Whitehead Memorial Hospital
HE IS independent and proud, yet democratic and friendly. He is the envy of the rest of the world, and its hope. He is generous and tolerant and peace-loving—and withal the most powerful man in the world. He is the American workman.

His hands, accustomed to the feel of wrench and lever and gauge, may never have held a gun; his mind, trained to think in terms of tolerances as fine as 1/10,000 of an inch, may never have wrestled with a problem of military strategy; and yet he is the veteran of a thousand campaigns.

His campaigns began in the laboratories, and his prowess was proved in the test pits of American industry. His battles were waged on the factory floor and in the field. His victories have helped to make the citizens of the United States the most fortunate people in the world, and the U. S. the greatest nation on earth.

In the plants of the General Electric Company, working with General Electric scientists and engineers, this man, the American workman, has made giant generators to light whole cities, X-ray tubes to penetrate the mysteries of human flesh and metal castings, radio and television apparatus to project man's voice and image through space over the mysterious waves of the ether.

Today, in the gravest hour of world history, he is engaged in the greatest campaign of all. But there is serenity and confidence in his face, and the experience of a thousand campaigns behind him. He is sure of his own abilities, certain of his country's future. General Electric Company, Schenectady, N. Y.

Georgia School of Technology

"A Technical School with A National Reputation"

THE GEORGIA SCHOOL OF TECHNOLOGY offers to young men of ability and ambition a training which will fit them for positions of responsibility and power.

The national reputation of this institution is based not on claims, but on results. Its greatest asset is the record being made by its alumni in the productive work of the world.

Complete courses in MECHANICAL, ELECTRICAL, CIVIL, CHEMICAL, TEXTILE, GENERAL and CERAMIC ENGINEERING, ARCHITECTURE, AERONAUTICAL ENGINEERING, INDUSTRIAL MANAGEMENT AND PUBLIC HEALTH.

War Message to Students

In the December nineteenth editorial columns of the TECHNIQUE—Georgia Tech's student publication—a timely and sensible article was published for the information of the students of the college, and all others concerned under the heading—"Special Message, Concerning War, From School Authorities." The message is an important one and we quote it in full, as follows:

"In the face of the shock of war, Tech students are urged to keep their heads clear and their feet on the ground. When your services are required in the national defense, the nation will call upon you. Until that time comes, work at your professional training with the assurance that trained men are in demand and will increasingly be in demand.

"The fate of battles will not be determined by the number of persons listening to the radios, nor will the morale of the nation be raised if intelligent college men allow themselves to be affected by hysteria.

"Tech students are reminded that the President of the United States has warned against unconfirmed reports and rumors. Already on the campus have appeared speculations as to how long it will be before the junior class and the senior class will be taken into various branches of the service.

"It has been suggested too that Georgia Tech will be turned over to military and naval training exclusively. No such plans are even likely to be proposed.

"Our job here is to continue to train men for industrial and engineering leadership; such training will prepare Tech men for even greater usefulness when they are called into the armed forces of the United States. Every Tech student is urged to recognize that the most important contribution he can make now to the national defense effort is to continue calmly and diligently his college studies."

Earlier Graduation Considered

Georgia Tech, according to Dean Skiles, "is seriously considering" a program to accelerate present classes so that a degree might be obtained after three years' work. In view of the tremendous demand for college graduates needed for the prosecution of the war, numerous universities and colleges, the nation over, have undertaken such a program.

The report, covering a meeting in Baltimore of "eight hundred prominent American educators," headed by Dr. Guy E. Snively of the Association of American Colleges, stated that the body strongly supported such action. "By adopting this program," Dr. Snively said, "the student could end his college education at the age of 20 instead of 22 as usual, and thus finish his formal schooling before entering military service."

The program, as understood here, would entail dividing the year into three sixteen-week terms with four weeks vacation, probably one in June, one in September, and two at Christmas. If adopted, this would mean a regular summer session this year.

Besides contributing to the acceleration of the defense program, it will, according to Dean Skiles, "help many of our students with the draft. A board considering a student with three or four years to go might think differently of one with a year less. The only difficulty is with students who are dependent on money earned during the summer for expenses."
Home Coming Was Huge Success

Georgia Tech's 1941 Home Coming went into the records as certainly one of the best and largest attended ever to be held in the history of the college.

Beginning with Monie Ferst's most enjoyable and bountiful reception for his Class of 1911 and their families, at the Baltimore Hotel on Friday evening, November 28, and extending through a series of gala dinners, dances, the Home Coming Lunch, and the Tech-Georgia game; and brilliantly concluded with Jimmy Johnston's excellent party for his Class of 1921, at the Piedmont Driving Club, Saturday evening, November 29,—nothing was left undone for the pleasure and entertainment of the reunion classes, the home comers in general, and their respective families, dates, and guests.

D. C. Dawkins, E.E. 1911, President of the Dawkins Building and Supply Company, Jacksonville, Florida, presented each of his classmates, at the 1911 Stag Dinner on Friday night, with a valuable pearl handle pocket knife, which bore his compliments with the name of the recipient and "Ga. Tech 1911-'41" engraved in gold on the white handle.

There was a high percentage of prominent 1911 alumni present from out of town. Henry Grady Weaver, M.E. 1911, and Mrs. Weaver came from the farthest point. As Director of Customer Research, General Motors Corporation, Detroit, Mich., "Buck" Weaver holds a very high and nationally prominent position. He is in much demand as a public speaker and addressed several of the civic clubs while he was in Atlanta.

Before going further and not by way of parenthesis, either, it's remarkable how all of these grand ole "Ramblin' Wrecks" surely must have "out talked" the beautiful and charming ladies whom they married. That goes for all the classes—"and how!" They have great youngsters, too; so, a salute and many congratulations to all of you, alumni.

