ELECTIONS TO HONOR SOCIETIES ANNOUNCED

The annual Honor Day Exercises, sponsored by the Phi Kappa Phi National Honorary Scholastic Fraternity, were held on Thursday, April 13, in the academic chapel. These exercises are held yearly for the purpose of bestowing honors on outstanding students. The exercises Thursday marked the presentation of medals, certificates, gold and silver cups to their winners and the announcement of elections to honor societies and of members of the Phi Kappa Phi Fraternity.

The program was opened by the Glee Club orchestra, which was greatly enjoyed. President Britain then extended a greeting to the audience. The feature speaker of the afternoon was Professor Soper, the Dean of the University of Georgia. His address was greatly enjoyed by all present.

Announcement of the winner of the Friederichschul memorial scholarship, awarded by Dean Field. This cup was won for the year 1965 by the Phi Kappa Phi Fraternity.

Newly elected members of Tau Beta Pi, national honorary engineering fraternity, were announced by Professor Field. The members are: W. E. Bickers, textile engineering; E. A. B. Novak, general architecture; C. E. C. Braxton, chemical engineering; E. C. Bosworth, mechanical engineering; W. E. B. Bowers, E. E. Irons and M. J. B. Bowers, mechanical engineering.

Professor J. L. Daniel announced the election to Phi Kappa Phi of the following members: R. E. L. Bowers, E. M. A., captain of the varsity football team; J. D. Reed, F. A., captain of the varsity track team; and Lieut. H. R. T. W. Craighead, F. A., captain of the varsity baseball team.

TRACK STARS ARRIVE FOR TECH RELAYS

R. O. T. C. AIR CORPS UNITS DISCONTINUED

SIXTH TECH RELAY OPENS TOMORROW

Tech to Make Strong Bid for Honors

One of the greatest aggregations of military personnel to visit Tech will be on hand tomorrow afternoon to open the sixth annual R. O. T. C. units' All-American track meet. The list of attendees to the entry list, although not complete at this writing, boasts of some of the leading schools in the North as well as practically all the Southern schools. The teams will be better and faster than any Tech team of the past, and the grounds and track are in good condition. If the weather man gives an even break to the athletes a great meet will be held, with the chances of several records being equaled if not broken.

Every college in the Southern conference will be represented. The members of the R. O. T. C. have also sent in their entry list.

The University of Georgia will be no exception. This year they garnered first place with a score of 127 points. The second highest score was earned by the Alabama engineers. Indiana has one of the best teams in the country today; they will show up with a lot of spirit.

The Tech team with the Hoosiers will be the strongest Tech ever to visit a Southern school. The Hoosiers have just returned from a Professor's Cup meeting in the South and are a very good bunch of fellows.

The Tech will have a hard afternoon ahead of them to try to make a stand in this meet. Indiana has one of the best teams in the country today; they will show up with a lot of spirit.

The Tech's best chance is the sprint medley relay. This is one of the few events that the Hoosiers cannot take charge of.

(Continued on Page 4, Column 2)

NOTICE TO ALL REPORTERS

To Ask Increase in Uniform Allowance

On Monday, March 5, this week, the Tech R. O. T. C. officers met and held the meeting of the Fourth Cor religion, going to represent this Tech in this meeting, which was held at the University of Alabama at Tuscaloosa.

The R. O. T. C. Officers present were:

R. O. T. C. HEADS MEET AT TUSCALOOSA

At Tuscaloosa

To Ask Increase in Uniform Allowance

On Monday, March 5, this week, Doctor British and Colonel Pearson attended the meeting of the Fourth Cor religion, going to represent this Tech in this meeting, which was held at the University of Alabama at Tuscaloosa.

The R. O. T. C. Officers present were:
It is with pages of deepest regret that we record the death of A. Frank Mann. Among the many magnificent structures as the new dormitory on campus. The student body will be left old and as time goes on as the school grows and the old Alma Mater. At the same time the men have grown, the old school, there will come to the mind of their memory of the night life that existed on Spring and West street. Now there was, and he will be forced to wander if this life, with the passing of time, and the growing of the city has not come too close to the school for the good of his son. And so A. Frank looks at the beautiful new building. The Georgia Tech is to be erected, and now that new structures to the quiet of the country where he and the other followers of the great old institution might live in an atmosphere of quietness and freedom away from the madam fields.

