Consider Propulsion Engineering.

Choose Indian Head.

Unlike many companies, Indian Head puts entry-level engineers right in the thick of the action.

As a Department of Defense expert in propulsion engineering and weapon systems design, we'll involve you immediately in sophisticated and complex weapons systems projects vital to our country's defense.

At the Naval Ordnance Station, you'll be an important part of state-of-the-art technology in design, development, test and evaluation of solid propulsion systems such as missiles, rockets, gun propellants and ignition devices. That's why we need men and women who have drive, imagination and engineering know-how.

And besides offering you an exciting career, working at Indian Head provides an enviable living environment. We are located in rural Southern Maryland right on the Potomac River. Boating, fishing and swimming are but a few of the recreational activities you might enjoy. And for a change of pace, Washington, D.C., where you'll find nightlife, concerts, sports events, museums and scores of other attractions, is only one-half hour away.

Aerospace, Chemical, Electronics, Industrial and Mechanical Engineers.

That's who we want. If you want to join a top propulsion engineering team, call us collect for more information or to arrange an expense paid visit.

Unfortunately, if the telephone you buy today isn't a Panasonic, it may be out of date tomorrow. If it lasts that long.

Choose a built-in answering machine. Speakerphone. Built-in dialer. But choose carefully, because it's built to last. After all, it's a Panasonic.

Now you can buy your own telephone. So it's important to buy the one that's right for you.

On one hand, you don't want to spend too much for a phone. Or buy one that does more than you need. On the other, you don't want to spend too little. Or the phone may become out of date in a few months. If it lasts that long.

Let Panasonic help you reach the right decision. We have the right phone for you. And the right price to go with it. No matter what your needs or budget.

Choose from phones with answering machines built in. Speakerphones that let you talk without holding the phone. And phones with automatic dialers. And most of our phones are compatible with alternate long distance services. Such as Sprint and MCI.

Whichever Panasonic telephone you choose, it will have one thing in common with our entire family of phones. Panasonic dependability.

And should your phone ever need service, we have a nationwide network of service centers. Panasonic telephones. They won't be out of date today. Or tomorrow.

Speakerphone. Dialer. And answering machine. Even lets you call in for messages. Without a remote device. From any push-button phone.

KX-T 2415

This phone remembers 28 numbers. And will dial them for you automatically. Even redials a busy number. Up to 15 times in 10 minutes.

KX-T 2130

This Trim-line phone has an automatic dialer. Call family. Friends. Emergency numbers. Up to 16 digits long. At the touch of a button.

KX-T 2203

This phone lets you connect two incoming lines. So you can put your first call on hold, while you answer a second. Also has an automatic dialer.

KX-T 3293

On one hand, you don't want to spend too much for a phone. Or buy one that does more than you need. On the other, you don't want to spend too little. Or the phone may become 'out of date in a few months. If it lasts that long.

Let Panasonic help you reach the right decision. We have the right phone for you. And the right price to go with it. No matter what your needs or budget.

Choose from phones with answering machines built in. Speakerphones that let you talk without holding the phone. And phones with automatic dialers. And most of our phones are compatible with alternate long distance services. Such as Sprint and MCI.

Whichever Panasonic telephone you choose, it will have one thing in common with our entire family of phones. Panasonic dependability.

And should your phone ever need service, we have a nationwide network of service centers. Panasonic telephones. They won't be out of date today. Or tomorrow.

Panasonic just slightly ahead of our time.

Exercise your freedom of choice.
HEALTH 1ST. The "Freedom of Choice" health plan.

HEALTH 1ST, Georgia's oldest Health Maintenance Organization offers you freedom of choice you just don't get from traditional health plans or other HMO's. Here's how.

**FREEDOM TO PURSUE WELLNESS**
- No deductible requirements
- $5 for routine doctor visits
- $3 per prescription

**FREEDOM FROM PAPERWORK**
- No claim forms
- No waiting for reimbursement

**FREEDOM TO CHOOSE FROM OVER 1,600 NEIGHBORHOOD DOCTORS OFFICES**
- Choose from 1,600 neighborhood doctors offices.
- Change from one participating HEALTH 1ST physician to another without authorization from HEALTH 1ST

Think about it. If freedom of choice is important to you, you need HEALTH 1ST.

Robert Frost said it best:
"Before I built a wall
I'd ask to know
What I was walling in
or walling out"

To one degree or another,
all of us wall in and wall out.
Feelings. Ideas. People. Maybe
one of the more important things
the last four years have been
about is to learn to ask "Why?"
whenever a wall goes up.