And now to Jimmy Johnston, also with flourishes. He enriched his 1921 classmates and many other alumni with unique, well designed, Twentieth Anniversary Tender; and while it wasn't legal tender, it was very much on the order thereof and greatly prized. Certain it is that this anniversary tender will last longer than the usual kind and will be cherished with fond memories by those of the Class of 1921, all of whose names were on the reverse side of the green backs. The class turned out in full force with the largest attendance from among their out-of-town and local alumni, all prominent men from their various communities.

For their outstanding work, generosity, and hospitality we again wish to add our sincere thanks and hearty congratulations to those that have been extended, by the many alumni and others, to Messrs. D. C. Dawkins, Monie Ferst, Montgomery Hill, and Claiborne Glover of the Class of 1911; Jimmy Johnston and his 1921 committee; Hamilton Traylor, 1926, and committee; Strother Fleming, 1901, and the other fine class secretaries, together with the Georgia Tech student body and all others who helped so loyally and well to make Tech's 1941 Reunions and Home Coming such a "grand and glorious" success.

Tech's National Standing Endures

Following his excellent talk on the high standing of Georgia Tech, to an overflow attendance of alumni, at the Home Coming lunch on November 28, Dr. M. L. Brittain spoke on the same subject at a mass meeting of the student body on Monday, December 8.

Georgia Tech and the other units of the University System have suffered grievous wrong through no fault, whatsoever, of their own and while the students, faculty members, alumni, and their hosts of relatives and friends, have not been complacent, at all, in the matter and don't propose to be, it was pointed out by Dr. Brittain that the probationary action of the Southern Association of Colleges and Secondary Schools "will not hurt us as bitterly as we may believe." He explained that our engineering college with its exceptionally high national standing would not be so severely affected as the liberal arts colleges, because we get our most important ratings from the various engineering accrediting organizations. It may be added with justifiable pride that these organizations along with the U.S. Army and Navy Departments, and the large engineering companies of the Nation are convinced that Georgia Tech will always uphold its high standards; and they are quite agreed, it seems, to consider Georgia Tech on its well earned merits, alone.

Tech became a member of the Southern Association of Colleges and Secondary Schools in 1923. The suspension of the University of Georgia System, as recently ordered by the Association, for "political interference," will not go into effect until September 1, 1942; and at the annual meeting of the Association, the following December, three months thereafter, all of the schools and colleges of the University System may apply for re-instatement.

Dr. Brittain suggested to the students that they "watch carefully and help work the situation out." He admonished against any form of mob action and congratulated them on their fine behavior, and their hearty, determined and cooperating work for the good of Georgia Tech and the entire University System of the State.

The students, faculty, alumni, relatives and friends of Georgia Tech and all other branches of the System have a large and progressive job to do, it may be stated in conclusion; however, comprehensive plans have been launched and all are doing their fine unselfish work in a calm, serious and determined manner which certainly will bring about needed and just reforms in a most conclusive way.

Season's Greetings Appreciated

Thanks and more thanks, alumni, for your very many fine Christmas cards and good wishes for the Season and the New Year.

It is a privilege, indeed, to repeat that our thoughts in the last issue of the Alumni, as best we could express them to you and to those dear to you, are continuous and ever sincere for your success and happiness. May the year bring a glorious and victorious peace, replete with joy, to our Nation and to you.
Birthday Celebrants and Newly Elected Bank Director

"UNCLE HEINIE" HENIKA

Birthdays Fall Together

Two of Georgia Tech's most beloved preceptors, Dr. M. L. Brittain, president, and J. H. "Uncle Heinie" Henika, wood shop head, celebrate their respective birthdays on the same day of the month, November 11.

Personal congratulations and other good wishes poured in, during that day, by telegraph, mail and telephone to Dr. Brittain from alumni, students, and his countless other friends from all parts of the nation.

"Uncle Heinie" likewise, received scores of heartfelt wishes on his birthday. He was 86 years old on November 11 and is "back on the job" after a recent siege of illness.

Dr. Brittain and Mr. Henika were guests of honor at the November 29 Home Coming lunch, and were each given a rising and prolonged acclaim in honor and esteem by the very large crowd that was present on that occasion.

New Naval R.O.T.C. Commander

Captain J. V. Babcock, U.S.N., arrived in Atlanta on January 3 from Los Angeles, Calif., to take command of the Georgia Tech Naval R.O.T.C. He succeeds Captain W. C. Wickham, who has been transferred to the Office of Naval Operations in Washington.

Captain Babcock, white-haired, but very active, has just been called out of retirement to take over the duties at Tech.

During the last war, he saw service as a personal aide to Admiral Sims, commander of the United States fleet in Europe; however, most of Captain Babcock's time in the last war was spent in the British Admiralty. Here his staff planned the movement of United States troops across the Atlantic to France.

Previous to the war he had been sent to Europe as a Naval Intelligence Officer to study munitions manufacturing in various countries.

(Continued on page 56)

Alumni Head Made Bank Director

Mr. Robert B. Wilby, 1908, President of the Georgia Tech National Alumni Association, was elected to the Board of Directors of the Citizens and Southern National Bank at the annual stockholders meeting in Savannah, Ga., on Tuesday, January 13, as announced by Mr. H. Lane Young, President of the Citizens and Southern Banks.

As often stated and so well merited, Mr. Wilby is a nationally prominent, highly efficient, successful business and civic leader. He is President of the Wilby-Kincey Service Corporation, a director of the Southeastern Theatre Owners' Association, and a member of the Board of the Georgia Tech Athletic Association. The foregoing, however, do not cover all of his very fine, outstanding, business and civic activities; to all of which he has given much valuable time and most generous assistance.