A. Frank wishes to extend sincere appreciation to the Alumni of Tech for the love of their old alma mater and the principle of the second class.

The government offers this excellent period of training, development, and association with young men and women to any of the principles of citizenship at college and other schools. The primary purpose of the camps is the development of leadership--strengthen in every citizen the respect for law, high ideals, and fervent love for his country. To cooperate with the government and the state in winning the hearts and minds of the people, and to help them understand the great issues of the day.

Camps are held at various locations during the summer. The camps are conducted by the state government, and the cost of the camp is not to exceed $25. The camps are open to all high school students in the state of Georgia.

CAMPUS CALENDAR

April 13: Baseball, Tech vs. Mercer (Grand Field) 4:00 P.M.
April 13: Chemical Association Student Program (Pondment Dining Club) 10:00 P.M.
April 14: Baseball, Tech vs. Mercer (Grand Field) 5:00 P.M.
Saturday, April 14: Sunday School 9:15 A.M.
Sunday School 11:00 A.M.
Monday, April 15: Tech-National Moral Week (Y basement) 7:00 P.M.
Tuesday, April 16: Fellowship Hall Meeting (Y basement) 7:00 P.M.
Wednesday, April 17: Tech-National Moral Week (Y chapel) 7:00 P.M.
Thursday, April 18: Tech-National Moral Week (Y basement) 7:00 P.M.
April 19: Pajama Party (Y basement) 10:00 P.M.

Youth on a lark... to Europe

Dancing, sledding, playing... over the top of the Tourist Third... and have more money to spend abroad...

$193.50

(Round Trip) in Conard Comfort

Go the economical way with adventurers of your own age... people who are determined that they will see and get all the advantages of having seen Europe who want to save their money to spend while traveling there and who enjoy a trip on the ocean for its own sake.

Do you realize it may inexpensivey this can be done on big Cunard ship... such as the CASCARIA, CARNAVAL, LANCASTRIA, and TUSCANIA?

You are barnhaw in a comforable, clean cabin, you have good food, nicely served, you have all the space and you enjoy the company of your own kind of people... because they are either like you who feel the adventures old of traveling on the ocean liner.

You will dance on moonlit decks to the rhythm of a college orchestra no fee for dance has yet resisted. You will see in salt water fun for provided deck town. You'll see the day's events on a bark screen your entertainment. And you should not shrink away from such a trip by reason of cost.

$193.50

(Continued from Page 1) 

Where “good enough” isn’t—WAS there ever a “good enough” stroke? Was there ever a winning crew—or, in the business world, a progressive industry—perfectly satisfied with its own coordination?

This self-critical viewpoint at Western Electric has brought together chemist and mechanical engineer to improve ceramics manufacturing methods; mechanical engineer and metallurgist to create new wire-drawing processes; production engineer and personnel manager to create new records for standardized employment.

There is no resting on the cars in this work of building the nation’s telephone equipment. Nor is there a slackening of effort for men with vision, the ability to co-ordinate, and the will to achieve.

Senior Co-ops Make Inspection Tour

Engineers Visit Morgan Falls Plant

Last Tuesday afternoon, April 10, the entire membership of the Senior coop-ergenereal engineering class of the second section paid an inspection trip to the Morgan Falls hydro-generating plant. The inspection tour was under the supervision of Profes­ sor Matson, as a parallel study in connection with the subject of hydro-electric power plants.

The Morgan Falls plant, commonly called Bull Shoals, is owned by the Georgia Power Company and is located 20 miles north of Atlanta. The plant is about 25 years old, and is equipped with the horizontal style machinery. Quite a bit was learned there concerning the practical side of a hydro-generating plant.

The trip was made by automobile and the party left immediately after lunch last Tuesday and returned late that afternoon. The arrangements were in charge of a committee com­ posed of Frank Barwick, chairman; Ed Daniel and Henry Moore.

