ED. HAMM ELECTED PRESIDENT OF STUDENT COUNCIL

Deans Skiles Gains Place in Who's Who in America

Dean T. V. Skiles has been added to Who's Who in America, as shown in the 1929-30 edition. His name has been added because of his contributions to the business school of Georgia Tech. This is the third time that he has been added to Who's Who in America.

Meetings of Sophomore Class Called For Tuesday

Woodruff Appointed Business Manager by General Student Council

Edward B. Hamm, holder of the world's record and Olympic broad jump, has been appointed by the Georgia Tech Student Council at a meeting of that body on Tuesday, October 5. At the same time, the following students were appointed as Student Council officers: Engineer Frank Waddey, vice-chairman; Ward Spence, secretary; and Wadeson, treasurer.

H. S. Woodruff, a senior in the department of mechanical engineering, has been selected as the business manager of The Technique. The election was held last week before the entire student body.

Below is listed the enrollment as of October 1, 1928, for day school and evening school.

Many Honorary Frats Reward Outstanding Work at Tech

Established at Georgia Tech are a number of honorary fraternities that have for their purpose the rewarding of students who achieve distinction in many lines of campus endeavor. Every man at Tech should make it his ambition to complete the necessary requirements for membership in the honorary fraternities.

Phi Kappa Pi is the highest scholastic honor society for any man or woman at Georgia Tech. To be eligible for membership in this fraternity one must have an average of 89 or above for the past and one-half years. Another honorary fraternity of high scholastic standing is the Tau Beta Pi. It is quite an achievement to make it as only the highest one-eighth of the Junior Class and the highest one-fourth of the Senior Class are eligible.

The highest honor conferable on a textile student is to be elected to the Phi Fraternity. It is the object of this fraternity to promote a closer feeling between textile students. Only Juniors and Seniors of the textile department are eligible.

Membership in Beta Gamma Sigma, the Delta Sigma Pi or the Alpha Kappa Psi is coveted honor of the commerce men. The purpose of these fraternities is to give prominence to the commerce department. Only Juniors and Seniors from the commerce department are eligible.

The ambition of all men who work on a campus publication are eligible. College opens some time in the fall of each year, and a six weeks vacation three months. Little stress and perplexity meet the new man in the graduating class of 1928. The essays are to be limited to 500 words and will be judged on the basis of originality and substance of composition and style. One prize is for women and the other is for men. An essay may be submitted only once, and all copies are to be submitted to the various committees by October 20th. The High Five News, the Columbia, S. C. Record; Nashville Tennessean, Lexington Herald, Nevada State Journal, Atlantic and Providence News are co-operating with the College in this effort.

Essays must be sent to the various papers or to the New York committee at 1776 Broadway, New York, or the Central Regional Committee at the Hotel Jefferson, St. Louis, Mo.; or the New England Committee at the Hotel Statler, Boston, Mass. Each of the various committees will pick the best essay by men and the one written by women as submitted to it. Those only to whom each committee will send the letters of commendation for writing essays that will qualify for the prizes.

Tarheels Doped to Repeat 1927 Victory

Tech Squad Prominent

On November 20th, all of the South's best cross-country teams will meet here in Atlanta for the annual S. C. Meet. The South's schools will be represented and it is a regular Chinese puzzle to even try to predict who the winner will be.

For the past two years North Carolina has twice carried the highest honors, winning the meet by comparatively easy victories. North Carolina again bids fair to lead in the meet, but there are also many other promising teams.

Tech, as usual, will have a good cross-country team on the road, and probably has second best chance to win the conference. Capt. Brewer has a good number of men supporting him. Among the most promising are Crisfield, Summerville, Rowe, Morgan, Parke and Dorris. There are also a few freshmen from last year who showed up well in the race that will make strong bids for varsity spots, namely: Chapman, Wright, Ervin, Taylor and White.

The Freshman Cake Race which is usually held the last day of the spring has been pushed up to Monday, October 26th this year. This is decided help as it will bring out much promising track material that would otherwise remain undiscovered. Every freshman is required to run this race. The usual number of varsity races will be run and efforts will be made to keep them of a competitive nature.

This year's race will be a decided help as the last year's frosh, will present a good number of men supporting the Freshman Cake Race which is always a good event. Notice will be given of meet April 1, 1929.

Veteran Jacket Team Shows Brilliance in Practice

Frosh Strengthens Squad

If one looks down Grant Field way these days they will find a bunch of hard hitting football players who will try again to keep the Tech club ahead of the rest of the Southern colleges in this fall's race for Southern Conference honors. The frosh team has been complete team at work on the flats at present, and just after Labor Day will go out agin for several weeks in order to get them in such a state of condition that they can enter the game against Richmond so far ahead of the Richmond player to make it a really decisive meet.

This year's Frosh team is a decided help as the last year's frosh team of last year will be big factors in this year's race for the flag. Many of the players have been working out with the varsity teams and expect to be able to play in the required grade in a commercial subject.