R.O.T.C. Units Will Carry On

In a recent interview, Colonel R. W. Collins, head of the Georgia Tech R.O.T.C. Army Unit, was asked: "How will the war affect our R.O.T.C. units?" The answer came immediately. Colonel Collins said: "This war will not affect our unit one bit!"

Col. Collins also explained that the present number of graduating Second Lieutenants would be sufficient for both peace time and war time. He said that in all probability, if any more officers are needed, they will be obtained from officers training camps.

In the last World War, Georgia Tech was taken over by the army and partially converted into an army training center. This policy of army control continued until the summer of 1919.

The total number of men that have been enrolled in R.O.T.C. in the September of the years since 1919 is 13,103, an average of 1,191 a year. The total number enrolled in February of the years is 11,832, an average of 1,076 a year. A total of 1,321 officers have been graduated from Tech, an average of 120 each year. This September there were 1,475 officers and men enrolled.
Gene Turner Shows Great Leaders With Appreciation Certificate

In his report letter of January 15, from Tryon, N. C., Gene Turner writes most interestingly, as follows:

Dear Friends:

Here are Generalissimo and Madame Chiang Kai-shek of our sister republic and ally on the other side of the Pacific. They are working with us for the reconstruction of the world. I took this picture of them last March after an informal dinner in their home in Chungking. In his hand, the Generalissimo holds an expression of appreciation to America—a certificate prepared and autographed by Madame Chiang at the request of the United China Relief Committee for presentation to larger American contributors to the fund. Since the New York Times correspondent, also present at the dinner, had no camera I took this picture for him. The Times printed the photograph and through their courtesy I am reprinting it here.

Of these two famous people, one is a generalissimo in all that the title implies in military circles, more than it implies in statesmanship; a Christian whose integrity and devotion to high ideals for people and country is respected; a leader behind whom parties and individuals have buried differences and lined up in united loyalty. The other, is a wife and help-meet; a national leader herself, counted in military value as the equal of twenty divisions; the moving spirit in the organization of China's women in war work, the care of orphans and refugee relief, who is showing an over-all leadership and example in her Nation which is incalculable. Madame Chiang stands as one of three women whose husbands are the leaders of the larger democracies. In addition to her place in her own nation, Madame Chiang has inherited the best of the East and West. She is more than Chinese, she is an internationalist.

As I left their table, I asked the Generalissimo if he had a message for friends in America. His reply, translated by his wife so that all present might understand, was:

"You may tell your friends in America that as long as there is a Japanese soldier on Chinese soil, including Manchuria, we shall fight on."

(To be continued in the next issue.)

Robert Clinkscales Wins D. S. C.

"Don't worry. Am well. Prosperous New Year."

That was the message that Robert Clinkscales recently sent to his parents from somewhere in the Pacific.

The Atlanta boy who has already won the Distinguished Service Cross for his services in the Pacific is a 1940 E.E. graduate of Georgia Tech. He won distinction when he flew one of a squadron of Army bombers from Hawaii to the Philippines just prior to the Japanese attack. Colin Kelly, the first American hero of the Pacific, was a member of the same group.

All members participating in the flight were awarded the Distinguished Flying Award. The squadron engaged the Japanese immediately when the latter attacked the Philippines.
Alumni Attain High Mention

Commander Harry F. Carlson, U.S.N., B.S. 1916, Pearl Harbor, T. H., has written his mother in Cedartown of his safety.

Louis C. Clark, 1907, of Greenville, Ga., former star football captain, was recently sworn in as State Superintendent of Farms and has his offices in the State Capitol, Atlanta.

Herbert M. Clark, 1930, has been assigned as reporter for the Columbia Network in Buenos Aires, Argentina. He has reported on every event of world importance since 1935, his work having carried him to Paris, London, Madrid and other large cities of the world.

Edgar Kôbak, E.E. 1918, was elected Executive Vice President of the Blue Network, Inc., as announced on January 9. The network was formerly the Blue Division of the N.B.C. and will operate, hereafter, as an entirely separate organization.

Davis R. Luck, Civil Co-op 1939, is Junior Highway Engineer, U. S. Public Roads Admin., San Jose, Costa Rica, and is now working on the Pan American Highway between San Jose and Panama.

John N. McClure, M.E. 1923, is District Sales Mgr., Elliot Company, Kansas City, Mo.

Charles B. McGehee, C.E. 1925, is Manager of Sales, Truscon Steel Company, Youngstown, Ohio.

Walter L. Mingledorff, Jr., M.E. 1936, is Vice President, Savannah Machinery and Foundry Co., Shipbuilding Division, Savannah, Ga.

Lieutenant Colonel Albert E. Pitts, 1910, U. S. Air Corps, has been named Commanding Officer, basic flying school of the Gulf Coast Air Corps Training Center at Enid, Okla. Lt. Col. Pitts has been at Kelly Field, Texas, since 1937. He has been in the air corps during and since World War I and served three years with the organization during the construction of the Athletic Stadium.

J. Adger Steuart, 1896, is President, Louisville Axe and Tool Company, Louisville, Ky. Mr. Stewart was Captain, U.S.A., 1918; Trustee Emory Univ., and was Manager of the Georgia Tech football team in 1894.

Frank A. Stivers, M.E. 1912, is Vice Pres. and Mgr., Texas Empire Pipe Line Co., Tulsa, Okla.

