"THE PRICE OF VICTORY IS HIGH...
BUT SO ARE THE REWARDS."
— Paul "Bear" Bryant

In academics, in athletics, in business, victory is earned only when the commitment to win exceeds all other challenges. And to those who emerge victorious come the exceptional rewards of honor, respect and pride of accomplishment.

The Chattahoochee Bank extends to all who compete here every good wish for success and for the huge rewards that come with victory.

Leadership comes from experience.

Leaders—growing for the future, today

Leaders.
Georgia leads the nation in total production of tree farm acreage.*
And Union Camp takes the lead as Georgia’s largest tree farmer.
Each year, Union Camp plants 30,000 acres with 20 million genetically improved superior seedlings from our Bellville, Georgia, nursery. That makes us not only the state’s biggest tree farmer, but the biggest farmer, period.
With that distinction, the company feels a responsibility to educate people about the importance of agriculture. In fact, since 1953 Union Camp has sponsored vocational forestry classes with the Georgia Department of Education, because we know how important it is to train the leaders of tomorrow.
We’re growing for the future, today.

A Tradition of Nutrition...

IT'S IN "THE BAG"

For well over a half-century people in these parts have recognized the F-R-M feed bag as a symbol of quality, service and satisfaction.

Remember, F-R-M has developed a wide variety of livestock, poultry and specialty feeds to meet the needs of profitable operations.

Most likely, it's the care that has gone into — and the maximum benefit that comes out of — each bag of F-R-M that has given us a tradition of nutrition.

Find out for yourself. Ask your F-R-M dealer and he will tell you... "IT'S IN THE BAG."

Advertising
A few pages of selected advertising will help defray soaring printing costs. Student Publication Advisors and Publishers' Representatives are welcome to call us for further information. Our staff of professionals will work closely with you and your publisher.
Unfortunately, if the telephone you buy today isn't a Panasonic, it may be out of date tomorrow. If it lasts that long.

Choose a built-in answering machine. Speakerphone. Built-in dialer. But choose carefully, because it's built to last. After all, it's a Panasonic.

Now you can buy your own telephone. So it's important to buy the one that's right for you.

On one hand, you don't want to spend too much for a phone. Or buy one that does more than you need. On the other, you don't want to spend too little. Or the phone may become out of date in a few months. If it lasts that long, let Panasonic help you reach the right decision. We have the right phone for you. And the right price to go with it. No matter what your needs or budget.

Choose from phones with answering machines built in. Speakerphones that let you talk without holding the phone. And phones with automatic dialers. And most of our phones are compatible with alternate long distance services, such as Sprint and MCI.

Whichever Panasonic telephone you choose, it will have one thing in common with our entire family of phones. Panasonic dependability.

And should your phone ever need service, we have a nationwide network of service centers. Panasonic telephones. They won't be out of date today. Or tomorrow.

Panasonic products are available at this dealer location:

Great! Our new darkroom has a window! ... I can tell basketball's my calling -- good, tryout for the team! ... It's an Allenroll ... I want one of those mono-tripods ... SWEET ... He's big, he's hot, and he spouts ... Rich, get your knee out of my back ... Do you know how to whisper? ... Billy, do you want to get paid? ... Hey! look at these great shots -- Oh! you must be looking at my negatives ... What! you didn't buy it from KEH? ... Let's have positive hour ... My my, you're looking more and more feminine everyday ... Susan, Zach's here and he's got just what you need ... Two to the tenth is a megabyte ... Are they bad? They're not great -- you won't see them on the AP wire ... Rich, where's Michigan? Midwest or North? Well, it's kind of MidEast ... Every bit of taste is in her mouth ... Hey, can you come and 59 with a lady in front of the Physics building?

If you had told me at this time last year that I would be editor again, I would have told you that you were crazy. Why would anyone want to go through all the headaches of getting a book out two years in a row? I am not sure why I did it, I guess I figured the second time around would have to be easier. After all we would be getting a fresh start with a new publishing company, and we would finally make the move to desktop publishing (something I wanted ever since I started working on this staff). So needless to say I was talked into doing it again.

Although the editor usually gets the most credit for a completed book, I am not the one who deserves it. I had a great staff who spent countless hours seeing that this book got finished, and they are the ones who deserve all the credit. Many of them believed that I didn’t appreciate all the work they put in, but just because I didn’t always express it, doesn’t mean the appreciation wasn’t there.

