Present Your Research

The Library, the Undergraduate Research Opportunities Program, and the Tower are co-sponsoring the fall 2010 Undergraduate Research Kaleidoscope, an evening of research presentations hosted by the Library East Commons on November 18, 2010.

We are accepting proposals for presentations by undergraduate students taking part in faculty-advised research. While there are many ways to present research formally and thoroughly at tech, this event focuses on accessibility and broad appeal—a showcase of big ideas or fascinating details to be pursued by the audience, perhaps on the spot. To that end, we use a presentation format that is

to submit proposals or more information contact:

ANATOMY OF A GROUP MEETING PRESENTATION

- Pulled all-nighter, finished slides 5 minutes before meeting started.
- Trying to come up with insightful question that will impress advisor.
- First-year, only person actually paying attention.
- Relieved she doesn't have to explain why she hasn't done anything this week.
- Starving, thought there'd be food at meeting.
- Has written two proposals in his head since meeting started.
