SCIENTISTS AND ENGINEERS!

Looking for something off the beaten path?

Then look at manufactured graphite—one of the lesser-known substances, though few can match its versatility.

In graphite technology, many new worlds cry out to be conquered. For graphite has endless and growing uses—in making electric furnace steels and foundry metals, in molds and castings, in metal fabricating, in producing nuclear energy, in cathodic protection, in many chemical processes including chlor-alkali electrolysis, as a refractory, in rocket motors, and in countless other applications. No matter what your interest, graphite will lead you to it.

With us, you will be a member of a closely-knit team, not just a digit. Responsibility and authority are quickly delegated as earned—and our steady rate of expansion constantly creates up-the-ladder opportunities.

INTERVIEWS ON CAMPUS Consult your placement office promptly to arrange an interview date. A Great Lakes Carbon placement advisor will be on campus...

January 18 and 19, 1983

Or, if you prefer, write in strict confidence to GRAPHITE PRODUCTS DIVISION, GREAT LAKES CARBON CORPORATION

ENGINEERS/COMPUTER SCIENCE GRADUATES

We're McDonnell Douglas — one of the world's leaders in fast moving, exciting fields... military and commercial aircraft, missiles, spacecraft, electronics, automation and health services.

And we're looking for people who are looking for the opportunity to put what they've learned to work — people like you.

What we offer is a wide variety of advanced technical projects and a chance to get involved, really involved, in programs on the leading edge of technology.

So, if you're an engineer or computer specialist who wants a job with real responsibility, please send your resume in confidence to:

Jack Schwartzburt
Manager, College Relations
McDonnell Douglas Corporation
P.O. Box 516 • Dept. 02-411
St. Louis, MO 63166

MCDONNELL DOUGLAS
An equal opportunity employer

The F-16 Fighting Falcon is just one of many successful General Dynamics programs. And it offers just one of many areas of opportunity we have for college graduates in Engineering, Math, Physics, Computer Science and Business Administration.

If you're interested in aerospace, shipbuilding or telecommunications, we'd like to show you the benefits of starting your career with us. See your placement office to arrange an on-campus interview. Or, send your resume to General Dynamics, Pierre Laclede Center, Dept. BP, St. Louis, MO 63105.

It could be to your advantage.

The original 1922 Physics building (right) and the new 1982 Intercollegiate Athletic Center, (below) span our involvement with Georgia Institute of Technology and illustrate our 65 year history of design excellence.

Just as styles have changed over the past 60 years, technical fields have developed to meet ever greater challenges in the building industry. Today there is tremendous need for imaginative and innovative solutions to new and old problems. Whole new arenas of design expertise are being born, while traditional fields strain to meet the new more complex demands of today’s reality.

Ever changing — ever challenging.
We wish the Class of ’82 best success.

atlanta · washington, d.c. · tampa · n. palm beach · auburn, ala.
Williams Bros. began operations in Atlanta in 1922 with two wagons, four mules, a used delivery truck and four employees. Its central offices, manufacturing and distribution facilities are located on the original site where it began 60 years ago.

Today, Williams Bros. has grown to be one of the South's largest suppliers of quality building materials.

As we celebrate our 60th Anniversary, we reflect upon these years with pride because of the part we have played in "building better living" for the homeowners and businesses in our home town.

We are confident in Atlanta and its future economic growth. We pledge to continue to make a vital contribution to its progress using our same philosophy.

We believe no job is too large or too small for our customers to receive personal attention and quality merchandise at a fair price.

We continue to believe our customers and our employees are our most valuable asset.

We also believe that people go where they are invited, and stay where they are appreciated.

OVER 600 LOCATIONS NATIONWIDE
If you're an engineer or computer scientist who expects something more than the ordinary, the Equipment Group can offer you:

- Immediate responsibility — as much as you can handle
- Advanced state-of-the-art electronics
- Teamwork in small project groups
- A pleasant, informal working environment
- Over 20 recreational organizations and intramural sports
- A unique continuing education program offered on-site through local universities

Mobility and flexibility within the Equipment Group provide you with a variety of opportunities in development, design and manufacturing of a wide range of electromechanical systems:

- Laser electronics
- Infrared devices
- Air traffic control radars
- Missile guidance and control systems
- Airborne and ground-based computer systems for military applications

You'll enjoy a progressive lifestyle in Dallas, Texas, or in various other TI locations:

- Austin, Texas
- Lewisville, Texas
- Sherman, Texas
- Colorado Springs, Colorado
- Ridgecrest, California

The unexpected... and more. The Equipment Group. See us on campus this fall or send your resume in confidence to: Bryan Rollins, Texas Instruments, P.O. Box 226015, MS 3186, Dallas, Texas 75266.

Physical properties measurements

Micromeritics is the recognized world leader in precision instruments which measure physical properties of materials. It includes:
- particle size distribution
- B.E.T. surface area
- pore structure (volume and size)
- chemisorption
- density
- electrophoretic mobility
- zeta potential

Call our local office (301) 661-7866 or contact Micromeritics Instrument Corp., 5680 Goshen Springs Rd., Norcross, Georgia 30093 U.S.A. (404) 448-8282.