Henry G. "Buck" Weaver, M.E. 1911, Director Customer Research Staff, General Motors Corp., spoke to the Atlanta Lions Club on Friday, Nov. 27, when he was in Atlanta to attend the thirtieth anniversary reunion of his class. In 1921, Weaver joined General Motors as assistant to the head of the sales advisory staff. Since then he has been assistant director of the sales section, assistant to the president as a public relations director, and was appointed to his present position as director of the customer research staff in 1933. Weaver was honored with the Howard Award for Advertising Research in 1925.

William B. Woosley, T.E. 1926, is President, Woosley Knitting Mills, Shelbyville, Tenn. He is also Vice Pres. and Treas. National Pencil Co., Inc., and Vice Pres., Dixie Grain Co., Inc.

Deaths

HERAULT

On December 31, 1941, Pierre Charles Herault, Sr., 52, died of a heart attack. Mr. Herault graduated from Tech in 1911 where he received a degree in E.E.

HOLLAND

Glenn A. Holland, a member of Tech's 1928 Rose Bowl team was killed in an airplane crash. After graduating from Tech in 1929, Mr. Holland was an air carrier inspector for the Civil Aeronautics Administration.

PEARCE

Colonel Earle D'Arcy Pearce, Commandant of Tech's Army R.O.T.C. units from September 1923 until September 1929, died on Christmas Day in San Diego, Calif., as a result of an injury, and was buried at Arlington National Cemetery on January 2.

SEAWELL

On November 10, 1941, Mr. B. W. Seawell died. Mr. Seawell received his degree in M.E. in 1898.

WHITLOCK

Gordon Daniel Whitlock, Jr., 21, a Georgia Tech freshman, was killed in an automobile accident near Evansville, Ind., on the night of January 3. Whitlock was majoring in Ch.E. at Tech.

Births

DODD

Coach Bobby Dodd recently became the proud father of a son. Coach Bobby Dodd, an alumnus of the University of Tennessee, is the backfield football coach at Tech.

LEROY

Mr. and Mrs. Walter W. Leroy of Charlotte, N. C., announce the birth of a son, Philip Neil. Mr. Leroy received his B.S. degree in M.E. in the class of 1934.

McEACHERN

Mr. and Mrs. Calvin Cargill McEachern announce the birth of a daughter, Mary Janell, on December 31, 1941. Mr. Calvin Cargill McEachern received his B.S. degree in E.E. in the class of 1928.

NEWTON

Major and Mrs. Edward Taylor Newton, announce the birth of a son, Edward Taylor Newton III, on August 23, 1941. Major Newton received his B.S. in E.E. from Tech in 1926.

SCHAAG

Mr. and Mrs. Frank M. Schaag announce the birth of a boy on July 18. Mr. Schaag received his B.S. in E.E. in 1932 and is with the Southwestern Bell Telephone Company.

Alumni Attain High Positions—(Cont'd.)
Weddings and Engagements

ADAMS-STANALAND
The marriage of Miss Frances Antoinette Adams to Mr. James Herbert Stanaland was solemnized on December 23, 1941. Mr. Stanaland received his B.S. degree in 1935.

BAER-REISMAN
Mr. and Mrs. Milton Baer have announced the engagement of their daughter, Lois, to Lieut. Ralph Reisman. Lieut. Reisman graduated from Tech in 1937, receiving a B.S. degree in I.M.

BARFIELD-JOHNSON
Mrs. Dorothy Orr Barfield was recently married to Mr. Casper Jackson Johnson, Jr. Mr. Johnson graduated in 1930, receiving a B.S. in M.E.

BLACK-HANSELL
A ceremony held in December united in marriage Miss Anna Branch Black and Mr. William Albert Hansell, Jr. Mr. Hansell graduated from Tech last June, 1941, when he received his B.S. degree in Ch.E.

BRASWELL-SHAW
Mrs. Annie H. Braswell announced the engagement of her daughter, Miss Helen Elizabeth Braswell to Mr. Gene Shaw. The marriage took place on January 12, 1942. Mr. Gene Shaw graduated from Tech in 1941 when he received a B.S. degree in G.E.

BRAY-STARR
On December 27, 1941, Miss Charleeene Bray was wed to Lieut. R. F. Starr. Lieut. Starr is stationed at Fort Oglethorpe, Ga.

FERRELL-VERLANDER
On December 24, 1941, Miss Alice Ferrell became the bride of Mr. William Ashley Verlander. Mr. Verlander received his B.S. degree in I.M. in 1939.

GREEN-FUCHS
Mrs. Thomas Neares Green announces the engagement of her daughter, Mary West Green, to Lieut. Frederick Edward Fuchs. Lieut. Fuchs graduated in 1936, receiving his B.S. in G.S.

GREENE-WRIGHT
On December 26, Miss Doris Edith Greene became the bride of James Earl Wright. Mr. Wright is a member of the class of 1942 and will receive his B.S. degree in T.E.

HAMMACK-CAVETTE
Recently Miss Mildred Hammack became the bride of Mr. Neil Cavette. Mr. Cavette was in the class of 1941, receiving a B.S. degree in I.M.

JOYNER-KENIMER
The engagement of Miss Mildred Inez Joyner to Lieut. Gordon Kenimer has been announced. Lieut. Kenimer received his B.S. in Ch.E. in 1936.

HUGHES-SIBLEY
Announcement has been made by Mr. and Mrs. John B. Hughes of Comer, Georgia, of the engagement of their daughter, Madalyne, to Hubert O. Sibley, Jr. Mr. Sibley received his B.S. in Industrial Management in June, 1941.

LANIER-ALLEN
Miss Carolyn Clarke Lanier became the bride of John Cleveland Allen on December 20. Mr. Allen received a degree in Commerce from Ga. Tech.

