CLOSING
ENGINEERS/COMPUTER SCIENCE GRADUATES

Looking for a career with broad horizons?

We’re McDonnell Douglas—one of the world’s leaders in fast moving, exciting fields ... military and commercial aircraft, missiles, spacecraft, electronics, automation and health services.

And we’re looking for people who are looking for the opportunity to put what they’ve learned to work—people like you.

What we offer is a wide variety of advanced technical projects and a chance to get involved, really involved, in programs on the leading edge of technology.

So, if you’re an engineer or computer specialist who wants a real job with real responsibility. Sign up at your Placement Office for an Interview.

Or send your resume to:

SCIENTISTS AND ENGINEERS!

Looking for something off the beaten path?

Then look at manufactured graphite—one of the lesser-known substances, though few can match its versatility.

In graphite technology, many new worlds cry out to be conquered. For graphite has endless and growing uses—in making electric furnace steels and foundry metals, in molds and castings, in metal fabricating, in producing nuclear energy, in cathodic protection, in many chemical processes including chlor-alkali electrolysis, as a refractory, in rocket motors, and in countless other applications. No matter what your interest, graphite will lead you to it.

With us, you will be a member of a closely-knit team, not just a digit. Responsibility and authority are quickly delegated as earned—and our steady rate of expansion constantly creates up-the-ladder opportunities.

INTERVIEWS ON CAMPUS Consult your placement office promptly to arrange an interview date. A Great Lakes Carbon placement advisor will be on campus...

The Challenge...

presented by today’s technical fields is greater than ever before. There is tremendous need for imaginative and innovative solutions to new and old problems. Whole new arenas of design expertise are being born, while traditional fields strain to meet the new more complex demands of today’s reality.

Opportunities abound: the challenge is great

Graduate to a higher challenge. Texas Instruments.

For years you've been proving to your professors just how good you are. Now it's time to prove it to yourself. With a higher challenge. With Texas Instruments.

TI is a world leader in science and technology because it has built-in budgets for new, innovative ideas. If you have a revolutionary idea that deserves to be put to the test, the money's there. You'll find you have full support to explore new solutions because you'll be involved in the world's "hottest" technologies: digital circuit design.

To learn how you can graduate to your higher challenge at Texas Instruments, write: Ed Haynes, Equipment Group Staffing P.O. Box 2103, Richardson, TX 75080