One of the largest and most successful of the six games played with V. M. I. was the last game in the series and it was a real test of the two teams. The impressive part of this series was that the players work them with persistence and serious efforts have been made to keep the Tech clubs at work on the flats at present, and just after Labor Day will go out again for several weeks in order to get them in such a state of condition that they can enter the game against Richmond so far ahead of the Richmond player to make it a really decisive meet.

The frosh team has been a decided help as the last year's frosh, will present a good number of men supporting the Freshman Cake Race which is always a good event. Notice will be given of meet April 1, 1929.

A pessimist is one who hops in the road of the good bed, I'll be back to you in 17 minutes. The Freshman Cake Race which is usually held the last day of the spring has been pushed up to Monday, October 26th this year. This is decided help as it will bring out much promising track material that would otherwise remain undiscovered. Every freshman is required to run this race. Sarah W. Steen's - "The Shield Identifies the Southern Conference Junior Flag" The Shield identifies the Southern Conference Junior Flag. The shield is 2 1/2" x 2 1/4" and is divided into four parts. Each part is a different color and contains a different symbol. The shield is divided into four parts: the top left is red with a white star, the top right is white with a blue star, the bottom left is blue with a red star, and the bottom right is green with a yellow star. The stars are arranged in a diagonal pattern, with the red star on the top left, the white star on the top right, the blue star on the bottom left, and the green star on the bottom right. The shield is attached to a ribbon, which is 28" long and 1/4" wide. The ribbon is red and has a white border. The shield is attached to the ribbon at the top left corner, and the ribbon is tied in a bow at the bottom right corner. The shield is mounted on a metal stand, which is 18" tall. The stand is silver and has a flat base. The shield is mounted on the stand at the top left corner, and the stand is attached to the bottom right corner of the shield. The shield is made of brass and is polished to a high shine. The shield is fastened to the stand with four screws, which are 3/8" long and 1/4" wide. The screws are gold and have a hexagonal head. The shield is inscribed: "The Shield Identifies the Southern Conference Junior Flag." The shield is a symbol of the Southern Conference Junior Flag, which is a symbol of the Southern Conference, a group of Southern states that organized the Southern Conference in 1922. The Southern Conference was created to promote the interests of Southern universities and to provide a forum for the exchange of ideas and information. The Southern Conference Junior Flag was created in 1922 to represent the Southern Conference Junior Flag, a group of Southern states that organized the Southern Conference in 1922. The Southern Conference Junior Flag was created in 1922 to represent the Southern Conference Junior Flag, a group of Southern states that organized the Southern Conference in 1922.
First Year Work Important in Building Up Team

Team Work Stressed

Building Golden Tornado teams of the future, Georgia Tech coaches are going to give more attention and time to the Freshman gridiron eleven of the school this fall than ever before. Head Coach Alexander, who presides over the football elevator district, and the 1928 Freshman team is very good in his position, and Coach Alexander has been the leading man on the staff.

Last Saturday at Richmond V. M. I. suffered its first disappointment of the 1928 season when the Richmond Spiders sent the Cadets home with a 6-6 tie instead of the expected V. M. I. won. It was a hard fought game with Richmond holding the edge all the quarter.

In the second quarter a nice pass from the end to the quarterback and then a long extended drive by Barnes and Hunter carried the ball across Richmond's goal. V. M. I. failed to kick the extra point, and as a result were still behind.

It was a decided disappointment to the Cadets as they were defeated least fourteen points better than the Tigers.

TECH TO GIVE FRESH MORE TRAINING ON GRIDIRON (Continued from Page 5) their defensive play were marvelled at by many football wiscracks. Great as those teams were, CoachAlexander expects Clay and his assistants to turn out even a great concentration of football stars this year. Last season a number of the most dependable and valuable members of the Varsity squad were graduates of Clay's 1926 team. Rummy Thor, one of the most versatile men in the Golden Torchback halfback; Mike, a fine backfield man, ofensively and defensively; Waktins and Frier, the great tackles, all were scintillating members of the 1926 Freshman eleven. When Coach Alexander, Fincher and Miller began to fashion the Varsity football team for 1928, it will be from members of the Freshman teams of 1926 and 1927 that they will largely have to work.

Leon Brown to Lead Marionettes for Coming Year

The Marionettes held their first all-male meeting last Friday afternoon. At that time plans for the Fall and Winter programs were discussed, but nothing definite was decided. Plays were proposed, however, one of which was selected soon and work on the production began. Several trips were suggested, and it is thought that two of those may be made before Christmas.

Due to the successful trips of last season, a number of engagements have already been reported for this Fall and Winter. The Marionettes like all other activities on the campus strive to make each year more successful than the preceding one. Any group who have had experience in club dramatic or dramatic work, or who will be interested in the work in this group are urged to come out. Notice for the Fall meetings will be posted within the next week.

The annual Spring Banquet was held last year after the last issue of the Technique was published. The election of officers was made at that time, the following men being elected for the coming year:

Leon Brown, President; Amiel Talbot, Vice-President; Frank Sacka, Business Manager; Dougil Bartholomew, Publicity Manager; Howard Branton, Stage Manager; B. E. Edwards, Secretary and Treasurer.