MacLEOD-CROLEY
Recently Mr. and Mrs. James A. MacLeod announced the engagement of their daughter, Miss Mary Isabel MacLeod, to Lieut. Jack Glenn Croley. Lieut. Croley received a B.S. in M.E. in 1937.

Alumni Trained on "Reuben James"

The sinking of the Reuben James on October 31 was sad news to the Georgia Tech graduates who took training cruises on the ill-fated destroyer in 1933 and 1939. Although the cruises were made by the Atlanta Naval Reserve Unit, a number of the officers and enlisted men were either Tech graduates or Tech students.

In 1933 the reserve unit boarded the Reuben James and the Bainbridge and headed for Washington to see President Roosevelt inaugurated. But during the trip they "went through the worst storm you ever heard about" to hear Lt. Commander George Griffin tell it.

Capt. Jenkins Commands "Atlanta"

Captain S. P. Jenkins, U.S.N., former executive officer of the Navy unit at Georgia Tech, has been placed in command of the new ship, the U. S. S. Atlanta, which will go into service this year.

The U. S. S. Atlanta, one of the fast, new light cruisers was christened on Sept. 6 by Margaret Mitchell, of Atlanta, author of Gone With the Wind.

Weddings and Engagements—(Cont’d.)

MANN-STRICKLAND
Announcement was made by L. G. Jordan of the marriage of his daughter, Lois Carter Mann, to Harold Winton Strickland. The marriage ceremony was performed on December 24. Mr. Strickland graduated from Tech, where he received his degree in C.E.

MOBLEY-SPRATLIN
Recently Miss Emily Mobley became the bride of Ensign Dean Spratlin. Ensign Spratlin received a B.S. in M.E. from Tech in 1939, and is now stationed on the West Coast.

NIXON-GILBERT
Announcement of the engagement of Miss Eunice Adamson Nixon to Lieut. James Edward Gilbert has recently been made. Lieut. Gilbert received a B.S. in Ch.E. in 1938.

SHELTON-BURTON
Mrs. Oliver M. Shelton announces the marriage of her daughter, Mary Shelton, to Ensign Richard G. Burton on December 18. Ensign Burton was in the class of 1941.

PEPPER-HONIKER
On December 16, Miss Alma Ruth Pepper became the bride of Lieut. Robert A. Honiker. Lieut. Honiker was a member of the class of 1934.

SHELTON-BURTON
A January announcement of much interest is that made by Mrs. Oliver M. Shelton of the marriage of her daughter, Mary, to Ensign Richard G. Burton, U.S.N.R. Ensign Burton was graduated from Tech in June, 1941.

WOOD-NEWELL
Of cordial interest is the announcement of the engagement of Miss Betty Ione Wood to Mr. Robert Olin Newell. Mr. Newell received his B.S. degree in I.M. in 1941.

The foregoing is published for the information of our Alumni and students and the thousands of relatives and friends of both groups in each county of the State of Georgia and throughout the Nation.

The recalling of these guns was preceded by the Armory and the one inside, used for training purposes, were called in for active duty by the Navy Department.

These pieces, both four-inch guns, were manufactured in 1920 and have never been fired since then. According to Captain Wickham, U. S. N. They were sent to a Navy Yard, where they were mounted on a merchant vessel.

An extra session of the Legislature may be called during the present year, but that isn't definite, at all, as yet. The regular biennial session is not due to convene, we understand, until Monday, January 18, 1943.

Swim Squad Looks Strong

With the Varsity and Freshman swimming schedules still in the making, Tech's swimming teams look pretty good at a pre-season glance. The first Varsity swimming meet will probably be held here on January 31 with Kentucky. In the past Tech has usually defeated Kentucky in what have been good meets. Kentucky boasts several good sprinters, among whom is the Kentucky State champion. Kentucky lost some top-notch divers this past year by way of the sheepskin.

On the other hand, Tech can point with pride to Barrett, who is an exceptional breast stroker and who, it is thought, will probably break the existing college record for the breast stroke. Otley McCarty and Hugh Caldwell are adept back stroke divers upon whom Tech can rely.

ROTC Guns on Merchant Vessel

The Tech Naval R.O.T.C. lost two of its guns to the United States Navy. Both the display guns outside the Armory and the one inside, used for training purposes, were called in for active duty by the Navy Department.

These pieces, both four-inch guns, were manufactured in 1920 and have never been fired since their acceptance tests, according to Captain Wickham, U. S. N. They were sent to a Navy Yard, where they were mounted on a merchant vessel.

The recalling of these guns was preceded by the removal of the Army R.O.T.C. anti-aircraft gun last summer. This loss will be compensated in the early part of the year, at which time a modern three-inch anti-aircraft gun will arrive from The Citadel. The new weapon will be shared by Tech and The Citadel, each school keeping it half of the year.
**Recent Air Commissions**

As a fitting climax to their seven and one-half months training in the Army Air Corps, five Georgia Tech graduates were presented with the coveted silver wings and gold lieutenant bars at recent graduations at Randolph and Brooks Fields. The final phases of the Air Corps training program were completed by Harold C. Chandler, William L. Brown, Arthur E. Aenchbacher, Paul D. Cunningham, Jr., William L. Brown, Robert E. Beers and Henry L. Collier, Jr.

A letter-winning Engineer in football and track at Georgia Tech, Joseph S. Bartlett, former Asheville, N. C. man, is attempting to engineer a commission in the Air Corps for himself as an Aviation Cadet in training at Randolph Field, Texas.

