The city moves to the country

Electricity builds cities. Without electric elevators, pumps and fans, the tall buildings would be lifeless piles of steel. Without electric cars, city streets could not accommodate the crowds.

But now, having made the modern city, electricity is making the country. Wherever electric lines lead out from the city, you find suburban property values enhanced, suburban life made comfortable, and waste land blossoming into homes.

The automobile helps. The motor bus helps more. But the trolley and interurban cars are more important still. Sixteen billion Americans rode on electric lines last year —145 rides per capita of our entire population!

This is an impressive record for a utility that is still young. The first complete electric railway system in the United States was installed in Richmond, Virginia, in 1888. It was a quaint, almost an experimental car-line. But it introduced a new economy in transportation, a new epoch in the art of making homes.

GENERAL ELECTRIC
Georgia Game Homecoming Day

If you were one of the four hundred or more present last year, you will remember with much pleasure the great home-coming we had and the very fine spirit manifested, so it is felt sure that you will again be present this year on November 14th. Those of you who were absent last year missed one of our largest and best gatherings, and you should by all means make arrangements to be on hand this time. Bring the lady, the boy, the daughter, and your “buddy”, or bring them all and gather for the home-coming luncheon, 12:00 noon sharp, Saturday, November 14th, in the dining room of the Atlanta Biltmore Hotel Ball Room.

Since the resumption of the “famous relations” all of you have been eagerly awaiting the Day of the Big Football Game with Georgia, and as we have arranged to synchronize it with all the events of home-coming day may we ask each of you to act as a committee of one and pass along the spirit slogan: "Are you going to the Home-Coming Luncheon and Georgia Game November 14th?" As you ask the question urge the ramblers and their friends to make their reservations for the luncheon on or before November 1st, and get tickets for the game at once.

Place orders for the Home-Coming luncheon with the National Alumni Association at $2.00 each payable to the Georgia Tech Alumni Association.

The class of 1911 and others are arranging parties together now, why don’t you do the same? Those of you who will be in the city or who arrive a few hours before the game are going to dine somewhere at noon on November 14th, so it will be easier to have a place reserved for you with the other alumni as every other place in town will be crowded.

We won’t be able to send out individual letters to the four thousand or more of you without increasing your cost; therefore this is YOUR PERSONAL INVITATION, her invitation and their invitation to be present at the home-coming luncheon and gathering on November 14th.

Let’s put it over right again, men, so send in that luncheon reservation to the alumni office right now, it’s only a month before the time.

The team has had a placard in their dressing room before them all the season; it reads as follows:

“1916—Georgia, 0; Tech, 21; 1925—Georgia, 0; Tech ?.”

What are you going to do about the question mark, old timers?
Tech's Progress Under Dr. Brittain

Under the able direction of Dr. Marion Luther Brittain, Georgia Tech has made great strides along the path of progress.

Assuming the responsibilities of president on August 1, 1922, Dr. Brittain quickly assimilated the routine duties of the office and placed his goal of excellence on a high plane. He readily saw the wisdom of the policies formulated by his predecessor, Dr. K. G. Matheson, and these he made dovetail with his own ideas. The work of the Greater Georgia Tech campaign had not yet borne tangible fruit although a large amount had been raised as a result of Dr. Matheson's untiring efforts, and with this to work with, Dr. Brittain set about bringing the campaign to fruition.

How well he has succeeded in the short time he has guided the destinies of the institution is eloquently illustrated on the campus and in the departments. The new Physics Building, anticipated for so many years, became a reality, and the morale of the school rose appreciably. The Chemistry Building, to which the finishing touches are now being added, towers above Grant Field: a newly discovered Phoenix, a tribute to the perseverance of Dr. Brittain and the vision of Dr. Matheson. The Ceramic Building was obtained chiefly through the efforts of Dr. Brittain who convinced the leaders in the field of pottery, brick, etc., that it was necessary to have trained men, men of Georgia, to develop Georgia's untold ceramic resources.