The Morgan Falls plant has a 21,000 K. V. A. rating and it alone is capable of supplying power for all the street cars in Atlanta. This plant cost $1,000,000, being built in 1909, and was the first plant of the city's hydro-electric power.

RATS VICTORS OVER RIVERSIDE CADETS

Revised Lineup Shows Great Power

Freshman Auburn Cuts in Relief

The freshmen have been showing some unusual form in their performance so far this season, and they have defeated practically all competing teams, losing but a single game. The loss of the victory was Riverside, and next on the menu will be the Junior Freshmen.

The team will journey down to Auburn to play the junior Tigers, April 13 and 14, and Coach Mundorff expects the Junior Freshmen to take those contests.

Some changes have been made in the infield on the freshman squad and it looks like it gives the boys a crack such quartet. Tom Jones has been moved from left field to second base, and has been performing brilliantly at that position, and he has also shown a steady batting eye.

Dunlap has been transferred to third, and leaves to short. Dunlap is also an effective hitter. Holt has been holding down initial bag with unusual ability, and of the catchers, Herron's work has been outstanding. The flinging stunts of the fresh have been Quinn, Brannon, and "Lefty" Murphy.

The outfield for the Monticelloians is as yet untested, but Temple, a newcomer, has been showing up well, and will be hard to beat. Other members out for the squad thus far have been Dunmore, Clarke, Dyer, and Lackley.

The team has suffered greatly through the loss of some star players on account of ineligibilities and probation.

Captain Watts Gunn Shoots Great Golf to Win Match

Final Score Is 105 to 77

Shooting golf that was at times unusually good and then at other times consistently bad, the Tech golfers have won the aggregation from the University of Georgia by a point average of 10 1/2 to 7 1/2 under the Nassau system of scoring. The winning of this match makes Tech even more of a contender to cup the Southern Conference crown in golf, which they held last year, for the Georgia boys were admittedly the weakest rivals that the Jackets will have to encounter in the south.

Captain Watts Gunn shot the best, and turned in a card for a 77, which was remarkable, considering the windy condition of the course. Johnny Oliver, of Georgia, turned in the next best card, which was a 78, and might have been several strokes better if a few inches had been added to the diameter of the cup.

In the first foursome Watts Gunn and Charlie Brumley defeated Billy Oliver and Charlie Nunnally by a point score of 8 1/2 to 2 1/2, while "Shag" Irvin and Joe High Williams dropped their foursome to Johnny Oliver by a point score of 7 to 3. Both Irvin and Williams were badly off their game and are capable of shooting much better brand of golf, of the presence of the high winds caused considerable interference.

The cards of W. Gunn and J. Oliver follow:

Watts Gunn—Out 39 45 44 46—183

Johnny Oliver—Out 36 46 44 48—174

The Alpha Tau Omega fraternity carried off first honors in the inter-fraternity track meet held on Grant Field last Saturday, making their second victory in the last three events.

The first event of the meet was the 100-yard dash which Charlie Witmer traveled the distance in 10.9 seconds flat.

Jacket, is Tech's best bet. He will lead the Jacket quartet.

Ed Hamm and Earnest Kontz will place Tech Y. M. C. A. billiard tables.

Ray Brock, freshman hurdler, will also be on deck.

Papa Hood will be Tech's main weight man. Bob Horn and Jake Rauder will help him out. Horn is also shaping up well in the discus throw. He packed a wicked throw in his prep days, and with the constant practice he has been putting in will be no small threat.

Frank Nash will be Tech's only bet in the pole vault. Frank has been showing fine form during his workouts.

In the distance runs, Tech has a flock of fleet youngsters. Rock Rowe, Red Wallace, Harry Anastasias, Slim Beall, Ed White and Hank Heske will make up the two-mile relay team. In the four-mile relay there is Tom Wright, Ray Brewer, Crosfield, White and Chir Owens, the boy who won the cake race. Wright will also run the distance relays.