**Eight More Complete Training**

According to news releases from the Public Relations Office, Advanced Flying School, Barksdale, La., the following men received their wings and commissions as second lieutenants: Thompson W. Armstrong, 22, son of Mr. and Mrs. J. W. Armstrong, of 749 Winton Avenue, Macon, Georgia. Mr. Armstrong attended Tech from 1937 until 1939. Horace A. Crosswell, 22, son of Mr. and Mrs. Gower Crosswell, 920 Adair Avenue, N. E., Atlanta, Ga. Mr. Crosswell attended Tech from 1937 until 1940.

From Randolph Field, Texas, was received the following information: Walter F. Keating, of Rossville, Ga., received his basic training and he completed it successfully. He went to Tech from 1936-37. Others to complete this training were Carlton L. Lee, of Atlanta, Ga., who went to Tech from 1938-41, and Howard D. Watkins, Jr., of Dunwoody, Ga., who was at Tech, 1936-37.

From Brooks Field Air Corps the following men received their commissions and wings: Stanley N. Simpson, of 543 Ashby Street, S. W., of Atlanta, who is the son of Mr. and Mrs. J. J. Simpson, of Atlanta. Alfred Q. Smith, Jr., of 66 The Prado, Atlanta, Ga., who is the son of Mr. and Mrs. A. Q. Smith, of Atlanta.

From Cochran Field, Georgia, was learned that Lt. Samuel R. Young, of College Park, Ga., son of Mr. and Mrs. S. R. Young, of College Park, Ga., received his promotion. He attended Tech and graduated in 1937.

**Positions Available**

Be sure to inform the alumni or personnel offices at Georgia Tech should you communicate with any of the concerns listed. Don't hesitate to register with us, either, for future openings.

**Positions Available—(Cont'd)**

- **Naval Research Laboratory**, Anacostia Station, Washington, D. C., A. Hoyt Taylor, Supt., Radio Division. (Electrical Engineers for general radio work.)
- **Office of Production Management**, Division of Civilian Supply, Washington, D. C., Norris B. Gaddess, Acting Executive Officer. (Industrial Engineers—management and production.)
- **The Oxford Company**, 638 Lee Street, S. W., Atlanta, Georgia, Max J. Friedman. (Textile engineer—salesman and engineering.)
- **The Parker Appliance Company**, 17325 Euclid Avenue, Cleveland, Ohio, W. R. Meredith, Personnel Dept. (Mechanical Engineer.)
- **Rotary Lift Company**, Memphis, Tennessee, John B. Harrison. (Electrical and Mechanical Engineers—drafting.)
- **Savannah Machine and Foundry Co.**, Shipbuilding Division, Box 590, Savannah, Georgia, W. L. Mingleford. (Mechanical and Electrical Engineers—drafting.)
- **Television Coal Iron and Railroad Company**, Birmingham, Alabama, Burton Cloud, Advertising Manager. (Industrial Management contact man and advertising layout man.)
- **J. A. Thornton**, 410 Bona Allen Building, Atlanta, Georgia, Mrs. Anderson. (Sales engineering and drafting—mechanical engineers.)
Will Burton Passes to Reward

Will Burton, Georgia Tech's respected and honored colored training room attendant for 37 years, died at his home in Atlanta on Saturday, December 20. Past and present athletes, alumni, faculty members, students, and other friends of the school in Atlanta and afar, were saddened at his death, and outspoken in his praise. A large representation of these groups with Coach Alexander and his staff, star athletes of today and former years, alumni board and faculty members, newspaper and other friends, were in attendance at the funeral, and sent many lovely floral offerings in tribute to him who was ever faithful, and who had done so much for so many in his loyal, untiring, modest, willing, and respectful way.

Burton started to work at Georgia Tech under Coach Heisman, and was about seventy years old at his death. He owned his home and reared and educated a family of good citizens. He traveled everywhere with Tech's football, track, and baseball teams and considered every athlete on the Tech squad as his personal hero, to be cared for faithfully and well.

Alumni in U. S. Service

(Continued from last issue)

Leo J. Drum, Jr., (B.S., M.E. ’38), one year active service.
James E. Haile, (M.E. ’38), Flying Cadet, Kelly Field, Tex.
Harwell S. Huggins, B.S. ’40, Camp Davis, N. C.
F/C Wm. F. Jenkins, Flying Cadet Det, Lowery Field, Denver, Colo.
Jack A. Johnson, Battery B, 214th Coast Artillery, Camp Stewart, Ga.
Max Milligan, (B.S. ’36), Coast Artillery School, Gr. 19, Fort Monroe, Va.
Bobby Pair, U.S.A. Air Corps.
Billy Paschal, U.S.A. Air Corps.
Lucius L. Pitts, (M.E. ’39), Fort Benning, Ga.
Ford L. Pritchett (B.S. ’36), camp 76th Coast Artillery, Fort Bragg, N. C.
Luther D. Wallis, (’22), Fort Benning, Ga.
Roane Beard, (Station not given.)

Ga. Tech Opens Basketball Season

Georgia Tech's basketball team opened the season against the University of South Carolina in Columbia, January 10, but the first college game on the home court is scheduled for January 15, with the University of Alabama.

Tech's prospects this season are bright, if the players stay in school. All of the better players of last season are back with the exception of Charlie Burroughs, and reinforcements of a promising nature are provided by such sophomores as Lance, Scruggs and Snyder.

The schedule:

January 10 South Carolina at Columbia
January 15 Alabama in Atlanta
January 17 Vanderbilt in Atlanta
January 20 Kentucky in Atlanta
January 24 Mercer in Atlanta
January 31 Auburn in Atlanta
February 3 Auburn at Auburn
February 6 L.S.U. at Baton Rouge
February 7 Tulane at New Orleans
February 11 Home game pending
February 14 Vanderbilt at Nashville
February 16 Kentucky at Lexington
February 19 Georgia in Atlanta
February 21 Georgia at Athens
February 27-28 Tournament at Louisville
By taking advantage of every break offered, the Crimson Tide of Alabama romped over the Tech Yellow Jackets on Saturday, November 15, by a score of 20 to 0, before a capacity crowd of 24,000, at Legion Field in Birmingham, Ala. This game kept Alabama in the running for their Cotton Bowl bid.