Nor has Dr. Brittain been unmindful of the needs of the students. Both the Knowles and Swann dormitories have been renovated, rendered modern and comfortable to a high degree. With the completion of the Julius Brown Memorial Hall this summer another plan materialized, satisfying a long felt want. This building houses several hundred freshmen who would otherwise be scattered about in the vicinity of Tech, and aside from its convenience and comfort, it tends to build up a healthy school spirit. The new stadium, probably the finest in the South, will doubtless seat with ease the largest crowds Atlanta can boast of, besides affording spacious quarters for developing American manhood physically.

The enrollment, since 1922, when Dr. Brittain became president, in actual numbers attending, has increased approximately 20 per cent. This indicates an astonishing growth, but it must be kept in mind that industrially, the South is but awakening. In order to keep pace with the growing student body, the faculty has had to increase its membership, and since the standing of any college is largely determined by those constituting its faculty, Dr. Brittain's task in inviting additions has been one requiring an insight into and an understanding of human nature. Courses in Biology, Bacteriology, Ceramics and General Science have been added to the curriculum. The Department of Architecture has particularly made great strides forward in the last few years, recognition of the work done being accorded it by the leading colleges of the country.

A large share of praise is due Dr. Brittain for the election of Georgia Tech to membership in the Southern Association of Colleges and Secondary Schools of the Southern States, recognition towards which Dr. Matheson held his rudder many years ago. The school was formerly barred because of its strictly technical nature, but with the institution of the General Science course that objection ceased to be.

Finally, with the considerable increase in the general appropriation for the school this year, Dr. Brittain's energy has again been rewarded, and Georgia Tech is in a better position to serve the needs of the country than ever before.

Cooper, No. 17; Gaston, No. 22; Rauber, No. 42; Jamieson, No. 59; Diamond, No. 51; Holland, No. 65; Bullard, No. 84.
The Oglethorpe Petrels with the best football team in the history of that institution invaded Grant Field for the initial contest of the year with the Yellow Jackets. After an hour of hard, straight football the Jackests emerged with a 13-7 victory after having played nearly every man on the squad and with Wycoff out all of the second.

The Petrels held Tech to the closest score in the history of their football hostilities, but regardless of this every one is well satisfied with the showing made by the Jackets. There are several reasons why this is true. In the first place the game was played entirely with straight football and the Jackests seem to be able to gain at will. No fluke whatever occurred as every yard was won by offensive ability on the part of the team as a whole. Then, nearly every man on the squad was allowed to participate, thus giving them all a chance for experience. Something else is to be taken into consideration, Wycoff, the mighty back was forced to go out in the second quarter with an injured nose, something that has not happened before in the three years he has been playing here at Tech. The ability of the team to gain with Wycoff out shows that its reserve strength is to be reckoned with. This is the first time in many years that Tech has had such reserve strength, which can certainly be counted on in the coming games.

Running true to form Wycoff displayed to the crowd of ten thousand that he is out for a great season. His was the first touchdown of the year, made in the second quarter after a sixteen yard dash off right tackle, giving the Jackets a lead of six points. Again in the fourth quarter, Carter Barron, known as “Little Red”, raced around left end on a wide sweep and went over the goal making the score 13 for the Tornado.

Carter Barron, after three years of hard work, was certainly “right” for this game as the work he did was nothing short of the playing of his famous brother, David Irenus, of a few years back. From the game he played that day Carter has shown that he is at last ready for a great season and will prove a mighty factor in the team this year. It was his ability to pick holes so readily that accounted for the second touchdown in the last quarter.

Vaughan “One Minute” Connelly showed that he is to be a real tower of strength in the team this year, for after he was put in he ripped off long gains through the line. He is a powerful fellow and has great speed. Ivan Williams was the signal caller of the game and the verdict of every one was that he is the best in that line that Tech has had in a good many years. The team ran like clockwork, seldom was it necessary to call the signals over and only one fumble was made by a Tech player during the game. Other men who looked mighty good were Dick Wright, Sam Murry, Owen Poole, Mack Tharpe and Walt Godwin.

For Oglethorpe Parrish, Campbell and Maurer played the stellar parts. In the final quarter a forward pass from Maurer to Campbell netted the Petrels fifteen yards and a touchdown, making the score 7-13.