The schedule of events follows:

2:00 Trial heats in 100-yard dash.
2:10 Trial heats in the 120-yard high hurdle.
2:20 Quarterly-mile relay for Junior high schools.
2:25 Finals in the 100-yard dash.
2:30 Finals in the 10-yard high hurdles.
2:40 Distance medley relay for colleges.
3:00 Half mile relay for freshmen.
3:00 Half mile relay for colleges.
3:10 Quarterly-mile relay for grammar schools, class A.
3:15 Quarter mile relay for grammar schools, section A.
3:20 Half mile relay for preparatory schools.
3:30 Half mile relay for high schools, section A.
3:40 Half mile relay for high schools, class B.
3:50 Half mile relay for colleges.
3:50 Half mile relay for high schools, section B.
4:00 Four-mile relay for colleges.
4:00 One-mile relay for preparatory schools.
4:00 One-mile relay for high schools, class A.
4:00 One-mile relay for high schools, class B.
4:50 Two-mile relay for colleges.
4:50 Trial heats, 22-yard low hurdles.
5:10 Two-mile special race.
5:20 Two-mile relay for freshmen.
5:30 Spring medley for high and preparatory schools.
5:40 Finals in 220-yard low hurdles.
6:00 Sprint medley relay for colleges.
6:10 Sprint medley relay for high schools.
6:00 Pole vault.
2:00 Shot put.
3:00 Discus throw.
4:00 High jump.
5:00 Broad jump.
5:00 Javelin throw.

Remixed Concrete Endures

With building for the future, an invaluable quality is sought—endurance. In endeavoring to capture it, every material is carefully selected to withstand the ravages of the elements and of time.

Just a glance at the new Elks Club building in Los Angeles, pictured above, gives evidence that the architect, engineer and contractor were striving for permanence as well as beauty. With these ideals the quality of the concrete did not escape their attention. Two Koehring mixers, a Heavy Duty 21'S Mixer and a Dandie 7'S Mixer, were used to mix the concrete for the foundation walls and floors. Through the Koehring remixing action it was assured that every foot of concrete would be uniform and of dominant strength. Koehring re-mixed concrete endures.

Mr. Hannaford to Go to A.L.E.E. Meet at Denver

Represents Southern District

At the close of the Student Activity Conference of the A.I.E.E., Mr. Hannaford, professor of Electrical Engineering, was unanimously elected as delegate to the Denver session of the A.I.E.E. in June of this year, in recognition of the splendid service which he has given to the A.I.E.E. and his success as counselor of the local branch. This is the first time in the history of the A.I.E.E. that a delegate as young as Professor Hannaford has been entrusted to represent the Southern district and the honor done him is a distinct complexion of the A.I.E.E. and his success as counselor of the Southern district and the present time in this history of the A.I.E.E.

Mr. Hannaford to Go to A.L.E.E. Meet at Denver

Represents Southern District

Due to his unfailing interest in the tire school. The students all back his decision. European Tour to
Combine Pleasure
With Study

Eastern Universities Conduct
Venture

An industrial inspection tour to Eu­
rope, designed for engineering stu­
dents and instructors as well as fac­
tory executives, has been scheduled
for the summer of 1928.

This tour will coordinate the plea­
sures and advantages of foreign tra­
dents and instructors as well as fac­
ulty educational and technical vis­
tory, and the second covering phases
of industrial organization and man­
agement, which will be in charge of
Professor J. A. Moyer, director of Engi­
neering Extension, Pennsylvania State
College.

Sailing from New York, July 14th,
the Tuscania, the itinerary will in­
clude visits to London, Birmingham,
Manchester, Sheffield, Liege, Dussel­
dorf, Cologne and Paris. The return
trip will be made on the Berengaria,
arriving in New York August 24th.

The really big man doesn't have to
stand on his dignity.

The worst snob is the fellow who
brags about his poverty.

When your mind balks at "figurin"—

If yours is a mind easily confused by interstellar distances, infinity
of space, light-years, weighty statistics—forget the ponderable fact
that Canelo leads today by billions. Just light 'em . . . smoke 'em . . .
revel in their fragrance. Watch your barometer swing to "fair and
cooler"—and let your smoke-sense tell the tale of Camel supremacy!
