

2002 PS Graduates: Where Are They Now?

During spring, summer and fall 2002, 71 PSs donned black robes and caps, marched across the coliseum floor, and "got out" of Georgia Tech. Here is what those recent graduates are doing now.

Jacob Adams (CHEM) does not plan on getting a job after graduation and does not have any traveling plans. He is going to do nothing until he gets bored (seriously). He then plans on attending graduate school.

Amanda Alvarez (TFE) will attend grad school.

Scott Atha (ISYE) will work in corporate finance at Ernst & Young and attend law school somewhere down the road.

Josh Bagwell (ME) plans to spend a year as an intern with the Christian Campus Fellowship at Georgia Tech. It will be a great opportunity to share his faith with those in the Tech community and to see what full-time ministry is all about. After the internship, Josh plans to pursue a career in mechanical/automotive design.

Chris Baker (BIOL) is currently involved in kidney research at Indiana University School of Medicine and will be applying there among other places in the next couple years to begin an M.D. program.

Andre Baran (CHE) plans to do chemical engineering work for a year and then return to graduate school.

Chris Baucom (STAC) is pursuing a career in journalism as a reporter for the Courier-Herald in Dublin, Georgia.

Adam Bierce (ME) plans to get his MBA while working.

Casey Brister (EE) will attend graduate school at Georgia Tech's campus in Lorraine, France.

Ian Carlton (ARCH) will be working as an international architect.

T.W. Cauthen (ISYE) plans to pursue a Master's of Education degree in college student affairs administration from the University of Georgia.

Phebe Clawson (BIOL) will be attending veterinarian school at the University of Tennessee.

Josh Cothran (CS) is pursuing a master's degree in human computer interaction at Georgia Tech, after which he plans to pursue a career in interaction design.

Justin Crowell (CS) returned from his final semester at the University of Leeds, England three weeks after the rest of the spring class graduated. He returned to Atlanta and started work full time with his co-op company: Synchrologic, Inc. as a software engineer. He officially graduated at the end of summer semester.

Bob Czaplicki (CMPE) will spend the summer semester studying abroad at Georgia Tech Lorraine. He has begun work at Radiant Systems in Alpharetta.

Elizabeth Gibson Dalton (BIOL) plans to work in a research lab at Emory University next year and attend graduate school at Fuller Seminary pursuing her Ph.D. in clinical psychology the following year.

Brian Davis (CS) was married May 18 and moving to Augusta, GA, where he works in software development while his wife attends medical school.

Jason Dooley (CHE) is a program manager for the U.S. Government in the Washington, D.C. area. Your tax dollars will be well spent.

Laura Dukes (CHEM) will be spending the next year working as an intern at a campus ministry

in Mexico City. She will return, hopefully fluent in Spanish, to teach elementary school.

Dan Dyke (EE) will probably pursue a graduate degree in biomedical engineering.

Erin Elder (ME) plans to work as a substitute teacher in the spring before beginning graduate school in bioengineering in the Fall of 2003.

Jean Marie Flexer (MGT) will continue to reside in Atlanta while working for Delta Airlines in revenue management. Her current position is as an inventory analyst. She loves her job and the opportunity for weekend travel.

Jeff Freeman (CHE) attends law school at the University of Georgia and may pursue a career in intellectual property law.

Laura Frick (BIOL) is on the Board of Directors for the Atlanta Community ToolBank for a three-year term ending in August of 2005. In January she will apply for the AmeriCorps program in the Injury Free Coalition at Hughes Spalding Children's Hospital in Atlanta. The program would begin in May 2003 and last until May 2004. She will enter medical school in the fall of 2004 and is getting married in June 2004.

Cori Batchelor Gilman (ISYE) will be working as an industrial engineer for Disney World in Orlando.

A.T. Gimbel (ISYE) has accepted a position with Bain & Company and will begin work after his December graduation.

Justin Hargrove (HTS), after studying in Europe this summer, began graduate study this fall at the College of William and Mary School of Law in pursuit of his juris doctorate.

Misty Harper (STAC) plans to pursue an M.F.A. degree in

creative writing at Indiana University - Bloomington.

Zach Healy (CHE) is pursuing graduate work at Johns Hopkins University.

Jimmy Henderson (ISYE) plans to enter the consulting field before returning to grad school.

Kay Hill (EE) will be pursuing a career in intellectual property law. Kay's unsure which law school she will attend, but will hopefully gain some insight while spending her graduating semester at Georgia Tech Lorraine.

Wes Horsford (MGT) has accepted a position to start in January with Abacus Solutions in the Vinings area doing sales work.

Dipika Jain (CS) is spending the summer vacationing first in Los Angeles and Las Vegas followed by a six-week trip to India to visit relatives. After her trip abroad, she will be packing her bags and moving off to Arlington, VA to start a new job working for Solers.

Gloria Jung (CHEM) spent the summer in Nashville teaching math at an inner-city school with Vanderbilt and the Princeton Review. She is currently attending Vanderbilt Law School and plans on pursuing a career in patent law.

Chris Kavanaugh (ISYE) plans to take a year off to circumnavigate the globe before beginning his legal education at University of Virginia in conjunction with a master's in international affairs.

Sandi Kaye (CHEM) married Daniel Cohan in June, 2002, and subsequently began a long course of study at the Morehouse School of Medicine in Atlanta, GA. If she survives, she will become a medical doctor after four

(over)

years. She intends on entering a practice in pediatrics.