The Tide recovered a punt fumbled by Johnny Bosch in the first quarter, and put on a 33 yard drive that cut the Engineers' stout line into ribbons in 13 terrific smashes. It was Howard Hughes, substitute halfback for Jimmy Nelson, who skirted end for the touchdown as the second quarter opened. Guard Hecht missed converting.

Thereafter, Alabama could not generate a sustained march. They did not have to for the redoubtable Nelson, dancing like a figure skater, came back 69 yards with a Tech punt in his hands early in the third period for the game-breaking touchdown. Time and again he seemed stopped but he dodged behind his agile blockers or twisted out of inept tacklers to escape. Hecht kicked this extra point.

To sew up the game, Hughes, the able replacement for Nelson, lugged an Engineer punt 71 yards—a zig-zag journey marked by deadly blocking and futile tackling—to the Tech 4, where Bosch cleverly foiled two blockers and slowed him down for Hal Lamb to make the tackle. On the first play of the fourth quarter, Nelson came in to pitch a short pass to halfback Dave Brown, who dodged a Tech tackler with a flip of the hip and trotted over for a touchdown. Hecht converted and the count was 20 to 0.

As usual, Tech outrushed Alabama 10 first downs to 7. They outgained the Tide slightly—78 yards to 76 yards on the ground, but trailed in forward passing—57 to 75. It was the yardage of punts returned—197, which sewed up the game for the Tide.

**Bullpups Defeat Baby Jackets**

Seven hundred badly disappointed Tech Freshmen walked out of Grant Field, sadly fingerling their rat caps after the Georgia Bullpups vanquished the Baby Jackets 29-13, on Thursday, November 27.

The favored Baby Jackets could not stop the terrific speed of Georgia and their versatile backs—Trippi, Vickery and Evans. Georgia's forward wall held Prokop, Luck and Berman down to just two touchdowns.

Trippi, without a doubt, played the most colorful game of any player on the field. He kicked the field goal which put the Bullpups in the lead, and ran, punted and passed the ball like the fictional Boley Bolencieczw of Clayton. Vickery played second fiddle only to Trippi. Plunging through the Tech forward wall and tossing beautiful passes, he was directly responsible for two of Georgia's four touchdowns.

Jake Cox of Tech, in the second quarter, kicked a beautiful 57-yard punt which rolled out on the Georgia one inch line.

Berman, Prokop and Luck all played beautiful games for the Tech Freshmen, but the Georgia team was just too fast.

**Florida 14—Tech 7**

The desperate, hard fighting Florida Gators left the Tech Yellow Jackets on the small end of a 14 to 7 score, while 15,000 spectators jammed the pretty sunken bowl of Florida Field, at Gainesville, Fla., Saturday, November 22.

All the scoring was done in the second half, the opening pair of periods being productive only of a bitterly fought melee, with Tech mostly on the defensive, and featured by a curious exchange of pass interceptions, of which Mr. Bob Ripley might well take note.

Once again Georgia Tech rang up more first downs and gained more yards from the snap. While Davey Eldredge was matching Tommy Harrison for the individual yardage at 72 apiece and Bobby Dodd was out-yarding Fondren Mitchell in second place, 32 to 27.

The Gators got away to a late lead as the second half opened, and without any delay. Lane kicked off to McHugh in the Tech end zone and the speedy backfielder sprinted out to the Tech 28, where he was tackled hard and let the ball get away from him. Forest Ferguson recovering for Florida. Harrison went off tackle for a couple of yards and then touched off the prize play of a spectacular gain by shooting a flat pass to Ferguson, who was promptly surrounded, spun once and fired a lateral to Hull, Gator tackle, who in turn spun out of a desperate tackle and over the goal line. Paul Eller kicked the point and it was Florida 7, Tech 0 and only a minute and a half of the second half gone.

A little later Harrison, who was playing a heroic role all afternoon, slung a neat pass to Cahill, who was finally brought down by McHugh and Eldredge on the Tech 5. The score was set up. Harrison slashed in for 4 yards and Mack took it over. Eller again converted.

Without delay the Jackets showed their stuff, however. The kickoff went out of bounds and Tech started from her own 40. By the terrific line smashes of Dod, Eldredge and McHugh the ball was moved, in a few minutes, down to the one-yard line. On the next play it was a touchdown, but the Tech backfield was in motion and the ball was back at the 6-yard line. Plaster hit tackle for one yard and Eldredge for two more, and then Plaster went headlong over guard for the score, and followed by kicking the point, and the score was now Florida 14 and Tech 7, with 10 minutes remaining to play. Tech was putting up a last minute rally, but due to brilliant pass interceptions they were unable to make the tally.

**Tech-California Game Cancelled**

Tech officials recently issued the following statement:

"The game between the University of California and Georgia Tech on December 27 has been cancelled by mutual agreement. "Many of the boys will soon be in the services. Under present conditions, the boys and their families feel it wise for them to spend this Christmas at home."

Mr. Kenneth Priestley, general manager of the Associated Students of the University of California, expressed his keen regret and hope that conditions will soon make possible resumption of a most pleasant relationship."
Georgia Tech Alumni in Army and Navy

January-February, 1942  THE GEORGIA TECH ALUMNUS  55

It is considered important again to state that the alumni survey, covering those who are now on active duty, is being assiduously continued and the assistance of all alumni and other friends, particularly those in the service, is urgently requested for the information on all Georgia Tech men in the service on whom we have no record to date, or on whom our present records are incomplete or incorrect.

