Merry Christmas

Published at Atlanta, Ga. by the National Alumni Association of Georgia School of Technology.
A day's work
at every gulp

A hand shovelful of ore weighs 21 pounds, and a man can handle 200 shovelfuls in an hour. But here is a giant that picks up, in one gulp, more than a man can shovel in a day!

And the G-E motors that animate the giant never get tired.

GENERAL ELECTRIC
Christmas and The New Year 1925---1926

May the Happy Christmas Season and the Joyous New Year bring every good health, joy and contentment, worthy success and all good luck to you and yours, and

May it ever keep lighted the kindly flame of kindred feeling toward your fellow man, with an ever increasing faith and belief in the Peace Of The Spirit That "Passeth All Understanding."

These are our SINCEREST CHRISTMAS AND NEW YEAR WISHES to our “grads”, “non-grads”, students, and their respective families; to our friends, their friends, and all.
Ranking With the Highest Institutions, Georgia Tech Receives Lowest Per Capita Appropriation

Two important and interesting reports have just been filed on the Georgia Tech campus; the first, placing the school in fourth place with the best twelve technological schools in the country in enrollment of engineers and the other, from the state auditor, Sam J. Slade, stating that in a survey made he found that the state per capita appropriation for Georgia Tech is much lower than any other state technological institution in the United States.

Massachusetts Tech, according to the survey made, is first in engineering enrollment with 2,492 students; Cornell second with varying numbers; Purdue, 1,850; Georgia Tech, 1,527, and then follow Ohio State, Worcester Polytechnic Institute, University of Illinois, Rensselaer Polytechnic Institute, Wisconsin, Stevens Institute, Carnegie Tech, and Case School of Applied Science.

In addition to the strictly engineering students enrolled at Georgia Tech, other departments run the total enrollment for the year to more than 3,000 students.

"I am much gratified," stated Mr. Slade, "over the splendid development and reputation Georgia Tech has made, as disclosed by study and comparison with other engineering schools. No school of engineering whose financial statements I have examined shows a state appropriation of less than $160 per capita. Georgia Tech's appropriation from the state is not half this sum for the years covered by the audit, and will not reach $100 per capita, under the present enrollment for 1926."

"Nation-wide reputation of the Georgia School of Technology as one of the great engineering schools of the country should be a source of great pride to Georgia. No one can attempt a survey of the engineering schools of the country without being impressed with the high standing of Georgia Tech in educational circles."

Dr. Boggs New President of Georgia Scientists

After being in session two days during which time reports on the progress of various scientific research work were made the Georgia Academy of Science closed its annual convention Saturday, Nov. 28, in Athens, Ga.

Dr. G. C. Boggs, of Georgia Tech, was elected president, succeeding Dr. L. L. Hendren, of Athens; Dr. C. R. Fountain, of Mercer, was elected vice-president; Dr. D. F. Barrow, Athens, secretary-treasurer. Dr. J. S. Guy, Emory; Dr. R. D. Kenate, Atlanta, and Dr. W. S. Nels, of Emory, form the executive council.

New members elected by the academy are: W. B. Baker, Emory; C. E. Bennett, G. H. Boyd, Tech; A. W. Scott, Georgia; L. P. Smith, Wesleyan.

Among the interesting papers read were those of Dr. W. A. Patrick, of Johns Hopkins, who reported on his researches in "Absorption," which has resulted in discovery of a principle of refrigeration which will eventually revolutionize artificial refrigeration, he stated. Another interesting feature was announcement of White Vaughn, of Atlanta, that Georgia is making progress in developments of its clay resources and that this state leads the country in its potential resources along that line.
GEORGIA TECH ALUMNUS

Home Coming Day Biggest Ever At Tech

Starting with a capacity attendance and a spirited get-together luncheon at the Biltmore Hotel, 12 noon, November 14, Georgia Tech's annual Home Coming Day acted as a most successful forerunner to the 3-0 football victory over Georgia.

The spacious ball room of the hotel was entirely filled by the "old timers," "new timers," their families, wives, sweethearts and friends. Alumni journeyed back from all parts of the United States and included among their numbers so many former football, baseball and other athletic stars that to mention them all would sound like an "all time" roll call on Grant Field. Five former football captains were also present in the person of J. F. Ogletree, Capt. '96, "40%" John Davis, '07, L. W. "Chip" Robert, '08, H. W. "Pat" Patterson, '11, and Judy Harlan, '21.

