The Space Shuttle Challenger "went in a flash and a fiery ball at 11:39.13 am, on January 28, 1986. In that instant, seven men and women who dared to break the bonds of Earth simply vanished, their passing marked by a 10-mile-high cloud that hung in the skies for hours."

U.S. News and World Report

"My name is Gene Hasenfus. I come from Marinette, Wisconsin. I was captured yesterday in southern Nicaragua. Thank you."

Hasenfus' brief statement to the press in Managua, Nicaragua

"We're in a free country where private citizens have a great many freedoms."

Ronald Reagan

"The U.S. Government had no connections with the flight, the plane, the crew or the cargo. The guy doesn't work for us, and CIA is not involved. There are congressional restrictions on assistance to the contras, and we do not break those restrictions."

Q: Do you expect the U.S. Congress to approve new aid for the contras?

STEALTH FIGHTER

"Pilots called her the Frisbee, the F-19A, the secretly developed Stealth attack fighter. She had no corners, no box shapes to allow radar signals to bounce cleanly off her . . . From above, her wings appeared to mimic the shape of a cathedral bell. From in front, they curved oddly toward the ground . . . and the whole idea was that she didn't seem to exist at all."

This Red Storm Rising passage, written by Thom Clancy two years before July's crash of the secret F-19 fighter, was uncannily accurate. Clancy says it was based on publications and educated guesses.

"Stealth starts the process of obsolescence for Soviet air-defense systems."

Richard DeLauer, a former defense under secretary

"It is important to recognize that (Stealth) is, for better or worse, not a true multirole bomber like the B-52 and the B-1. (Because the stealth lacks the) speed, payload and flexibility (of the older B-1), the stealth cannot be expected to provide any significant contribution to meeting conventional long-range bombing requirements."

Baseball Commissioner Peter Ueberroth, challenging Congress to step up the battle against drug use in America's workplaces.

President Reagan

"No one seems safe, no one appears to be above the dirty dealings. People are shocked when their heroes are toppled by drug use — when Boston Celtics top draft choice Len Bias and Cleveland Browns defense back Don Rogers drop dead from cocaine."

"Clearly, this nation's high-school students and other young adults still show a level of involvement with illicit drugs greater than can be found in any other industrialized nation in the world."
