(*): Indicates a calculated value.
The funds ($5,000.00) granted to Georgia Institute of Technology were used to acquire expensive materials which we could not afford in our regular book budget. They fall in two areas: (A) Improvement of bibliographic control over dissertations and (b) publications of the U.S. Government (see Items 1 & 2) and (B) long runs of important journals which had been on the faculty's "urgent purchase list" for years. (see Items 3,4,5,6.)

These journals will be increasingly important to the faculty in socio/economic disciplines especially as they apply to the ethical, political and socio/economic aspects of urban planning, ecology and environmental control on the international level.