The earliest class, incidentally the second graduating one, was represented by Mr. Percy C. Brooks, '91, of New York City, Pres. Fairbanks-Morse Co., and Mr. W. H. Glenn, '91, Atlanta, Pres. S. E. Compress Co. Then came Mr. F. E. Whitney, '92, Philadelphia, Vice-Pres. Commercial Truck Co., and Mr. A. R. Colcord, '92, Atlanta, Capitalist, also Ferd M. Kaufman, '94, Atlanta, J. F. Ogletree, '97, Durand, Ga., Elbert M. Jackson, '16, New York, nationally known artist, "Uncle Cy" Coon, Emeritus Head M. E. Dept., Dr. Crenshaw, Dean and Mrs. Skiles, also other school and athletic executives, and many more whose names and presence added to the greatness and completeness of the occasion.

True to advance information, there were no speeches nor requests for anything but yells and songs which were forthcoming with a spirit that would have gladdened the hearts of the youngest Freshmen. The Georgia Tech Rambler's Orchestra furnished the best "Ramblin'" music that ever "Rambled" until the adjournment at 1:00 o'clock for the game and victory.

Arrangements had been made with the Athletic Association to take care of the out-of-town alumni in a Home Coming Section at the game, this was done until the eleventh hour practically, in view of the fact that all other seats were sold out well in advance of the 14th. The seats were a part of the Tech student section and though not the best in the stands by any means, they were very good seats considering the late hour that they were requested, with no others available at all.

Due to the efforts of Mr. Monie Ferst, particularly, the class of 1911 had one of the largest gatherings in its history; after the game, the members and many of the other alumni, attended dances at the hotels, the city clubs, and the fraternity houses.

Much of the success of the whole occasion was due to the individual and collective efforts of the alumni committee; to Mr. Joe Schlesinger for gold and white candies; and to Mrs. Geo. M. Traylor, Mrs. Ferd M. Kaufman, Mrs. Geo. W. McCarty, Jr., Mrs. "Nora" Northern and Mrs. R. J. Thiesen, all of whom worked strenuously for the good of the cause. Our most appreciative thanks are extended to them, and to any whom we might have omitted, together with the various departments of the daily and Sunday papers and the associated press for the material services they rendered us through their columns.
Anent "Speak Out, Alumni"

Atlanta, Ga., Nov. 13, 1925.
Mr. R. J. Thiesen, Editor,
Georgia Tech Alumnus,
Atlanta, Ga.,
Dear Mr. Thiesen:

Your article, "Speak Out Alumni," appearing in the November issue of the Alumnus, prompts me to raise a question which has been in my mind for some time.

It seems to me that the name of our Alma Mater, Georgia School of Technology, does not carry quite the proper degree of dignity which a college of Tech’s rating and reputation deserves. The term "School" implies and gives the impression of a secondary institution of learning.

I suggest a name, which I believe is far more appropriate; namely, Georgia Institute of Technology. If you think that the suggestion is worthy, I should like to see steps taken to secure the opinion of others regarding this change.

Yours very truly,

A. P. BROWN, ’22.

Editor’s Note: What’s your opinion, alumni?

Glee Club Secures Able Director

Officers of the Georgia Tech Glee Club have made another step forward in securing for this year the services of a theatrical director of great prominence and ability, Mr. LeRoy Printz.

A war veteran and one of the American aces, serving under three flags during the World War and awarded the Croix de Guerre and the Distinguished Service Cross for his valor and bravery, Mr. Printz is well-fitted to advise and to lend enthusiasm to the Tech Glee Club men. Mr. Printz is a graduate of Northwestern University, where he directed the Glee Club. He has directed the Glee Club of the University of Illinois, the Princeton Glee Club and the Glee Club of the University of California, and he has staged some of the greatest shows in the country such as George White’s "Scandals", "Artists and Models", "No, No, Nanette," revues at the Rainbow Gardens in Chicago and Winter Garden shows in Cleveland and Kansas City.

According to authoritative announcements, Mr. Printz is to write for the Glee Club a new and entirely modern type of show.

The Tech Glee Club, with much promising talent and the direction and supervision of a man of Mr. Printz’s ability should have a year of unparalleled success, so don’t miss their performances. Your support will be appreciated by the students and you will have a thoroughly enjoyable time.

