**Spring Fever** Chosen For Week-end Event

The Georgia Tech Interfraternity Council dance committee has chosen "Spring Fever" as the theme for the IFC Week-end on April 24 and 25. Since it will be in the middle of Spring, the committee thought the theme would add a special touch to the dance....

**Registration Routine Released For Spring Classes To Commence Early Tuesday Morning**

At 8:00 in the morning of Monday, March 30, the doors of the Gymnasium will open for registration for the Spring quarter. Registration tickets are sold by the afternoon office. Once tickets are sold, the gym will be at the end of the line specified on the ticket. Students not possessing tickets will be admitted after that time. There will be no changes in the procedure. Students will enter the gym by the east end and will go immediately to the residence on their respective ticket. The approved schedule must be made out in four copies. When the instructor initials the study list, students will proceed through the back door of the gym to the back door of the Navy Armory.

Course cards can be obtained at the desk assigned to each department. When all the necessary cards have been made, they are to be taken to the desk in the back of the armory. A card for a desk and desk card. All non-co-op students are to report to the residence on the study list. When the cards are turned in, another list will be made by the registrar. When the list is complete, the cards will be delivered by the cashier.

---

**US Marine Corps Program for Commissions**

The Marine Corps has announced that due to the current expansion of its regular officer strength, it will offer approximately 7,000 regular commissions between now and June 1956. Officers are to be assigned to the Marine Corps for training in anti-aircraft, anti-submarine, and anti-torpedo warfare.

The Marine Corps is continuing to expand its officer candidate training program. Officers will be commissioned with the rank of Second Lieutenant for their time and efforts.

---

**AF Reserve Commissions Open To Winter Graduates**

Mid-year college graduates who completed degree requirements at the end of the winter semester may apply for immediate direct commissions in the USAF Reserve and assignment to basic meteorological training in June, according to an announcement made by Gen. W. O. Senter, Commanding General of the USAF Air Weather Service.

Qualified graduates, who must have received credit for one year of college physics and mathematics through the high school curriculum, may receive application forms by writing to the Commanding General, Air Weather Service, ATTN: Officer Procurement, Washington, D.C. Graduates from their campus USAF ROTC unit, College seniors who graduate in June with junior status and their credits may also apply at this time for commissions to be awarded for immediate active duty.

June graduates will enter the 13-month meteorology school in September and applications should be submitted so as to arrive at the Air Weather Service by May 1. Complete application packet must be received in the USAF Air Weather Service by three months and application for active duty must be completed in the period of the next two years.

During the graduate training at the 13-month meteorology school, students, who may be undergraduate or graduate, will receive in-service training for an upper floor in a general undergraduate college, whereas the two floors will be filled with technical studies in such subjects as meteorology, weather, and a floor area of 7,078 square feet.

---

**Library Books Get New Home**

The Georgia Tech library has begun making plans to move to its new 35,166 bound volumes from their crowded quarters, into two spacious rooms. By the end of this week, 1,200 books will be unpacked and on the shelf, with the remaining books to follow in the next two weeks. The new home for the library is almost as much material as the old.

Air ROTC Flying Program

The local Air Force ROTC unit has initiated a program of active flying for advanced AFROTC students. The program is under the direction of Captain Donald E. Dan and Captain Forrest O. McCue, who are both Air Force pilots. The cadets are being oriented in actual flying at Dobbs Air Force Base in Marietta. The added feature of the AFROTC is for the purpose of furthering students in preparation for their services as officers in the USAF.

The special training takes place in the afternoon, when the cadets are taken to the base and are taken up one or two flights. There is no check on the pilots or Captain Danny or Captain McCue. The T-4 is a single-engine training plane and the T-5 is a twin-engine training plane. After the plane is off the ground and at a safe altitude, word comes over the intercom to “take over.” After that the plane is in the hands of the cadet.

In the classrooms, the cadets receive some instruction on how to fly a plane and also on controls. Corps commissions upon their graduation from the five-month Special Basic Course which they attend upon being commissioned.

