Enrollment Drop To Austrian Educators

By Bill Paradice, Jr.

Georgia Tech's Industrial Engineering School will be host during June and July to a group of the project, sponsored by the Mutual Security Agency, will be supervised by Dr. Robert N. Leisher, Associate Professor George. The Soviet Union, and most European countries will study the technological aspects of interest in key fields of Industrial Engineering, as employed by American universities, in order to implement the presentation of similar course materials in Austria. The project will begin on May 28 and the participation of the students in this country and will probably end by the middle of the month.

The Industrial Engineering School at Tech was chosen for the project from the other American colleges and universities, to give the foreign school of its kind in the United States. The entire Industrial Engineering faculty will be the leaders for the group while they are here. The students from Austria are the representatives of the field of education, labor, management, and the like. They are all talented young men who represent the best that Austria has to offer.

Colonel Frank F. Greenhouse and Dr. Robert N. Leisher of the Industrial Engineering School informed Tech and Mr. H. H. Brown of MAA will meet the group in New York and then they will proceed to Atlanta and Tech. All inquiries concerning this expedition should be directed to Dr. Robert N. Leisher of Georgia Tech.

A special room will be devoted to the organization of the IE curricula and the presentation of course organization to the faculty. The formal presentation of this organization will be made with the main thought of preparing sufficiently skilled and capable engineers to allow the group to duplicate each course and to integrate it into the curricula of the schools in Austria.

Survey tours of American plants for practical demonstrations of Industrial Engineering principles and practices will be intergrated into the project. Special arrangements have been made, not only for inspection tours of the production lines for the first hand application of modern industrial engineering methods, but for conferences with top-management specialists in the various fields.

The plants to be visited have each been selected for the purpose of demonstrating certain notable applications, such as outstanding material handling methods, production control, test centers, and versatility of layout or building design.

Training, labor relations, cost control, and general economic considerations will all be discussed on the basis of immediate practical representatives of the management. Symposiums will be conducted on these topics.

According to a recent meeting of the IFC Singing Contest Committee, consisted of Jim Machman, Chairman, Barry Barrett, Secretary, and Jack Murphy, Sergeant-at-Arms.

At this meeting, Jack Burgess was named winner of the "Outstanding ME Sophomore Award," which is presented annually.

Cuban Students Celebrate Anniversary of Independence

Last week the Cuban students at Georgia Tech celebrated the fifty-fifth anniversary of Cuban independence. This is the first time that any of the Cuban students have been able to celebrate this important event due to the fact that Cuba's independence was realized "not because of the efforts of the Cubans but because of the efforts of the United States." The students were delighted to be able to celebrate this historical event and to share their knowledge and experiences with their American counterparts.

The festivities consisted of a banquet in the ODK Banquet Hall never finished; it goes on and on, to the fifty-fifth anniversary of Cuban independence. New Members Are Elected To AE Fraternity

The Georgia Tech chapter of Tau Omega, National Aeronautical Engineering Honorary Fraternity, has recently elected to membership seven students in the Aeronautical Engineering Department. The new members include five juniors and two seniors. The seniors are July J. Roberts and John T. Sides. The juniors are Andrew B. Reaves, David F. Gordon, Jr., and Stanford H. Reynolds. The new members will be held Friday, May 30, and will be followed by a banquet at the ODK Banquet Hall.

The society elected Frank E. Price, a Junior in the Aeronautical Engineering Department, to the office of President. Osmund T. Peace, a Junior in the Industrial Engineering Department, was elected Vice-president; John S. Parrish, a Senior in the same department, was elected Secretary; and E. B. Smith, a Junior in the Mechanical Engineering Department, was elected Treasurer.

The initiation of the new members will be held Friday, May 30, and will be followed by a banquet at the ODK Banquet Hall.

The membership of Tau Omega is selected from those Junior and Senior students of the Aeronautical Engineering Department who have exhibited high standards of scholarship and character.

Betta Theta Pi Group Wins Fraternity Singing Contest

By Norman T. Tarlin

On Tuesday, May 24, at 6:30 p.m., the Interfraternity Council of Georgia Tech sponsored a unique Song Contest for the benefit of those Tech students who wish to display their vocal talents. The Beta Sigma Singing Contest Committee consisted of Jim Watlington, Chairman, and Geraldine B. Irvin, Vice-Chairman.

The winning Beta's were the Beta Sigma Phi Chapter of Beta Sigma, which ac-

Cuban Students celebrated the anniversary of Cuban independence in the ODK Banquet Hall. The students shared their knowledge and experiences with their American counterparts.

Cheating

...should not be taken lightly.

Last Friday morning two Georgia Tech students were tried in Atlanta Municipal Court for disorderly conduct—malicious mischief. Specifically, the students were charged with breaking into a professor's car and altering answers on examination papers. The court imposed fines on the two and released them for further trial by Georgia Tech. Another student tried by the committee for further trial by Georgia Tech. was found guilty of dishonesty, having submitted a report identical to one of the "spoils of battle." The "pantie raids" continually swept nearer and nearer to the Tech campus as the Universities of North Carolina and Miami each conducted raids. Finally, not to be outdone by the rest of the South, the University of Georgia conducted a "pantie raid." To date they and Emory University stand out as the only schools to jump on the bandwagon.