Dallas Meets and Sends Delegates To Games

The annual dinner of the Georgia Tech Alumni Association of Dallas was held recently at the Dallas Athletic Club, when W. R. Snyder was re-elected president, Al Culberson, vice president, and Fred H. Puckhaber, secretary and treasurer.

Delegates to attend important football games in which the "Golden Tornado" participated this fall were also selected at the time; these were, C. F. Burney for the University of Georgia encounter and Charles L. Wil-
Paul Norcross Memorial

THIS TABLET IS ERECTED BY HIS FELLOW-ENGINEERS AS A PERMANENT RECORD OF THEIR

ESTEEM FOR HIM AS A MAN AND AS AN ENGINEER.
Vanderbilt, 0; Tech, 7

Leaving Atlanta with the serious intention of avenging the defeat of last year the Yellow Jackets and the majority of the student body invaded the city of Nashville on the morning of November 7 to meet the strong team from Vanderbilt University. Of course the usual demonstrations and celebration were staged by the Tech supporters and students, the most outstanding of which were the parades before and after the game.

The story of the encounter could be written in a few words; that a certain Mr. Dick Wright, a substitute halfback, took the ball in the early part of the fourth quarter and set out for a fifty-six yard run which placed the ball behind the goal posts and chalked up a six to nothing score for the Yellow Jackets. Then Mr. Ivan Williams proceeded to kick the field goal and make the score seven, thus giving to Tech a victory with a margin of seven points over the players from Vanderbilt. With this score Tech avenged the defeat of last year by the Commodores when the latter left Atlanta with a 3-0 victory.

Outside of Wright’s run the game was evenly fought, although it is true that the Jackets gained from snap a total of 222 yards while Vandy made only 108. Tech also made twice as many first downs but beyond one real threat in the second quarter, when Carter Barron ran wild, the Tornado made no serious invasion of the Vandy territory.

The first half was largely a punting contest, Wycoff getting the better of it in the first quarter with the wind at his back and Bryan getting the better of it in the second quarter with the situation reversed. In the second quarter, Red Barron carried the ball on two beautiful runs for 22 and 19 yards in addition to several shorter dashes. This placed it on Vandy’s fifteen yard line but here the Jackets found a stone wall which they could not penetrate and the attack failed.

In the third quarter Gill Reese made two fine runs for 17 and 9 yards which placed Vanderbilt close to the Tech goal and a recovered fumble by Vandy gave the Commodores the ball again within Tech’s twenty-five yard line but they had not the power to take advantage of these opportunities and the ball went over to the Jackets.

Statistics of the game show that Wycoff and Wright out-punted Bryan and Spears by three yards; the first two making an average of 38 yards while the second made 35. Tech threw only one forward pass which was incomplet ed. Vandy threw seven, three of which were completed for gains of twenty yards, three yards and one yard; two were intercepted and two incomplete.

Carter Barron was the main ground gainer from an individual standpoint. From scrimmage he carried the ball for a total of 112 yards. Twice he had only Reese in front of him and the goal. Other Jackets who showed up unusually well were Walt Godwin, Mack Thorpe, Wycoff and Owen Poole. Morgan Blake says, “If Tech’s line and secondary had not been on the alert all the time and tackled with more than usual ferocity, Reese would have spilled the beans. Never have we seen even a Tech team tackle so beautifully and Tech has always been a brilliant tackling team.”

For Vanderbilt the outstanding stars were Rives and Reese, and especially Reese since he was responsible for many failures of Red Barron and others to make a clean get away, but he was also responsible for Dick Wright’s score as he failed to stop this fleetly halfback at the supreme moment; however, he played a great game and deserves great praise for his work.

Both teams deserve glory and praise for the intelligent and splendid game they played and while they were evenly matched the superiority of the Jackets arose to the occasion and gave them a well deserved victory.
Georgia, 0; Tech, 3

From Athens came the Bulldogs, thousands of supporters, and the entire student body from the University of Georgia. From over the South and remote parts of the country came hundreds of alumni to see the first game between the ancient rivals in Georgia. When the whistle blew, about thirty-two thousand people were gathered on Grant Field for this classic in southern football. The weather was admirably adapted for the game, being cool with plenty of sunshine—it seemed as if the Gods were pleased to see these two institutions on the field of honor again, certainly they did their best to make the day a success.