Nicole King (PUBP) plans to study patent law and attain her law degree.

Justin Landis (CHE) will stay in Atlanta and work as a software consultant for PowerPlan consultants.

Kimberly Logan (PUBP) is presently enrolled in the Clinical Program at Atlanta School of Massage. She will graduate as a certified massage therapist in April. Presently, she is applying to Teach for America with the intent of doing a two year stint in Atlanta, while getting an additional massage certification. Thereafter, she wishes to attend graduate school and get a master's in education.

Christina Luu (ARCH) will be attending grad school in architecture, either at UC Berkeley or back here at Tech. After that she plans to work at a commercial architecture firm in downtown Atlanta.

Jill Mahler (ECON) returned home to Florida to work on Carol Roberts' Congressional Campaign in Florida's 22nd District. After this, Jill will either a) work in Congresswoman Carol Roberts' district office, b) work in the Office of Civil Rights in the Attorney General's office, c) work for the state Democratic Party, d) work on Lois Frankel's mayoral campaign, or e) begin law school at the University of Florida. At any rate, she will be active in politics and the cause of civil rights.

Seth Markle (CS) plans to attend law school, though he is unsure which law school. In the meantime he has accepted a research position with GTRI and will likely pursue an MS degree in computer science. As such he may have a master's degree or Ph.D. before entering law school.

Christine McIntyre (CHE) has accepted a challenging position with BP-Exploration and Pro-

duction in Houston, TX.

Pat Nardi (ME) will be either attending grad school or working.

Jen O'Meara (AE) will attend Stanford University grad school in aero/astrospace engineering.

Peggy Mulford graduated!

Joy Parrot (BIOL) will be attending Georgia State University to get her master's degree in secondary education for broadfield sciences. She plans to become a high school biology teacher. Joy will also begin a coaching position this summer for a private high school club crew team.

Dawn Pendergast (STAC) will begin her master's in performance studies at NYU in June. She doesn't know if she'll ever get a real job.

Charlie Pollard (ISYE) will be working as a software consultant at Manhattan Associates in Atlanta.

Jessica Pritchard (BIOL) spent her last summer of freedom traveling and teaching girls how to make crafts at Camp Greystone. Hundreds of lanyards later, she came running back to science. In the fall she began a Ph.D. program in molecular medicine at the University of Virginia.

Traci Quercia (ISYE) will be graduating in December after she participates in the Oxford Study Abroad program this summer and takes a small class load in the fall. She plans to seek out a career in consulting upon graduation, but is currently also looking into graduate school.

Robert Raines (ISYE/CS) plans to work on his master's in computer science.

David Reid (EE) is uncertain what his post-graduation plans are, but he will probably pursue a master's degree in electrical engineering.

Jessica Ryan (CHE) is enrolled in the Ph.D. program at the Uni-

versity of California at Berkeley doing breast cancer research.

Jenny Schwerman (CHE) is working in corporate research and development for General Electric in New York while pursuing her Ph.D. in chemical engineering.

Jana Scott (INTA) will be working on a master's in the art of teaching.

Shaun Sethna (ISYE) plans to go to law school at Columbia University.

Horace Smith (ME) plans to find an engineering job, most likely in Houston, Texas and continue his pilot training there. He eventually intends to work for an airline after receiving his pilot's license.

Richy Stanton graduated!

Marc Thomes (ISYE) will be attending law school.

Caitlin Tilley (ISYE) will spend the first half of 2003 teaching English and studying Spanish in Mexico. In the fall of 2003 she intends to start a career in Atlanta and eventually enroll in graduate or business school.

Drake Tolliver (AE) plans to sleep... and then work for Rolls-Royce in Indianapolis, go to grad school in Arkansas, or work in Atlanta.

Neil Vaishnavi (BIOL) will be working as a research specialist in the Emory University Department of Psychiatry for the next year. He plans to go to medical school starting Fall 2003 after taking the current year "off."

Annamarie Valentino (IAML) attends UGA law school.

Amy Vinson (CHEM) is enrolled at the Medical College of Georgia (MCG) in Augusta. She plans to enter a pediatric residency after graduating from MCG and then enter a fellowship to sub-specialize in a field yet to be determined. She will also adopt a puppy sometime in the

near future.

Matt Warezak (ISYE) plans on attending law school, followed by work and travel.

Kristie Watson (PSY) plans to pursue her doctorate in psychology at the University of Illinois at Urbana-Champaign. She will be focusing her research on Visual Cognition and Human Performance.

Lacey West (PSYC) is currently living in Boston and enrolled at Boston College to pursue an MA in Counseling Psychology.

Julie Whitmire (MGT) took the summer after graduation off to travel with her family and friends. She is currently working part-time for a mortgage banker, but ultimately she hopes to have a full-time job in media and advertising in the Atlanta area.

John Whitt (CHE) will enroll in medical school at the University of Alabama, Birmingham after a last relaxing summer back home.

Gayle Willis (CE) will go home to bother her parents until they kick her out of the house. She will then be sent back to Tech to learn how to use fancy air pollution equipment and will then go back and forth between Hong Kong and Atlanta for about a year to try to assess Hong Kong's air pollution problems. After a good while, she hopes she will convince Tech to give her more degrees. If this all doesn't work out, Gayle will leave it up to God to poke her in a new direction.