The first year football men said: "This year, the Freshman team will be the best equipment of the highest quality. We have set aside a field for practice, and the new men will have ample opportunity to work up their own teams and team spirit with out being bothered by the presence of any other squad of players on the field."

The schedule being arranged for Coach Clay's team will be the most attractive ever mapped out for a first year team. Already games have been secured with Monroe A. & M. and with the strong Florida team. Then, of course, the first year men will have their annual game with the University Freshmen, a game which always excites the keenest interest in both players and spectators. And we have other games in mind for the first year team.

"But it is in the hard scrimmage periods against the Varsity that the first year men really learn football," concluded the Tech head coach. "And we are planning to give them a great deal of this sort of work—It is invaluable for both the Varsity and for the Freshmen."

MANY HONORARY FRAT REWARD OUTSTANDING WORK (Continued from Page 3)

Those men who have proven themselves exceptionally efficient in military work are rewarded by being taken in the Seaboard and Blade. This honorary military fraternity has as its purpose to spread intelligent information concerning the military requirements of the country, to unite in closer relationship the military departments of various colleges.

The presidency of the Mu Lambda Sigma and has as its primary function to keep the students informed as to the latest news regarding the military service of the nation.

The Kappa Kappa Psi is the international musical fraternity. To this fraternity should be added every member of the Tech Band who was on the Band last season. There was a student kicked out school for sneezing during a French exam. The prof. thought he was saying a French verb.

Electricity opens a new era of ocean travel

Miraculously quiet and vibrationless, luxurious and swift, the new electrically operated S. S. California, largest American-built passenger ship, has opened a new era in ocean travel. Electricity drives the California so efficiently that the fuel bill for the initial coast-to-coast trip was even less than the Canal tolls. Electricity fans the winches, bakes the bread, makes the ice, polishes the silver. And electricity cools the cabins and provides passengers with the comforts found in the finest hotels.

Complete electrification makes the California an engineering marvel and a commercial success; it is booked far in advance, a sister ship has just been launched, and another is under construction. On sea or land, in every walk of life, electricity is in the van of progress. Undreamed of yesterday, the electric ship is today an engineering marvel and a prophecy of the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

"A Technical School With a National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers young men of ability and ambition a training which will fit them for positions of responsibility and power.

The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record which its alumni are making in the productive work of the world. Georgia Tech graduates succeed because they have been trained both to think scientifically and to work efficiently.

Plains Made for Additional Home

Two Tech fraternities have moved into houses purchased by Chi Beta Sigma and Delta Sigma Phi Fraternity. Chi Beta Sigma has moved from the comer of Spring and Fourth streets and Chi Beta Sigma has moved to North avenue. Plans are now under way by the other fraternities to build in this section of Dixie. Now, we are here in a big variety of styles.

A. S. M. E. Announces Fall and Winter Programs

The Georgia Tech Student Branch of the American Society of Mechanical Engineers held its first meeting of the year on September 25, Chairman Wadley Glenn presiding.

A prize offered by the local branch was announced. This prize is to be awarded to a member who will be selected by the members. It consists of a trip to New York with all expenses paid to attend the annual meeting and the Power Show which is held the first week in December.

The meeting was addressed by Mr. W. O. Livingston, chief service manager for the southeastern states for the Olds Motor Works, makers of the Oldsmobile. Mr. Livingston pointed out many refinements made in automobiles and told why and how these were made. He made frequent use of the Oldsmobile chassis in the class room to illustrate his talk.

On October 2nd a moving picture will be shown entitled "Through the Oil Lands of Europe and Africa." Other pictures to be shown this semester are as follows:

- November 6—"Artefacts of Industry."
- November 30—"Twelve Points of Safety." "Sherry." "Golden Rule."
- December 4—"Pillars of Faint."
- January 8—"Nature's Power."
- January 22—"Men and Management."
- November 29

The A. S. M. E. meets every Tuesday at one P. M. There is usually a talk by some man prominent in the industrial world, but pictures are not to be shown. Visitors are cordially invited to attend any of the meetings.

With Other Colleges

(Continued from Page 1) and next to impossible to put out the game.

The probable ends, Holland and V. M. I. aggregation came into the game; the Yellow Jackets outweigh the Cadets at least twenty-five or thirty miles. Whereas weight carries power, it will rely but little on passes, depending on end runs and fast line backs. Some say that the Yellow Jackets stack up, should prove impregnable of the running.

As the team lines up, it will give the V. M. I. cadets considerable trouble. Some say that the Yellow Jackets outweigh the Cadets at least twenty or thirty miles. Whereas weight carries power, it will rely but little on passes, depending on end runs and fast line backs. The backfield will probably include in a hotel at Tampa, Florida. As an operator at 183 and 178. Captain Peter Pund, outstanding center in the conference last year, is one of the best passers in the country. He weighs in at 195. That line, as it once was, though. Weight won't advantage. It is not the advantage old days, a team that outweighed its the church, amplified, and then sent via 154, which was installed in a hotel at Tampa, Florida. As an operator at