Fred Waring To Give Concert
At Auditorium

Fred Waring and his Pennsyl-

ica Band will give a concert

Tuesday, March 25, at 8 p.m.
in the City Auditorium. Fred War-
ing himself will conduct, and it
will present all of the company
which appears with him on televi-
sicion in orchestral and glee cl u b
performances.

Mr. Waring is a showman, but he
is also well known for his arrange-
ments, which are used by leading
orchestras all over the country. He
is outstanding in his teaching of
music and choral technique. Bar-
rch Shaw and Lara are among his
famous pupils and many of the
well-known choir and choral direc-
tors in and around Atlanta

and attend Atlanta's annual
ceremonies at Watergaps, Pennsylvania.

This concert will be sponsored
by the Atlanta Music Club for the
benefit of its Scholarship Fund.

Tickets may be obtained at The
Atlanta Music Club booth at the
Piano Company.

Local Whittling Talents
Immortalized on Desks

By Shelton Till

With exam time just around the corner, many students will soon be victims to one of the hazards of an exam paper: With writing out their answers, many students find themselves haunted by their own pencil marks. This is usually the fault of several engravings are usually found on many occasion their pencilled papers. Their styles vary from local gnomes to fraternity Greek letters. All the work is original and very rarely does it resemble any other type of art.

Woodwork

"To hell with everything." Those were the sentiments of one chambray-clad individual who didn't stop at just expressing his opinion in words. He carved them on a desk in the Social Science building in large one-inch letters. Just to show that he learned his drawing 101, he used 47-degree slope lines. Maybe the large walk to class did something to his sentiments.

Another one of these geniuses combined all his English courses with his imagination to decorate his equipment and begins to draw. All this goes to show that the minds at this institute aren't wholly technical. Technicians have literary talents, sensitivities, artistic qualities and enough intestinal fortitude to express their views where they'll be seen and appreciated by all.

But only time will tell...

"I'll run this sound recorder during lectures...and charge a buck a throw for playbacks!"

"You're a genius! How a guy can sleep or cut and still get top grades!"

"You'll make a fortune! Do you need a partner?"

"How can they tell, so soon? Wait till they get their marks!"

"Only time will tell about an idea! And only time will tell about a cigarette! Take your time..."

Test CAMELS for 30 days for MILDNESS and FLAVOR

THERE MUST BE A REASON WHY
Came is America's most popular cigarette—leading all other brands by billions! Camel have the two things smokers want most—rich, full flavor and cool, cool mildness... pack after pack! Try Camels for 30 days and see how mild, how flavorful, how thoroughly enjoyable they are as your steady smoke!

More People Smoke CAMELS than any other cigarette

Other Colleges Say—
Westerners Want Winning Wives

The Michigan State Normal News has come up with a new definition for colleges. According to them colleges are institutions which sometimes lower entrance requirements with an end in view —not to mention promising tackle and backs.

A University of Illinois student thinks college sweethearts are not dignified enough, so he recommends the following changes:

1. For "Get the ball"—"Obtain the oblate spheroid." 2. Instead of "Hit 'em again harder."—"Henceforth, smite them more fiercely than you smote them heretofore." 3. In place of "Go team go..."—"Proceed, oh valiant, proceed." 4. For "hold that line."—"Fend off the foe's forward thrust along the two-dimensional entity." 5. Instead of "We want a touchdown."—"We demand a thrust forward maintaining as our objective the passage of our adversary's goal."

At the University of Texas an advertisement was placed on the bulletin board of the Music building. It reads as follows:

Wanted: three wives. Three young handsome students need one...

It's the size of the FIGHT in the man!

That's right! In the U. S. Air Force, it's not the size of the man in the fight—it's the size of the FIGHT in the MAN! And Aviation Cadets must have plenty of it. For Cadet training is rugged. If you're good enough... tough enough... smart enough... if you can take it while you're learning to dish it out, you can have one of the most fascinating careers in the world. You'll be equipped to fly the latest, hottest planes. You'll be prepared to take your position as an executive, both in military and commercial aviation as well as in industry. And while you're helping yourself you'll be helping your country.