Mary - You put up with a lot when it came to getting the ads in. It took someone who wouldn’t take no for an answer, and you definitely were the right woman for the job.

Caryn - Once again you came through in a bind. You always had pages to turn in, and you jumped right in when it came to getting Classes done. You will make a great editor if that is where you are headed.

Guy - It is not easy working with Greeks on this campus is it?

Scott - You did well to have your section in on the first deadline, Lord knows we needed it.

Randy - I am sorry things worked out the way they did. I hope you will stay with working on the Blueprint, you really are a great asset.

Robert - I bet you never realized when you said you would take an editor’s position how much time it really took. You had the hardest section in the book and yet you kept with it until the very end.

Angela - Isn’t Forest Park one of the more interesting sights in Atlanta? I know working with the photography staff was a real adventure, but you handled it well.

Mary Kay And Susan - I know you got frustrated at times with how slow things were coming along, but you were always there with some encouraging words and some helping hands. Hopefully things will run a lot smoother next year, with having the first year behind.

J. R. - You always knew how to lift my spirits when deadlines were getting me down. I thank you for all the time you put in so that this book would be a reality. I do appreciate you not only for all the hours you spent fixing the printer and the Blueprint computer, but also for when you were just willing to lend a hand at deadline. Your friendship has been a great asset to me, if only I could say thank you enough.

Noel and Eric - You two were willing to help out anywhere you were needed. I know your dedication is a large part of why this book is the way it is.

Mom - This really was my last year.

Susan M. Volberding
Editor
COLOPHON
The BLUEPRINT was printed and bound by Walsworth Publishing Company in Marceline, Missouri. Susan Goddard and Mary Kay Kimmitt were our account representatives, and Debbie Taylor was our account executive in the Print Department.

Printed on eighty pound enamel paper, offset lithography was used throughout the five hundred sixteen page book. Fifty pages were printed in or, and process blue was used on ten division pages. The press run was ten thousand copies.

The cover was designed by Susan M. Volberding, editor, and LeeAnn Walsworth Publishing Company artist. The quarter bound, trapper cover involved one color litho, lamination, debossing and foil stamping. Gold foil was applied to the Navy leathertone base material and blue was used under the flap. Gold braid was applied between the leathertone sections. Typefaces used were Palatino and Tekton.

Front and back endsheets were printed with process blue ink on warm white matte paper. Architectural letters on endsheets and pages were designed by LeeAnn O'Keefe.

Avant Garde type was used for headlines in the Organizations, Academics and Residence Hall sections, the Index and for all body captions and photo credits throughout the book. Body copy was in ten point, captions were in eight point and photo credits and Index six point type. Folio art was drawn by LeeAnn O'Keefe and folio copy was printed in fourteen point Tekton Oblique. Tekton was used for the index, division pages and folio copy. Futura Condensed type was for the headlines, drop letters, and quotes in the Student Life section. Tek letters were created using Symbol type in the Typestyler program.

For the first time, all pages were created using Desktop Publishing software on disk to the publisher. The BLUEPRINT staff produced the book with the use of seven Macintosh computers and a laser printer in the office of Student Publications. Microsoft Word 4.0, Typestyler, and Quark 4.0 programs were utilized in producing the yearbook.

All halftones were produced using a one hundred fifty line elliptical screen. All black and white photos were scanned on the flat bed RT SCANNER. Black and white photographs were taken using Kodak (ASA 400) and processed by the photography staff. Prints were Southeastern Portraits, Inc., of Forest Park, Georgia and the staff.

Color was reproduced by a Hell Laser Scanner from prints made by coservices, Inc., of Atlanta, Georgia. Both color negatives and color transparencies, from which internegatives were made, were taken by the photography staff using Fujicolor 160 color print film and Fujicolor 400 color film and processed by DataSlides of Atlanta, Georgia.

Classes portraits were taken by Southeastern Portraits. Approx-imately three thousand five hundred students were photographed. Southeastern Portraits also photographed the Directors that appear in Academics, the majority of the group photos that appear in Organizations, and Residence Halls.

Our advertising representative is Greg Anthony, Anthony Advertising Inc., of Atlanta, Georgia.