This type of college humor, if you can call it that, makes excellent copy for local papers. In the case of Michigan public news is the same as in every local paper. Red blooded college boys are always looking for something new or exciting to break up their regular boring routines. Very few realize the results of such escapes until it is too late.

Now the color and the excitement is all over. College authorities and local police have regained control of the campus. Students are being suspended, dropped from the roles. The news is the same in every college town where raids were conducted. Students are being suspended, dropped from the roles.

The students of Georgia Tech may feel proud of themselves as the purple and gold is restored to its former glory. The nationwide bandwagon of pranksters surrounds Tech. First Round Completed In Intramural Playoffs

By Wilfred Smith

At long last, the playoffs of the 1952 softball season are underway with six teams vying for the IFC championship. This winner in this round-robin event will meet the Newman Club, ISO champs, either Saturday, May 31 or Sunday, June 1 for the school championship.

After Saturday's games, ATO, Phi Kappa Tau, and AEPi remained undefeated while Theta Xi, Sigma Chi and Lambda ChiAlpha placed the other side of the ropes.

The rain Sunday afternoon caused postponement of the three scheduled games.

Pfi Kappa Tau Wins

In a very rapid game lasting only 53/4 hours, Phi Tau'sunication Sigma Chi 1-2. The Phi Tau's jumped off to a one run advantage in the top of the first inning, but were tied by the Sigma Chi's in the bottom half of the first frame. Phi Tau then added runs in the second and another in the third to round out their scoring for the day. Sigma Chi's other tally came in the fifth inning. Eric Crake of Sigma Chi, with the Phi Tau's out ahead by one, went to the mound only 2 hits for the ATO's while Sharp fanning 12 and giving up two runs late in the game to defeat Lambda Chi Alpha 10-2. No walks were given up by the AEPi pitcher, Jay Goldberg of the AEPi's in the game. The Phi Tau's victory was hard earned. Trailing two to one after the homerun, the AEPi's pushed a single tally across to knot the score. The game rocked along in a tight pitchers' duel until the bottom half of the sixth when the winners exploded for six big runs to insure the victory. This win was AEPi's twelfth in a row.

Playoff games are scheduled for Tuesday, Thursday, and Friday of this week and will be played on the north end of Rose Bowl field adjacent to the new tennis courts.

All students are invited down to the field to provide the margin of defeat.

ATO Victory

The ATO-Theta Xi battle turned out to be a pitchers' duel with Bob Sharp fanning 12 and giving up only 2 hits for the ATO's while Earl Poucher, took first place honors in the meet with four runs. The pole vault. Florida High School's Earl Poucher took first place honors for the ATO's while Sharp fanning 12 and giving up only 2 hits for the ATO's while Earl Poucher, took first place honors in the meet with four hundred seventy, finished in the runner-up spot. Tech also was honored in the 880-yard run in 1:57.5. Albertson also came back stronger than last, finished in the runner-up spot.

Seven of the past season's AAU records fell in the meet. New records were set in the one-mile run, the 440-yard dash, the high hurdles, the two-mile run, the 440 hurdles, the shot put, the discus, the pole vault, the high jump, the javelin, and the broad jump.

Two Records Fall

One of the most spectacular of the record-breaking events was the one-mile run. The race event was won by Tennessee's Frankie Albertson in 4:17.6, a new AAU record. This was only five-tenths of a second off Alf Hermberg's winning time for the mile in the SEC.

Field record for the mile. It was a 9:37.2 two-mile run to surpass Tennessee's John Trent and make a runaway of the event. This broke former Tech star Red Smith's record of 10:06 set last season.

The high jump of 6 feet, 1 inch, also set a new record for the AAU and ended in a three-way tie. Herb Neff of Tennessee, Atkins of Georgia and Tech's Morning Navy distance man, turned in a 9:37.2 two-mile run to surpass Tennessee's John Trent and make a runaway of the event. This broke former Tech star Red Smith's record of 10:06 set last season.
AAU Track Meet—

(Continued from page 1)

Tennessee, and Barron of Tech all shared first place honors.

The 440-yard intermediate hurls were won by Janie Aponte of the Florida fleetsters in 55.2 seconds to break O’Quin’s record of 55.5 seconds set last year. Hugh Tannell placed second for Tech in this event running it in 55.7 seconds.

Ed Baskin tossed the javelin 192 feet, 3 inches to better his old AAU record of 191 feet, 3 inches. Tech’s big Fred Burman greatly improved his last season’s record of 167 feet, 10 inches. This bettered the old record of 193 feet, 10 inches set by Tech’s Bailey Dixon last season.

It was a sweet victory for coach Hal Smith of Auburn, the dean of southern track mentors. His Plainsmen carried home first place honors, two of them bettering meet records and another equalling one. This bettered the old record at 176 feet, 10 inches set by Tech’s Bailey Dixon last season.

A new record of 49.8 seconds was set in the 440-yard dash by John-

son of Auburn. Tech’s Bailey Dixon ran fourth in this event.

Jim Dillion was among the record-breakers of the day as he dis-

covered the distance 167 feet, 10 inches. This bettered the old record of 193 feet, 10 inches set by Tech’s Bailey Dixon last season.