The line-up was as follows:

**TECH**

<table>
<thead>
<tr>
<th>Marshall, r.e.</th>
<th>Nix, r.e.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Carpenter, r.t.</td>
<td>Corless, r.t.</td>
</tr>
<tr>
<td>Forrester, r.g.</td>
<td>Hardin, r.g.</td>
</tr>
<tr>
<td>Poole, c.</td>
<td>Parrish, c.</td>
</tr>
<tr>
<td>Godwin, l.g.</td>

<td>Kilgore, f.b.</td>
</tr>
</tbody>
</table>

Ga. Tech 0 0 0 7—13  
Petrels 0 0 0 7—7
This defeat was the worst that the Jackets have ever handed the Cadets, as those of the two previous years were only by three points. With most of the season before them and plenty of reserve strength the Tornado will in all probability prove to be the best team in the South, if not in the whole country.

First line-up and summary:

**TECH**

**Campaign Report**

Greater Ga. Tech

In accordance with its Expansion Program, Greater Georgia Tech has bought property, contributed to constructions and paid for buildings in full and remodelings to an extent, no doubt, far beyond your realization.

Necessary property purchases were made as follows: S. E. corner Cherry and W. Third for Physics Building; N. W. corner Fowler and W. Third for Ceramics Building; W. North Avenue and Techwood for Julius Brown Memorial Dormitory; Techwood through from North Avenue to Third and Kimball and W. Third, also purchased but as yet unimproved awaiting receipts for further construction. All of these purchases are comparatively large tracts on which payments have been made through September 12, 1925, to the amount of $33,961.00.

Your Campaign has completed or contributed to the completion of the following: Physics Building $250,000 in full with Carnegie Fund Donation of $150,000, which was contingent upon the assurance of $100,000 campaign subscriptions. Chemistry Building, New Addition $102,000 in full, not including entire equipment, however. Ceramics Building $41,000 of which $34,102.50 was contributed additional to the campaign; part of which was subscribed originally provided such a building would be erected. This latter building was especially made possible through the efforts of Dr. Brittain and interested co-workers.

Remodeling Knowles Dormitory, $11,200; Georgia Tech and Shop Remodeling, $11,648.56; Gymnasium Work $4,000.00; Julius Brown Memorial Dormitory $87,000.00 of which $4,512.98 was contributed by Greater Tech in preparing site in addition to purchasing the land.

The very generous Grant Field contribution is not included in the foregoing, as Mr. Grant and one or two other subscribers specified particularly that their subscriptions would go to this purpose only; other than this restriction, Greater Tech has neither received nor given any donation to the Georgia Tech Athletic Association.

With a salary overhead at less than $350.00 a month for cashier and two assistants, a big job is being carried on at a small expense. We must make vital improvements and erect other necessary buildings so it is most essential that you meet your subscription installments as they fall due and so help Eliminate Additional Overhead Collection Expense by living up to your pledge, so generously given “in consideration of the subscriptions of others.” You have helped Tech “Produce Producers” and you will reap the benefit in more ways than one.

Respectfully submitted,

Greater Ga. Tech Headquarters,
Ga. School of Technology.
Main Entrance to the New Stadium on North Avenue

NATIONAL ALUMNI OFFICES AND GREATER TECH HEADQUARTERS
shown in farther tower on Techwood Drive corner. Office hours: 8 to 4; Saturdays, 7 to 11. Entrance at second gate under office tower. Phone Hemlock 4887.
New Football Rules

Football players and spectators at games this season will have little cause for worry as they consider the new football rules. If they were familiar with the rules last year, they can pick up where they left off, with a few exceptions. The wording has been changed in some instances, but not many real changes have been made. When the rules committee met in March there were rumors that many striking changes were to be made, especially in regard to the forward pass, but there was no tinkering with the aerial game.

Acting on a suggestion from the Association of Coaches the committee made a change in the rules involving blocked kicks. This alteration provides that if the ball does not cross the line of scrimmage it shall belong to the side recovering the ball. If, however, the kicking side recovers the ball it shall count a down. Last year if a blocked kick was recovered by the kicker's side it went as a first down. All partially blocked kicks which cross the line of scrimmage will be treated as if the ball had not been touched.