Promptly at 2 o'clock the two teams went on the field and for two hours amid the applause of thousands they fought for the glory of Ole Georgia and Tech. The first half was air tight, neither team being able to score, the ball going from one end of the field to the other without recording points for either side. However, in the third quarter Ivan Williams, Tech quarterback, sent a thirty-five yard field goal over the bars and established to the satisfaction of all Tech supporters the margin of victory for the Yellow Jackets and sent the Bulldogs to defeat for the 1925 season.

The game was intensely exciting from start to finish. Both teams had been pointing to this encounter all the season and when they went on the field every player seemed to have more enthusiasm than at any time in the year, in fact they were so anxious to win that frequent fumbles and off-sides occurred throughout the game. Both were rated about equal, it was a hard-driving Tech eleven that met a fast, alert daring Georgia team. The Jackets depended upon line play and the Bulldogs upon the brilliant forwarding passing game. The alertness of Georgia in following the ball enabled them to profit by the frequent Tech fumbles and saved them from more than one score. Ed Danforth says "It was indeed a well coached team that Athens sent to Atlanta."

The breaks in the game were about equal and both teams were given chances to score. A fumble in the first quarter gave the Bulldogs the ball in scoring position but the air tight defense of the Jackets stopped them. Again, in the third quarter, the Bulldogs recovered a fumble and they had another chance to score but penalties from over anxiety caused them many yards and they were unable to make the grade. The same thing occurred for the Jackets except that theirs was from the driving power of the team. Time after time the Jackets would get within scoring distance of the goal and an inspired Georgia defense, or penalties would cost them the score.

The whole Tech team played inspired ball and exhibited some of the best brand of football ever seen in the south. The hero of the game was Ivan Williams and he will ever stand out as the one who was responsible for the defeat of the Bulldogs. Wycoff and Barron were the leading ground gainers; Barron gained 86 yards while Wycoff gained 59. Statistics of the game show that Tech was superior in the running attack, and Georgia in the air.

Here are some of the comments on the game by the prominent sport writers in Atlanta. Morgan Blake, "The finest thing about the game was clean sportsmanship that prevailed between the players of the two teams, and the splendid spirit of the mighty crowd that witnessed it. The two teams fought with everything they had. There was never a harder fought game staged and there never was a cleaner game." Charles Shonesy, "It was a good close tilt all the way." Fuzzy Woodruff, "Victory in this game will last as long as Grant Field stands."

O. B. Keeler, "The Contest went along as if they had been playing every year."
Tornado Attendance Sets Dixie Records

Southern football history saw all attendance records broken at the Tech-Georgia game November 14th when the actual paid admissions showed a total of 32,273 persons and perhaps a thousand more attended by the complimentary route.

The season record was also broken with a total of 114,400 for the seven home games, making an average attendance of 16,342 per game which in itself is hardly ever equalled in any one game.

Attendance at the Bulldog-Jacket battle exceeded by approximately 8,000 the previous record for one game, as something over 24,000 saw the Thanksgiving battle with Auburn in 1923, establishing at that time what was believed to be a record that would stand a long time.

The second largest crowd of the present season was the one in attendance at the Tech-Alabama game, a mass of 17,500.

The figures for the home season as given out by the Tech Athletic association follow:

Oglethorpe vs. Tech ........................................ 9,100
V. M. I. vs. Tech ........................................ 9,328
Florida vs. Tech ...................................... 17,041
Alabama vs. Tech .................................... 17,500
Notre Dame vs. Tech .................................... 12,752
Georgia vs. Tech .................................... 32,273
Auburn vs. Tech ..................................... 16,406

Total .................................................. 114,400

All-American and All-Southern

Departing Players and New Schedule

In the reports that have come in so far, Captain Douglas Wycoff has received several mentions as an All-American back, again, and is practically a unanimous choice for All-Southern on the composite selections. Owen Poole, at center, leads the All-Southern list for his position, while Walt Godwin follows not far behind as an outstanding guard. A number of the other Tech stars received a share of the votes, but not in sufficient numbers to make the composite team.

Of the foregoing three athletes, Capt. "Doug" and "Ole Reliable" Walt have played their last football game for Georgia Tech and with them depart a galaxy of other players: Ike Williams, quarter; Gus Merkle, end; Carpenter, tackle; Forrester, guard, and perhaps Cooper, Connelly, and Fair.

It will be hard to replace these nine men but in addition to them, seventeen more will receive their letters and with Bobby Reeves well again, the outstanding varsity squad men, freshmen and battalion stars coming on, it can't be said that the future will be so very dark.

It will be quite necessary, too, to have a wealth of material well coached in a versatile attack and with an impregnable defense, constantly on edge, for the 1926 schedule is as formidable as any heretofore.