Including the 1941 class, some 1,550 reserve commissions have been granted at Georgia Tech, since the granting of the department's first army reserve commissions in 1920.

402 Naval R.O.T.C. commissions have been granted since 1930, when reserve commissions in the Navy were first granted at Tech. This does not take in those who have received permanent commissions in the Navy supply corps and the Marine corps, nor the eight Navy seniors this year who were named to the Navy supply corps for permanent commissions.

In all, there are 1,981 and more who have earned their reserve commissions in the excellent Army and Navy R.O.T.C. units at Georgia Tech, and it is safe to assume that all of these physically fit, are now in their respective branches of the service.

The foregoing total of 1,982 and more doesn't complete the figures by any means for, as may readily be seen, large data are not on hand on the senior list published above, and those yet to be published were not in the R.O.T.C. branches, nor in the full-time reserve courses, while at Georgia Tech.

A partial roll, however, of those now in the service is continued as follows:

**Army**

Colonel R. H. Hutcheson, (Ch.E. '18), Douglasville, Ga.
Lieutenant Colonel C. J. Fielder, 1580th Service Unit, Houston, Ky.
Lieutenant Colonel A. B. Pitts, Commanding Officer, Gulf Coast Air Training Center, Enid, Oklahoma.
Major Ed. T. Newton, (E.E. '16), Air Base Signal Officer, Langley Field, Va.
Major Elmo L. Patton, (Ch.E. '27), Asst. Ordnance Officer of Armored Force, Fort Knox, Ky.
Captain J. T. Baggelwell, Jr., C.A. (A.A.), Camp Davis, N. C.
Captain Burns C. Cox, Ordnance Dep't, Hdq. 5th Division, Fort Custer, Mich.
Captain Ralph N. Read, Penn Central Air Lines, Washington Air Port, Washington, D. C.

A/C George Center, U.S.N.A.S., Corpus Christi, Tex.
A/C Homer V. Cook, U.S.N.A.S., Corpus Christi, Tex.
It Worked in Reverse

As the Yellow Jackets bowed to the Bulldogs, the Sigma Chis were proclaimed the champion decorators of Georgia Tech.

Their exhibit showed a bulldog being cut by a buzz saw and a banner with words, "Bulldogs will get it in the end."

The Pi Kappa Phis were awarded second prize for their decoration which showed a mechanical yellow jacket stinging a bulldog again and again.

Third prize went to the Alpha Tau Omega fraternity with a scene depicting a bandaged bulldog in a dog pound with a sign reading, "Jackets Pound Bulldogs."

Many observers, well versed in gridiron activities, considered the Tech line the best they had seen all season. It certainly showed no signs of weakness against Georgia. Harry Arthur and George Webb kept those fleet-footed Georgia boys well confined between the Engineers' flanks. On defense, Captain Sanders set a high mark for his teammates to shoot at. Wax Jordan won high acclaim for his performance at guard from both teams.

Because of the dogged struggle, these men put up from the starting whistle to final gun, Frankie Sinkwich failed to break the yardage record established by Whizzer White. In this game, Sinkwich gained only 64 yards over the turf, which is a new low for the Ohio boy this season. The tightening of ground defense, however, allowed Davis, Dudish, and Conger to make sizeable gains on the receiving end of Sinkwich's passes.

Georgia 21—Tech 0

The football playing Bulldogs of Athens visited Grant Field Saturday, November 29, and before they left they had broken through a desperate field of Yellow Jackets and had three times crossed the double stripe. The Engineers offered considerable resistance to the visiting gridmen. However, it was not until Frankie Sinkwich gave wings to the ball that he and his teammates could produce a score.

Early in the second quarter Poschner went down on his knees in the end zone to complete the first scoring aerial. Dick Conger towered over the heads of Tech's backfield to grab another flip to the double stripe marker, and Lamar Davis completed another end the scoring for the day. Leo Costa, the place-kicking specialist, relieved Sinkwich to make the after-touchdown conversions.

A high spirited Tech team wore those blue jerseys to win and Georgia can truly say they had met the best Tech had to offer.

During the first quarter of the contest it was very much anybody's ball game. Tech had outgained the visitors in first downs and in rushing. Georgia had returned with more than ample yardage through the air. In the waning minutes of the second quarter, however, the Red and Black machine turned loose and the Engineers were able to ineffectively threaten the Bulldog defended goal but twice more.

The tightening of ground defense, however, allowed Davis, Dudish, and Conger to make sizeable gains on the receiving end of Sinkwich's passes.

Naval ROTC Commandant—(Cont'd.)

Captain Babcock has held seven commands in home and foreign waters and he has decorations for the Spanish War campaign, the battle of Santiago, the Mexican campaign, and the first World War, in addition to the Philippine insurrection. He has received the Order of the British Empire and Cross of the French Legion of Honor.

The new commandant has lived in California since his retirement in 1937.

**TO BE CONTINUED IN THE NEXT ISSUE**
"Service to the nation in peace and war"

Following the last World War a bronze and marble group was placed in the lobby of the American Telephone and Telegraph Company building in New York. On it are inscribed these words, "Service to the nation in peace and war."

They are more than words. They are the very spirit of the entire Bell System organization. In these stirring days, we pledge ourselves again to the service of the nation... so that "Government of the people, by the people, for the people, shall not perish from the earth."

Bell Telephone System
Refresh yourself

Pause at the familiar red cooler for ice-cold Coca-Cola. Its life, sparkle and delicious taste will give you the real meaning of refreshment.