Another rule covering appearance of physicians and trainers on the field during play, provides that such aides shall report to the referee, just as an incoming player would be required to report, without seeking preliminary permission to enter the field. Heretofore a doctor had to attract the attention of an official to get permission to enter the field or was summoned by an official.

This year the captain of the team winning the toss may choose to receive or kick in addition to selecting the goal which he will defend.

The rules on clipping last season called for the loss of 15 yards, either from the spot where the ball was put in play or from the spot of the foul, at

ROBERT AND COMPANY
INCORPORATED

ARCHITECTS AND ENGINEERS

ATLANTA, GA.
the option of the offended side. A change provides a penalty of 25 yards, to be enforced from the spot where the foul occurred.

As far back as the memory of oldest football fans, if a foul was committed by the side which did not put the ball in play, the scrimmage after a distance penalty was counted as first down with ten yards to gain. An important change in this is the abolition of first down on an offside penalty unless the penalty gives the offensive team the ball beyond the point to be gained. Bringing back one of the prettiest plays of the game, the return of the kickoff, the 1925 rules provide for the restoration of the kick off to the kicker’s 40-yard line instead of midfield, but no provision is made for a tea.

A new interpretation of the scrimmage line provides that instead of an imaginary line on the ground it shall also be a vertical line which shall be considered as the line of scrimmage. This will clarify the question as to players on the line of scrimmage being required to keep their hands on the ground.

---

Homecoming Day and Georgia Game
November 14, 1925

HOMECOMING LUNCHEON, 12:00 NOON, BILTMORE HOTEL

Class Rallies—Spirit Meeting—Inter-Class Introductions. No speeches.

Adjourn at 1:00 P.M. and ON TO THE GAME!

Alumni, Family, and Friends all invited.

Various Dances after the Game and Evening.

Reservation for luncheon $2.00 each.
Mail in your order and check Now.

Use the attached slip for convenience.

National Alumni Association,
Georgia Tech, Atlanta, Ga.

Date

Reserve ( ) plates to Homecoming Luncheon for me, on November 14,
at $2.00 each.

Check for same, payable to Ga. Tech Nat’l. Alumni Association, is enclosed herewith.

Signed

Address

City and State
National Alumni Executives—1925–26

Action Taken on Alumni Tickets and Homecoming Day

With the exception of Mr. Phil Lamar, 1900, who was out of the city, the gentlemens shown above held their first executive meeting under the 1925-26 regime, at noon October 1st.

One of the first subjects to be discussed was that of the distribution of tickets to the alumni for Georgia Tech's various athletic activities. Alumni members have consulted with the athletic authorities on this matter and, at present, the thought of the two bodies were adopted by motion in the executive meeting of alumni directors, as follows:

The Georgia Tech Athletic Association be requested to allot only six tickets to each alumnus for each game, giving seating preference to the members of the various classes in chronological order, and setting a final closing date for such orders; and that

Members of the National Georgia Tech Alumni Association in good standing for the year be given first choice in the foregoing.

If adopted, this will not be a new system at all, as no doubt, most of you and your family and immediate friends will be taken care of right away in your class sections and the seats not applied for by members of preceding class.

Additional season ticket requests by you and others will be taken care of in order of receipt. It is presumed that you may make your class section and additional reservations with the same order. Individual game orders to be handled as in the past along the lines outlined in the resolution, giving preference to the earlier classes with first choice to alumni members in good standing.

The arrangement is about the fairest one of many yet proposed. Father Time will see the later classes given first preference in the course of natural events. Greater Tech Campaign contributors and other loyal supporters can be well taken care of in the same manner before public sales.

The whole proposition is subject to your discussion, let us hear from you if it isn't quite the right solution.

Home-Coming Day came in for its share of the meeting and a committee of prime movers was appointed, as follows: Strother Fleming, Chairman; R. D. Cole, III., Carlisle Holleman, Sam Hodges and Johnny Chiles. Committee men are requested to get in touch at once with Strother Fleming, Fourth National Bank Bldg., WAlnut 0983.