Penn State passes from the list with Tech on the long end of two wins in the three year contract just terminated; Tulane, tied as Southern Conference leader with Alabama, will take the vacated place, and Alabama goes in to the open date. This gives seven conference games at home in addition to Oglethorpe, S. I. A. A., and one intersectional game with Notre Dame, in South Bend, Ind.

The 1926 Football Schedule is as follows:

Sept. 25—Oglethorpe in Atlanta.
Oct. 2—V. M. I. in Atlanta.
Oct. 9—Tulane in Atlanta.
Oct. 16—Alabama in Atlanta.
Oct. 30—Notre Dame in South Bend.
Nov. 6—Vanderbilt in Atlanta.
Nov. 13—Georgia in Atlanta.
Nov. 25—Auburn in Atlanta.
Tigers Tie Jackets

Tech, 7; Auburn, 7.

These four words tell the story of the Tech-Auburn Thanksgiving Classic better, perhaps, than any others would. The flow of luck was divided between the two teams. First it surged toward Tech, then toward Auburn, and after a futile wave toward the banks of the Jackets, the game ended. The score was tied—and that is really the story.

Tech again demonstrated the same characteristics that have shown up all during the year. They were all-powerful in midfield, the backs ran wild, the line opened great holes—but when the ball got near the goal line, then something seemed to catch the Jackets and hold them back. In only one instance when Doug made his pretty run around right end for Tech’s touchdown, was there any show of sustained power. Several times, later in the game, Tech would near the enemies goal, only to lose the ball on some misplay.

The Jackets put up their usual powerful running attack, with Captain Doug and Little Red Barron leading the way. These two gave just about the prettiest exhibition of running that has been shown on Grant Field this year. Tech tried but few passes, with only moderate success.

The Yellow Jacket line did justice to their former laurels, and even added to them, if such a thing is possible. Auburn’s backs never threatened, at least as far as the line is concerned. It was by passes, and passes only, that enabled Pea Green to score the Tigers only counter of the evening. We’ll have to hand it to Auburn—they were sure there when it came to the aerial game.

The placement kickers of both teams were somewhat off. Ike Williams, Tech’s star, tried three unsuccessful ones, missing each by a small margin. Buck Williams, Auburn’s nominee, missed his only attempt, the ball never leaving the ground. In the punting department, Doug, punting in his last game for the White and Gold, was never outkicked, but always bested his rival, Green, by many yards.

Statistics on the game indicate that Tech had a far better offensive than Auburn although the score was a tie. Tech gained 309 yards from the snap to 120 by Auburn, and made 17 first downs to 7 by Auburn. Tech also ran with the ball almost twice as much as Auburn, making 104 plays to 65. They kept Auburn on the defensive most of the time, and forced them to punt 12 times, whereas Tech punted only 7 times.

No one man stood out in the fray, except it be three backs, two of Tech and one of Auburn. Red Barron and Doug Wycoff, and Pea Green, of Auburn, were easily the stars of the game. Owen Pool and Walter Godwin in Tech’s line, played a beautiful game, and practically cinched their claim on the All-Southern.

Another Sponsor

Mr. and Mrs. Tom X. Cheeves announce the birth of a Georgia Tech Sponsor who was born on November 10. The young lady bears the name of Miss Margaret Lang Cheeves.

“D. C.” Collier Scouting Europe

D. C. Collier sailed on November 28 for Europe, on the S. S. Rotterdam. He states that he will be gone for about six months on a business trip, but we think he is scouting All Europe prep material.
Largest Southern Football Crowd Seen

Wyccff Going Around Georgia's End For Ten Yards.
Miller’s Freshmen Have Fine Season

Don Miller’s team completed a very successful season on Saturday, Nov. 21, when they defeated the Auburn Kittens. They have played 5 games, out of which they lost only 1 and tied 1.

The first game of the freshmen season was in Atlanta with the Oglethorpe Rats. Tech won 13-0 easily. The second game was in Macon with the Mercer freshmen, Mercer put up a good fight and held the Tech team to 0-0. The next week the Oglethorpe freshmen played the Mercer freshmen and tied them 0 to 0.

The University of Alabama defeated the Junior Jackets in Tuscaloosa 11 to 0. A touchdown was scored, followed by two safeties. Fumbles caused the loss.

Sewanee came next and the game was played on Grant Field, resulting in a victory of 34 to 6 for Tech.

