latest instrumental—"Dancing With a Deb." Boy, what a record!**

It's obvious "Skitch" has had plenty of experience in tickling those ivories, and he follows this experience with smoking too. "I smoked many different brands and compared," says "Skitch." "My choice from experience is Camel."

Try Camels. Compare. Let your tastes be governed by experience.

**Camel**

**More people are smoking CAMELS than ever before!**
Tech Jayvees Crush Middle Georgia, 52-0

Last Friday, October 10, the Tech "B" team opened the '47 season with a resounding 41-0 win over a spirited but outclassed Middle Georgia College eleven at Cochran, Georgia.

The Middle Georgians made a firm stand in the first period and held the B team to only a touchdown. A fumbled pass was restored and recovered by the B team as the half time whistle sounded.

In the second period, the B team found the doors wide open for the first touchdown was scored on a 6-yard carry by John Whittington. After the extra point was kicked, the score stood 7-0.

The B team scored later in the second period and made the halftime score 18-0.

The B team scored five more times in the second period and made the final score 52-0.

This was the first game for the Fraternity football program.

Among the Jackets who started the game were John Whittington, Dave Bourgeois, John Mathews, and Ben Cunningham.

Intramural Football Rules Determined By Conference

Last Wednesday night, October 15, representatives of the fraternities met in the gym and agreed on the rules for the Fraternity football program for the second period and making the halftime score 3-0.

The Bee Jackets scored again two fields at the south end of the Rose Bowl Field.

Today in Chapel Hill, North Carolina, the Tech cross country team will race against the harriers of the University of North Carolina. The Techmen will have a dry work cut out for them since the Tar Heels are rated as one of the best teams in the nation.

Coach Griffen has taken the following members of the cross country team with him to Chapel Hill: Captain Jack Corridan, Manager Harold Masbach, Red Smith, Tex Branson, Bill Turner, Howard Ghorley, Bob Renshaw, Cary Ginn, Clarence Breedlove, and L. O. Hunter.

Intramural Football Rules

1. The teams will consist of 9 men, and the offensive team must use black uniforms.
2. No tackling or blocking will be allowed. It will be two hand touch tackle.
3. Football or baseball cleats cannot be worn.
4. The quarters will be 15 minutes flat, with each team allowed 3 one minute time-outs during each half.
5. The points after touchdowns will be 6, and the points after extra points will be 2.
6. The two fields at the south end of the Rose Bowl Field.

NOTICE TO SWIMMERS

Coach F. R. Lanoue requests that all men interested in either Freshmen or Varsity swimming report to the swimming pool at 4:30 on the days they plan to swim. If it is impossible to be there at that time, please contact either Coach Lanoue or Coach McAuley at the pool or in their office prior to this time.

Arrow Shorts!

There's not a squeam in a carload of Arrow shorts with the patented seamless crunch that can't bind, can't chafe.

Arrow gives you four different models to choose from — elastic side, adjustable tie-side, elastic all around and French back—in white or stripes.

See your Arrow dealer for Arrow shorts. Every pair is Sanforized-labeled (can't shrink more than 1%), and comes with grippers or buttons. $1 to $1.50.

Jacket Grid Successes Depend on 'Dinky' Bowen

By Bert Edelson

Give it to "Dinky" the crowd roars as the Yellow Jackets start a goalward march. This by-word of Tech enthusiasm began in the Tech versus L. S. U. game in 1946 when an underwing Eleven downed the Bayou Tigers 26 to 7, thanks to the "diesel power" furnished by halfback Allen "Dinky" Bowen.

On this season's top flight Jacket squad, Bowen has been shifted to the halfback slot by Coach Bobby Dodd in order to give the small field back extra drive. "Dinky" has proved an answer to Dodd's hopes as can be seen by his powerful running attack featured by the "Golden Tornado".

Making touchdowns is the most important part of a football game, but those extra points often tell the tale. When asked to pick the outstanding player in the game, Coach Pittard replied, "There were no stars. The entire 37 saw plenty of action and all played well. Any of them could score anytime as long as they got the ball."