We are going to have a thousand at the noon luncheon or else, so get set for November 14th, Home-Coming Day, Georgia Game!
1925 National Golf Tournament All Tech Affair

WATTS GUNN AND BOBBY JONES
Winners of the National Amateur Golf Tournament.

Aside from the fact that Bobby Jones and Watts Gunn came from Atlanta very few people in the United States know that both of them come from the same school. Jones is an alumnus of Tech, graduating with the class of 1921, while Watts Gunn is yet an undergraduate in his second year. So it takes but a moment of thought to see that the 1925 National Amateur Golf Tournament, of which Jones was the winner, was an all Tech affair. Especially can this be said of the finals when an alumnus met an undergraduate for the amateur title of the United States. This is indeed a remarkable coincidence and we know of no other school in the country that can boast of a like record.

For two years Bobby Jones has gone forth and brought home the well known bacon, and the second time he was aided by a fellow townsman who brought home the trophy that goes with the runner up in this tournament. Jones, the master, entered the tournament more or less doped to win as his golfing ability was well known throughout the entire country. With Gunn it was a different story. Young and unknown he signed up for the affair with very few knowing anything of his ability as a golfer. In the qualifying rounds he played marvelous golf and made one of the best records on that course. This same brand he continued to play all through the tournament, defeating such golfers as Jess Sweester, who was considered the best match player among the amateurs. Others fell in the wake of his play until he finally found himself face to face with his master, Bobby Jones. The final round was hard fought but the strain was telling on Gunn and the superiority of Jones defeated him, thus giving the total to Jones for the second time, and making Gunn the runner-up. What more could Ga. Tech, Atlanta, O. B. Keeler, the South, and the nation wish for in their world of golf?
Captain Fraser Hale

Captain Hale of the Air Service who for four years was stationed at Tech as instructor in the Air Service department was killed on August 24, when the plane in which he was riding fell near White Sulphur Springs, W. Va., while on a hop to see Bobby Jones and other friends in match play. Taking off with his engine sputtering upon his departure, he reached an altitude of about one hundred feet and tried to make a turn in order to miss the summit of a hill when his plane slipped and fell to the earth, the whole wreck bursting into flames a moment after the crash.

Many alumni will recall Captain Hale as the popular army officer who was so highly esteemed by the students at Tech. During his stay at school he was coach of the golf team and succeeded in turning out a good team each year. Captain Hale was himself a golfer of unusual ability, as he won the championship of the United States army at Leavenworth from the best golfers in the service, and usually figured well up in whatever tournament he took part in.

O. B. Keeler, writing in the Atlanta Journal says of Captain Hale in his article: “I got to know Fraser Hale quite well and to like him greatly, and admired him unreservedly. Tall, quiet, rather grave and never loquacious. There was always a sparkle in his eyes, always a warm and friendly clasp from his strong hand. Bip Farnsworth and Skinny Brannon and Bill Spalding were on the team he coached and they literally adored him.” That gives some idea of the type of man Captain Hale was, a true gentleman in every sense of the word. Every alumnus who knew Fraser Hale will regret his death, for a finer type of the true army officer never lived.

New Hotel Memorial to Daniel C. Ashley

The new half-million dollar hotel at Valdosta, Ga., will be known as “Hotel Daniel Ashley,” and will be a memorial to Daniel C. Ashley, class of 1914, who promoted it and who was killed in an automobile wreck this summer, within a few hours after he had completed the arrangements for beginning the work.

Mr. Ashley, who is to be memorialized by the new hotel, was one of Valdosta’s most popular, as well as enterprising young men. While at Tech Dan Ashley was one of the most likeable students on the campus. His friends and classmates mourn his parting and extend their sympathy to his family.

Positions and Applicants

It will be gratifying to you to know that we have more positions open than applicants to fill them, for engineers in particular, civils especially. Salaries are based on ability, experience and similar qualifications.

If you are fairly well located, we would not advise a change as only one or two of our requests, at present, offer more than $2,400 a year, the majority of them being for younger engineers at a smaller salary, as a rule, although there are one or two attractive positions available.