The last game and another victory came on Grant Field when the Tech frosh won over the Auburn Kittens 9-0. The Auburn team, apparently heavier, had had a good season and was expecting to run over the Junior Jackets.

Many of the outstanding players on the freshman team had already had excellent training at prep school. Randolph was a star fullback at Tech High. Little Isadore Shulman from Jackson, Tenn., and Bob Horn, a former star at Greenbrier Military Academy, have both proven that they will materially aid the varsity with their ability of running in a broken field. C. S. Smith, quarterback, and Andrew Wienman, end, were both on the Staunton Military Academy team.

Coach Don Miller has made an excellent start as a football mentor. Then, too, he has had some fine material which, with a little experience, will develop into varsity material.

Havana Games on Basket Schedule

Official basketball practice started at Tech on the afternoon of November 30, when thirty of the best prospects ever to turn out for the indoor game were on hand to bid for the five places. The team will take four trips, one of which will be to Cuba where four games will be played with the University of Havana.

Georgia Tech Alumni and students on the Island are requested to back their team on its visit, and to tender a correct list of their names, and addresses to Dr. Crenshaw or Coach Hansen together with the same information on all other Tech men in Cuba whose names may not be on our records. The same suggestion is made to the alumni in the cities that will be visited in the States.

The schedule includes three games with University of Georgia, two in Atlanta and the other in the Classic City. One trip will be taken up through the Carolinas, where Tech will meet North Carolina State at Raleigh in one game, then invade Columbia, where University of South Carolina will furnish the opposition.

Marquette is the only new college that will be played; only one game is with this club.

The prospects for a good team are about the best the Jackets have ever had, as the entire 1924 outfit will be on hand with the exception of Fred Moore and Skinny Denicke. Then the freshman team of last year graduated some fine material. Coach Hansen will have height, speed and experience; so it looks as if this will be a great year for Tech in basketball.

Games to be played are as follows:

December 29—University of Havana, in Havana.

December 30—University of Havana, in Havana.

December 31—University of Havana, in Havana.

January 1—University of Havana, in Havana.
January 4—Tulane, in New Orleans.
January 8—Georgia, in Atlanta.
January 9—Auburn in Auburn.
January 11—Tulane, in Atlanta.
January 13—Marquette, in Atlanta.
January 15—Vanderbilt, in Nashville.
January 16—Kentucky, in Lexington.
January 22—N. C. State, in Atlanta.
January 23—South Carolina, in Atlanta.
January 30—Georgia, in Athens.
February 12—N. C. State, in Raleigh.
February 13—South Carolina, in Columbia.
February 19—Auburn, in Atlanta.
February 20—Georgia, in Atlanta.
February 26—Conference tournament.

Frank Roman "Rambles" 23 Years

Twenty-three years ago Georgia Tech played its Thanksgiving football game to music from the Fort McPherson band, having no band of its own. One of the members of the organization which came to play for Tech that day was a man who was so impressed by the pluck and sportsmanlike attitude of the student body that he became interested in organizing a band for the school. Coming to the campus, he gathered together nine men who could play musical instruments, and thus formed the nucleus around which one of the most important organizations of the school was built. That man was Frank Roman, present director of the Georgia Tech band, musical advisor to the Tech Glee Club, and one of the most familiar figures on the campus.

Not for long did the band number only nine men. Other students became interested in the new organization and new students coming to school brought new instruments. The band has grown steadily until today, when it has a hundred and seven names on its roll.

The strains of "Ramblin' Wreck" over Grant Field have brought inspiration to countless fighting bearers of the white and gold. Concerts over the radio station of the school have sent those strains of "Ramblin' Wreck" over the entire country. The band recently recorded Tech's songs on a phonograph record which will have nation-wide circulation.

With more equipment than it has at present, the Tech band would rank still higher. It has had a hard struggle to obtain the proper instruments and the necessary uniforms and no praise is too great for the man we think of when we say: "Come on, let's Ramble."

Jacket Track Captain Sets Record

Lindsey Roberts, Tech's fleetfooted captain, was proclaimed the south's greatest distance runner Saturday, Nov. 21, when he won the annual Southern conference five-mile cross-country race at Blacksburg, Va., establishing a new record of 29 minutes, 11 3-4 seconds for the course.

