

Members of the Sawicki Planning Studio

Front Row (From Left to Right) Jihoon Son, Christina Ley, **Dr. David Sawicki** --- Middle Row (From Left to Right) Luo Gaoxiang, Sean Kennedy, Francis Kobina Insaideo --- Last Row (From Left to Right) Brennan Stearns, Osman Ercin

• Jihoon Son - Geographic Information Systems

Jihoon Son received his undergraduate degree in Architecture of Yonsei University in Korea and graduating in May with a master degree in City Planning at Georgia Tech. He specialized in Geographic Information System and interested in developing GIS system related to other issues like economic development. He has worked for Gwinnett County Government in the Planning and Development Department. His brief resume is

available at [here](#).

- **Christina Ley - Transportation Joint Degree**

Christina Ley is a dual degree Master's student in City Planning and Civil Engineering specializing in transportation. Her undergraduate degree is in Civil Engineering from Carnegie Mellon. Cristina has worked in Atlanta for four years while pursuing her Master's degree the last two years. In relation to this project, Cristina is interested in equity issues in transportation planning, which involve the demographic characteristics of people near transportation facilities. Cristina is also a recipient of the 2003 Tower Award [OMED: Educational Services](#).

- **Dr. David Sawicki - Director of the Planning Studio**

- **Luo Gaoxiang - Geographic Information Systems**

- **Sean Kennedy - Transportation Joint Degree**

Sean is graduating in May with a dual masters degree in Civil Engineering and City Planning. He is the vice president of the SPA Georgia Tech chapter and a recipient of the Gladding/Jackson fellowship for the 2002 academic year. Sean has served as an AmeriCorps VISTA volunteer in North Carolina, and is concerned with transportation equity issues as well as the improvement of mobility options within metropolitan regions.

- **Francis Kobina Insaideo - Geographic Information Systems**

Francis Kobina Insaideo is currently a 2nd-year graduate student in City and Regional Planning at the Georgia Institute of Technology in Atlanta. His specialization is in Geographic Information Systems and is also working on a second degree in Bioinformatics. Francis is interested in GeoMedicine and Health Planning. He has worked with Data And Policy Analysis and Georgia Army National Guard over the course of his studies at Georgia Tech. Francis is also a recipient of the 2003 Tower Award.
OMED: Educational Services.

- **Brenan Stearns - Data And Policy Analysis**

- **Osman Ercin - Land Use**