We shall be glad to mail you data on all requests, should you be interested.
New Baseball Field

Tech is to have the finest baseball field in the South when the new field on Third Street between Techwood Drive and Williams Street is completed, according to Coach Clay, who has been working on the field during the summer.

Work was started soon after school was out last June and by the time the baseball season opens next year the field will be ready for use. Wooden stands are to be erected in the southwest corner of the field and a high board fence will enclose it. The field is to be 309 by 328 feet and will have an area larger than Spiller's Park. On account of the extremely dry weather it has not been possible to sod the field, but this will be done as soon as practicable and the terraces will be completed.

When Grant Field is in use the new field will be used for football practice and will help to relieve the congestion there.

The new field has been made possible financially by money made by the Athletic Association, as also have the new stands in Grant Field.

Georgia Tech Alma Mater Song

Music by Frank Roman
Words by I. H. Granath.

I.
Oh Sons of Tech arise, behold!
The banner as it reigns supreme,
For from on high the White and Gold,
Waves in its triumphant gleam!
The spirit of the cheering throng
Resounds with joy revealing
A brotherhood in praise and song,
In the memory of the days gone by.
Oh Scion of the Southland,
In our hearts you shall forever fly!

II.
We cherish thoughts so dear for thee,
Oh Alma Mater in our prayer,
We plead for you in victory,
And then in victory we share!
But when the battle seems in vain
Our spirit never falters,
We're ever one in joy or pain,
And our union is a lasting bond.
Oh may we be united,
TILL THE VICTORY OF LIFE IS WON!
Weddings and Engagements

Armstrong-Mather.
Announcement has been made of the marriage of Miss Madeline Armstrong, the daughter of Mr. and Mrs. Edwin Armstrong, of Daytona Beach, Fla., to Mr. Jack Mather, the son of Mr. and Mrs. Roy Mather, of Atlanta.

Cameron-LeCraw.
The marriage of Miss Sarah Frances Cameron, daughter of Mr. and Mrs. Stanford M. Cameron, 146 East Seventh Avenue, N., St. Petersburg, Fla., to Mr. Ralph Veazy LeCraw, of Miami, was solemnized by Rev. Robert Newton Ward, of the First Congregational church, July 24, at 5 p.m.

Davis-Manning.
A wedding of much interest to a large circle of friends was that of Miss Marjorie King Davis to Mr. Frank W. Manning, which was solemnized Friday evening, June 26, at 8:30 at the Methodist church in Smyrna, Ga.

Fisher-Brisbane.
A very pretty home wedding was that of Miss Erma Eleanor Fischer and Mr. Austin Francis Brisbane, which was recently solemnized at the home of the bride’s mother, Mrs. Johanna Hayek Fischer, Myrtle street, Atlanta.

Mann-Shaw.
The marriage of Miss Thelma Odessa Mann and Charles Robert Shaw was an event of September, taking place at the residence of Dr. Carter Helm Jones on Penn Avenue, Atlanta.

Morris-Rhorer.
Widespread social interest in Georgia and Kentucky is centered in the announcement of the engagement of Miss Charlotte St. John Morris, daughter of Mr. and Mrs. J. Morton Morris, and Mr. Horace Lile Rhorer, son of Mr. and Mrs. Stewart Lynn Rhorer, whose marriage will be solemnized in the early winter.

Newton-McDaniel.
Extreme interest centers in the announcement by Mr. and Mrs. Oscar New-

Reduced Railroad Rates to Game

We understand that most of the railroads intend to give special rates to the major games to be played on Grant Field this fall. This applies particularly to Georgia, Nov. 14; Auburn, Nov. 16, and perhaps Notre Dame, Oct. 31st.

In all cases where a number of you intend to come to the games, we suggest that you consult with your respective ticket agents in reference to any special rate that might obtain.

Student and alumni special train will be put on from Atlanta to Nashville for the Tech-Vandy game which will be played on Nov. 7th.

Get football tickets now for Georgia game from the Athletic Association in the Home-Coming Section, if you haven’t already made your reservations.