Tech and V. P. I. tied up for first honors with 53 points each, but the officials awarded the Gobblers the race inasmuch as they won the championship last year and placed a sixth runner ahead of Tech. Georgia won third, Virginia, fourth; Washington and Lee, fifth, and V. M. I. sixth. Florida had three runners entered, while the Maryland runners, although entered, failed to show.

The Georgia Crackers took away six of the ten individual medals, Tech and Georgia splitting with three each. The course, a hard one over hill and dale, was a real test for the harriers and proved the running ability of Captain Roberts, who picked up the lead shortly before the last half-mile mark. Tommy Marks, of Georgia, set the pace after the runners had strung out. He finished a close second, followed by Wild Bill Tate for third place; Dance, the crack V. P. I. runner, finished fourth.
Weddings and Engagements

Crouch-Graydon
A beautiful wedding taking place on Thursday, Thanksgiving evening at 8:30 o'clock, was that of Miss Margaret Crouch, daughter of Dr. and Mrs. Charles F. Crouch, formerly of Atlanta, but now of Florida, and Mr. Walter P. Graydon, which occurred at the St. John's Methodist church, the Rev. L. M. Twiggs officiating.

Hunt-Roane
The marriage of Miss Harriet Yvonne Hunt and Robert Watson Roane was solemnized Wednesday evening at 6 o'clock at the Druid Hills Methodist church by Rev. H. M. Quillian in the presence of a large number of relatives and friends.

Vanstory-Duncan
An event of wide interest throughout Georgia and the entire south was the marriage of Miss Jennie Vanstory and Mr. George W. Duncan, formerly of Macon. The wedding was solemnized at 8:30 o'clock in the First Presbyterian church in Greensboro, N. C., November 21st.

Positions and Applicants

Mr. Litchler, Manager Anchor Fireproofing Company, 206 Haas-Howell Building, Atlanta, Georgia, wants a man of personality and sales experience with a knowledge of concrete construction. Salary to begin $200.00 a month.

Supt. of The State Sanitorium, Milledgeville, Georgia, needs an engineer to take charge of plant. General mechanical and electrical knowledge required. Position not hard and offers good pay.

Mr. George W. McCarty, Jr., Vice-President Ashcraft-Wilkinson Company, Atlanta, wants an aggressive man of personality to learn the cottonseed oil business. Fine opportunity with a big concern.

Mr. E. S. Waddell, Vice-President Southern Plow Company, Columbus, Georgia, wants a young graduate willing to work and stick with his company and learn the plow business, beginning in the Forging Department and capable of making drawings, etc. Good promotion and permanent position for the right man.

U. S. Government, Civil Service, needs men in every kind of work, we have requests on file in our office.

Mr. Mark C. Pope, Jr., Mgr. Exide Storage Battery Company, Peachtree and Baker Streets, Atlanta, needs two good men of personality and willingness to work.

Young men between 20 to 30 years of age, intelligent and with right personalities, wanted in Sales Department of Hazard Manufacturing Company, Wilkes Barre, Pa. Mr. C. R. Purey, Sales Agent manufacturer of Underground and overhead cable, copper wire, wire rope, etc.

Southern Manganese Corp., Mr. P. E. Beard, Chief Drafter, Anniston, Alabama, has good position open in drafting department for experienced general designer.

Mr. Thos. B. Conner, Supt. of Schools, Swainsboro, Georgia, wants a graduate to teach History and Science and to coach High School boys.

Floridin Company, Quincy, Fla., W. L. MacGowan, Vice-Pres. and Gen. Mgr., wants Mechanical Engineer of experience, 30 years or over, Supt. of plant of about sixty men for mining, milling and shipping fullers earth. Give experience, age and number in family.

R. G. Johnston; S. A. Roane, c-o R. G. John-
ston.

Addenda to Directory

As corrections and additions are received to
our Directory number, we shall publish them
as addenda to the September issue under this
heading.

In order to keep your Directory up to date,
we would suggest that you clip out and paste
the names shown in these columns under
their proper classes and index, in alphabetical
arrangement.

IMPORTANT NOTICE

THE NATIONAL GEORGIA TECH ALUMNI ASSOCIATION

and

THE GEORGIA TECH ALUMNUS

Has been SANTA CLAUS to a great many of you for a number of years—let it be YOUR TURN this year by paying your dues of $5.00 or, at least, a $2.00 subscription to the Association. If you have not received a recent card or acknowledgment, you have not paid your 1925-26 dues or subscription, so don’t hesitate to put a candle on Our Christmas Tree this time.