We salute you, and through
you all alumni, on the occasion
of the centennial year of Georgia
Tech. Among our reasons for
doing so—to recognize a great
institution where those who
pass through are taught not to
love walls.
It takes more than a new look to make shopping enjoyable and exciting. We understand it also takes our commitment, concern and hard work.

Experience this and more at Avondale Mall.

Lightning May Strike Once

But At Combustion Engineering’s Power Systems Group, The “POWER” To Create New Energy Solutions Is At Work Constantly!

HEADQUARTERED in Windsor, Connecticut, the POWER SYSTEMS GROUP of $3-Billion Combustion Engineering is a pioneering force in the field of energy production. Whether it’s power systems development, aftermarket products or equipment service involving fossil fuel, nuclear, hydroelectric, cogeneration or urban resource recovery projects, C-E has a distinguished, 70 year history of providing the most unique, cost-effective energy solutions available.

As we look to the future with great optimism and enthusiasm, we are proud to be a continuing supporter of the students, faculty and alumni of the GEORGIA INSTITUTE OF TECHNOLOGY.

Tune into GTE Spacenet's career-growth frequencies

You've worked hard for your degree. Continue your professional development by joining GTE Spacenet, a company on the leading edge of satellite communications technology. With the launching of our C- and Ku-Band satellites, we combine innovation and flexibility to provide state-of-the-art solutions to complex communications problems in the areas of: cable programming, TV news, financial information, education, videoconferencing, and private voice, video and data networks.

As an innovator and major force in the telecommunications industry, GTE Spacenet has defined and now operates one of the largest and most sophisticated digital satellite communications networks in the country. Our technological expertise and new market penetrations have created exciting career opportunities for graduates who possess Bachelors' and Masters' degrees in Electrical Engineering, Aerospace Engineering, and Computer Science.

Launch your career with a leader! Start by forwarding your resume and a cover letter to: Employment Dept. GIT, GTE Spacenet, 1700 Old Meadow Rd., McLean, VA 22102. An Equal Opportunity Employer.

GTE Spacenet Getting down to business

Congratulations To Georgia Tech For Serving The U.S.A. For Over 101 Years!

532 / Identification
NICOLON geotechnical solutions are designed, manufactured, and used around the world. Since 1957...proven technology in erosion control, stabilization, reinforcement, drainage, separation, and filtration. Polypropylene and PVC coated fiberglass fabrics for the following applications: swim pool and patio enclosures, tennis windscreens, nursery shade cloth, intermediate bulk container bags, trampolines, and solar screen.
Our Job is Keeping Your People on the Job

Occupational accidents and illness hurt your business as much as they do your employees. That's why you should rely on AMI Occupational Health Centers — specialists in controlling the cost of high quality, ongoing and emergency care for your workers.

We've structured our full service centers so that your employees can be diagnosed, treated and returned to work as quickly as is medically feasible. And we also provide a full range of preventive programs including standard and customized physical exams.

So for cost-effective health care that keeps a business healthy, call your nearby AMI Occupational Health Care. AMI is at work for people who work.

THEY HOLD DOWN MORE THAN ONE JOB.

Kubota’s mid-sized tractors are very versatile. You’ll find them at work on farms, in parks, nurseries, estate homes and even on construction sites.

The reason is simple. Our mid-sized L-Series tractors come with features you’d expect to find only on bigger, heavier machines.

For example, sturdy 3-cylinder diesel engines. Horsepower from 12 to 29 PTO. Hydraulic shuttle-shift, 2- or 4-wheel drive. A hefty 3-point hitch. And more.

So if you’re looking for a tractor that can get the job done, whatever it is, you’ve found it. The Kubota L Series.

AT THE NAVAL AIR TEST CENTER, the reach of technology knows virtually no bounds. That's because our job is to test and refine the most advanced aircraft and aircraft systems in the world. Our work begins with the very latest developments in electronics and computer science, as well as aerospace and mechanical engineering. Microprocessor systems, computer-aided design, digital flight control, communications, microwave networks, simulation technology — these are just a few of the fields in which we excel.

WHEN YOU LAUNCH YOUR CAREER at the Naval Air Test Center, you soon find that the opportunities for hands-on involvement with a wide range of projects are limitless. You work with the newest concepts and most sophisticated equipment in your field. And you enjoy the satisfaction of following your projects from start to finish, from theory in the lab to deployment in the sky.

YOU'LL BE IMPRESSED BY OUR BENEFITS, TOO, including opportunities for fully paid graduate education as well as rapid advancement. And our location in the heart of Chesapeake Bay Country promises a lifestyle that many of your peers will envy.