WIN YOUR WINGS! It takes little over a year to win your wings as a Pilot or Aircraft Observer (Navigator, Bombardier, Radar Operator or Aircraft Performance Engineer). But at the end of your training you graduate as a 2nd Lieutenant in the Air Force, with pay of $5,300.00 a year.

ARE YOU ELIGIBLE? To qualify as an Aviation Cadet, you must have completed at least two years of college. This is a minimum requirement—it's best if you stay in school and graduate. In addition, you must be between 19 and 26 years, unmarried, and in good physical condition.

New Aviation Cadet Training Classes Begin Every Few Weeks!

HERE'S WHAT TO DO:

1. Take a transcript of your college credits and a copy of your birth certificate to your nearest Air Force Base or Recruiting Station. Fill out the application they give you.

2. If application is accepted, the Air Force will give you a physical examination.

3. Next, you take a written and manual aptitude test.

4. If you pass your physical and other tests, you will be scheduled for an Aviation Cadet training class. The Selective Service Act allows you a four-month deferment while waiting class assignment.

Spring Football Drills Mark End Of Two Platoon System of Play

By Russ McDonough

With spring practice a little further along, Football Coach Bobby Dodd and his staff are completing plans for the "two platoon system" in the South that has strictly used the two platoon system for the past two years. Under the new NCAA ruling all players are going to have to play both of offense and defense and the era of the "iron man" has returned.

Long Sessions

The practice sessions are going to have to be longer and better organized than they have been in previous years. A great deal more than two weeks distance, Head Coach Bobby Dodd and his staff are completing plans for the "two platoon system." The Georgia Tech is the only team in the Southeast Conference that will pay off many, many times. Seriously, there's a firm, comfortable feel to City Club Shoes that, together with absolutely correct styling, gives you confidence and assurance. They're right all the way through—even to price.

Grad Students Offered Air Force Commissions

College students who are registered in their final semester of post-graduate study, or who are about to graduate before the fall semester, are invited to apply for commissions in the Air Force Reserve in grades ranging from second lieutenant to colonel. This was announced today by Major General Charles E. Thomas, Jr., commanding general, Fourteenth Air Force, Robins Air Force Base, Georgia.

Post-graduate students in this category may apply for commissions in 17 career fields in the Air Force Reserve without military or civilian experience in the career field. Formerly, all college graduates were required to have at least one year of experience in the career field in which the commission was expected.

In addition, individuals who possess only a baccalaureate degree may also apply for reserve commissions, provided they have military or civilian experience in the career field.

Fifteen hundred commissions in 17 career fields are to be awarded to college graduate applicants. Specialties include intelligence, photography, cartography, weather, communications, information engineering, transportation, comptroller, personnel, security investigation and military law.

Veterans

Any student under the K-select Bill of Rights, Public Law 558, who does not plan to be in school for the term beginning March 30, 1953, should see Miss W. Dougherty, Room 102 Knowles building for the filling out of necessary papers. This must be done before the student leaves school March 21.

Colleges

(Continued from page 3)

1. Be good-looking.
2. Be able to cook (on occasion).
3. Must be rich.
4. Must be too proud to even admit to smoking.

(Continued from page 11)

When Cleveland Amory lectured at Tulane University on the changing customs of Boston's high society he commented that well-bred ladies used to show their instep; now they show their steps.

Chesterfield is Best for YOU!

CHESTERFIELD contains tobaccos of better quality and higher price than any other king-size cigarette... the same as regular Chesterfield.

Chesterfield - first premium quality cigarette in both regular & king-size

When you are asked to try a cigarette you want to know, and you ought to know, what that cigarette has meant to people who smoke it all the time.

For a full year now, a medical specialist has given a group of Chesterfield smokers thorough examinations every two months. He reports:

no adverse effects to their nose, throat or sinuses from smoking Chesterfields.

More and more men and women all over the country are finding out every day that Chesterfield is best for them.

Enjoy your Smoking!

Try Much Milder Chesterfield with its extraordinarily good taste.