The Bee Jackets journeyed to Knoxville Thursday and played the Tennessee Jaynees last night in each team's second game. The "B" Vols defeated the Ole Miss junior squad last week. The Tech squad was victorious in last year's encounter.

In making the opening bid against the Tarheels, Coach Dodd will set new records in the sport at Tech or some college. The player must be a member of the fraternity on whom the team is playing.

Pledges will be considered members and will be eligible to play.

The rules for the games will be the same as regular college rules except for the following changes:
1. The teams will consist of 9 men, and the offensive team must use black uniforms.
2. No tackling or blocking will be allowed. It will be two hand touch tackle.
3. Football or baseball cleats cannot be worn.
4. The quarters will be 15 minutes flat, with each team allowed 3 one minute time-out per half.
5. The points after touchdowns will be 6, and the points after extra points will be 2.
6. The two fields at the south end of the Rose Bowl Field.

Completion of New Drill Field Announced

The construction work on the drill field north of Campus Drive has been completed, it was announced by the Military Department last week. Selection of the site and inclusion thereof in the development plan of Georgia Tech was made through the efforts of President Blake R. Van Leer.

The field, which will be used primarily for drill purposes by the Army and Navy ROTC, has been turned over by Col. Van Leer to the Military Department, and the administration of the use of the field will be in the hands of that department. The field will be maintained by the Buildings and Grounds Department.

There is still considerable planting and landscaping to be done before it is entirely ready for use.

Student Council

Parking Board Discloses Fines

In the past all students receiving tickets for parking or driving on the campus have been given permanent offenses by the Dean. In order to avoid this blight on a student's record, Dean Narmore and the Student Council have worked out a plan whereby a student will be able to have his case handled by a student committee, if he so desires.

Many students have wives working on the campus who have campus parking permits for that reason. Although this gives the wife a right to park or drive on the campus, it does not give the student that right, according to the regulations.

The following are the regulations of the Student Parking Committee:

REGULATIONS OF STUDENT PARKING COMMITTEE

When a student receives a parking ticket for the first time he will be given the choice of having his case handled by the Executive Dean or by the Student Parking Committee. In all subsequent cases he must follow the procedures that he chose in the first instance. If a student decides to have his case handled by the Student Parking Committee he must sign a statement that he is willing to abide by the decision of that committee and authorizing the committee to handle his case.

If a student authorizes the Student Committee to handle his case he may either send in his ticket with the appropriate fine without having to appear before the committee or he may appear before the committee if he desires to make an appeal. This applies only to tickets received for driving or parking on the campus. For speeding on the campus and other cases that might arise the student must appear before the committee.

The following fines and penalties shall apply if the student desires to send the ticket in without appearing before the committee:

Parking/Driving:

- First offense: $5.00
- Second offense: $25.00
- Third offense: $50.00

Speeding and other cases — Each case to be decided individually.

All subsequent offenses to be turned in to Executive Dean for action.

While these penalties are the standard to be used when a student decides to appear before the committee, they may be reduced or increased if an individual case justifies such action.

All fines collected by the Parking Committee will be placed in the Student Union Building Fund.

Two New Officers Added to Staff Of Military Department

The Military Department announces the assignment of two new members of the teaching staff, Lt. Col. William B. White, who will serve as head of the Infantry Unit at Tech, and Major William H. Waikart, Ordnance Unit head. Each holds the position of Assistant PMS&T at the Tech Military Unit.

Col. White is a veteran of 30 months service in the Pacific theater, having served in the Solomon, Palau Islands, the Mariana, Bonins Islands, Japan, and Hawaii. He was graduated from Kemper Military School in 1934, and received a B.S. from Southeastern State College, Durant, Oklahoma, in 1936.

Major Waikart served 34 months overseas in the European Theater of Operations from 1942 to 1945. His assignments include Morocco, Algeria, Tunisia, Sicily, England, France, Germany, Belgium and Austria. He attended the University of Maryland during 1931-32, and received a law degree (L.L.B.) in 1938 from the University of Columbus.