Making liquid chromatography better for you

Whether your separation requirements are for methods development, quality control or R&D, Micromeritics can offer you state-of-the-art precision, versatility and sophistication. Manual and automatic options. Everything from simple isocratic to completely automated systems. Call our local office, (312) 577-8630 or contact Micromeritics Instrument Corp., 5680 Goshen Springs Rd., Norcross, Georgia 30093 U.S.A. Telephone (404) 448-8282.
A few pages of selected advertising will help defray soaring printing costs. Student Publication advisors and Publishers' Representatives are welcome to call us for further information. Our staff of professionals will work closely with you and your publisher.

SET YOUR SIGHTS ON THE COMPANY THAT SETS THE STANDARDS

The ELECTRONICS and SPACE DIVISION of Emerson Electric Co. Broad-based in product line. International in scope and influence. An innovator...setting the standards that others will follow for years to come. The ELECTRONICS and SPACE DIVISION is involved in the design and manufacture of high-technology armament and electronic systems. Its products include specialized radar, automatic test systems, airborne armament systems, missile launching and guidance systems. The ELECTRONICS and SPACE DIVISION is also involved in the optical field, and has extensive software programming ability and familiarity with modern computer architecture.

Emerson's ELECTRONICS and SPACE DIVISION is located in St. Louis, Missouri. Historic and cosmopolitan, St. Louis is a city that boasts many recreational and entertainment opportunities as well as a superior standard of living.

The ELECTRONICS and SPACE DIVISION of Emerson leads the industry in quality and innovation. We offer top salaries and comprehensive benefits, as well as a superior professional environment. To learn more about the many career opportunities at E&S, write to:

Manager, Personnel Resources

Around the corner, around the state. We're here

Whether you prefer to bank near home, near work, or just about anywhere in Georgia, there's probably a C&S Bank conveniently close by.

We're here, in communities all over the state. In fact, we have more offices, more automated teller machines and more Saturday banks around Georgia than any other financial institution. And when you have an account at any one of those 128 C&S locations, your hometown bank is never far away. No matter where you go in Georgia, Stop by soon.

Take a giant career leap right out of school with our

**ENGINEERING TRAINING PROGRAM**

Of all your choices, Motorola's Government Electronics Division (GED) offers you a way to move farther, faster and deeper into the heart of the nation's most vital electronics. Our unique Engineering Training Program bridges the gap between theory and application to vastly shorten the time it would otherwise take you to move your career into high gear.

Join us on campus to discuss the incomparable opportunities with Motorola GED. You can also refer to our brochures in the placement library for details on our COMMUNICATIONS, RADAR and TACTICAL ELECTRONICS hardware.

**Energy Research Management**

As a national energy research organization, GRI finances, plans and manages technological research and development programs in the natural gas industry for the benefit of the gas ratepayer. GRI offers professionals the opportunity for career involvement within an organization that stands at the crossroads of change in newly developed technologies, cost efficient consumer strategies, and commercialization opportunities in the following critical energy areas:

- Gas Supply Research
- Efficient Utilization and Commercialization Research
- Environment, Safety, and Distribution Research
- Fundamental Research

Technical backgrounds, strong communications skills, a B.S. in an Engineering or Scientific discipline (advanced degrees preferred) and 2-5 years' project management or relevant experience are required. The expected higher demand for natural gas and other energy alternatives will necessitate a doubling of our technical staff by 1983. We invite your participation.

Scheduled for completion January 1983.
Eight Vice Presidents

Georgia Tech has been good to Harris

Looking back, eight graduates with degrees in Electrical or Mechanical Engineering from Georgia Tech brought to Harris their knowledge and potential for guiding people and creating new growth. They were able to develop technical assignments and all the responsibility they could handle. Decision-making was a skill they had developed. Their progress was enhanced by working with a team of outstanding professionals. Along with the challenge and the excitement, they found their work enjoyable. With Harris rapid growth, their advancement was swift.

The only thing more exciting than Harris then is Harris now. Today we are a Fortune 500 company with revenues that exceed $1.6 billion. Our high-technology products are sold in more than 100 nations. We employ 26,000 people and operate 40 plants in the U.S., Canada, Europe, and Asia.

Harris is the 10th largest producer of integrated circuits and the 6th largest producer of high-technology telecommunications equipment in the nation. We're the top producer of AM/FM radio broadcasting equipment. We're a leading producer of satellite communications earth stations and we're rapidly developing a multi-function word processing system. We're on the leading edge of the fast-growing supermini computer and data communications marketplace.

You can be part of our great adventure. We have career positions for graduates in Electrical and Mechanical Engineering, Physics, Computer Science and Business. You'll find opportunities with maximum growth potential exist in Research and Development, Manufacturing, Technical Sales and Business. Send us your resume, and we'll mail you full information. Write Manager, Corporate College Recruiting, Harris Corporation, Melbourne, Florida 32919.
