"It offered independence, security, unlimited earning possibilities"

As an undergraduate at the University of Michigan during the early years of the war, I was not too immediately concerned about a career. I knew that Uncle Sam would soon solve that problem for me.

However, I had always been favorably inclined toward life insurance, for my Dad had been associated with New England Mutual for almost 20 years. And his satisfaction with his career has been evident in his everyday life and in the home he has provided for our family.

So when the Army sent me to a training camp near Boston, I looked up some of the men in New England Mutual's home office. At the same time, I met the girl and married her, and naturally I began to think more definitely about a post-Army career. Together we cataloged the advantages and disadvantages of many different careers.

But each time we came back to life insurance. It offered—in a way no other career seemed to—independence, security, public service, and unlimited earning possibilities. As a result of these deliberations, I enrolled in New England Mutual's basic training course while I was still in the Army Air Corps.

After the war—in April of 1946 to be exact—I joined the New England Mutual agency in Denver. In addition to extensive training here in Denver, I have had two courses at the home office in Boston. I have also attended several inspiring regional meetings and have enjoyed and profited from my 4-year association with this company.

I have made a much better living than would have been possible in a salaried job, and I have saved a substantial fund for future needs. At the present time, I am spending half my time working with the new men in our agency, helping them find the same satisfactions that I have enjoyed as a career life underwriter.

Robert N. Samuels

Recent graduates of our Home Office training course, although new to the life insurance business, earn average first-year commissions of $3600—which, with renewal commissions added, brings the total yearly income average to $5700. From here, incomes rise in direct proportion to each individual's ability and industry.

If you'd like information about a career that gives you a business of your own, with no slow climb up a seniority ladder and no ceiling on earnings, write Mr. H. C. Chaney, Director of Agencies, 501 Boylston Street, Boston 17, Mass.

G. NOLAN BEARDEN, '29, Los Angeles
CARL S. INGLE, '33, Jacksonville
C. GRAHAM HURST, '48, Savannah

They can give you expert counsel on "Living Insurance"—a uniquely liberal and flexible life insurance program tailored to fit your family's needs.
We’re trying to catch up with costs

Increases in the price you pay for telephone service are far behind the increases in wages and other costs

The price of telephone service has gone up much less than the price of almost everything else you buy. It has gone up far less than the cost of providing the service. Take wages, which are the biggest item, as an example.

Rates Up Far Less Than Wages — The increases granted so far in rates for telephone service are only about half the increases of $728,000,000 in telephone wages during the ten-year period through 1949.

In addition to wages, the costs of materials and almost everything else used in furnishing telephone service have risen substantially.

These things mean higher operating costs. They also mean higher construction costs and hence increase the amount of investment for each new telephone that is added.

The Need for Adequate Rates — These are some of the reasons why telephone rate increases are so necessary. The Bell Telephone Companies, however, have not asked nor do they intend to ask for more than is needed to keep on giving you good telephone service — service that improves and expands and grows in its value to you.

Only a Penny or so a Call — Rate increases so far, plus those now requested, average only a penny or so per call — a small amount compared to the value, security and convenience of telephone service.
IN MEMORIAM

With the passing of Georgia Tech's beloved coach and great character builder, William Anderson Alexander, on Sunday, April 23, the college has reached a culmination, as it were, of very grievous bereavements. In this issue, alone, of the Alumnus the deaths of other very prominent alumni are also recorded, and our hearts are sad with it all.

During relatively recent years and in past months, we have been additionally distressed at the deaths of many, too many, more of our fine, en-deared and brilliant deans and professors, and the grand young sons and other alumni of Georgia Tech, in World Wars I and II. And now, the death of Coach Alex.

Great is our grief and our losses are irreparable.

Commencement Exercises And Alumni Reception

At the conclusion of the commencement exercises on Monday, June 12, the annual luncheon reception of the Georgia Tech Alumni Association, in honor of the June, '50, graduates, will be held at Britain Dining Hall.

An interesting innovation this year will be the presentation of "wedlock diplomas" during the reception, by President Van Leer to the wives, of more than a year, of the married graduates.

All members of the graduating class, their families and dates, alumni, faculty, staff personnel and their respective ladies are cordially invited to attend the luncheon reception as guests of the Alumni Association. Please call the alumni office, Vernon 8540, for reservations.

Commencement Speaker

As previously announced, General Lucius Clay, U.S.A., retired, and now Chairman of the Board of the International Can Co., will give the principal address at the Commencement Exercises, Monday morning, June 12, on Grant Field at Georgia Tech. General Clay needs no introduction to any of the informed populace, throughout the entire world. His brilliant war and diplomatic achievements in the U. S. Army and in Berlin, among other historically important national and international historical events, will be recorded throughout the ages.

The distinguished alumni award presentation and the induction of graduates into the Alumni Association will follow the conferring of degrees, at the close of the exercises.
Death of Coach Alexander Nationally Mourned

"For when the One Great Scorer comes
To write against your name,
He marks — not that you won or lost
— But how you played the game."

— GRANTLAND RICE

Georgia Tech students, faculty members, former athletes and other alumni, the athletic staff, the sports world and a host of other friends and associates were shocked and deeply grieved at the passing of Coach William A. Alexander on Sunday morning, April 23.

Despite failing health over the past few years, Coach Alex carried on his duties as Athletic Director at Georgia Tech until the day of his death. He was indisposed for a few days, about a week prior to his passing, but he was up and about and attended a cabinet meeting on April 19, and was actively planning the erection of a large and greatly needed athletic building on the campus. He was in his office throughout the week of April 17-22 and attended a full spring football practice game from which he returned home in good spirits and chatted with members of his family before going to sleep—never to awaken again here on earth.

Affection, Esteem and Honors

Throughout the deep and continued grief of all, there is a real comfort to know that great love, affection and esteem, and the highest of awards and honors were bestowed upon Coach Alex during his only too short but so deservedly glorious span of life.

Ever unassuming, he took his many honors with becoming modesty; and, in fact, it was characteristic of him to pass credit on to his teams, staff members and other associates.

Distinguished Career

Born at Mud River, Kentucky on June 6, 1889, almost sixty-one years ago, Coach Alex entered Tech as a student in 1907. He played on the Yellow Jacket gridiron squads in 1907, 1908, and 1909 and served as a student assistant coach in 1910. After receiving his civil engineering degree he taught in the mathematics department and was named assistant football coach under the renowned John W. Heisman in 1912. He served overseas during the first World War and came back in 1919 as assistant coach.

In 1920, Heisman became head coach at the University of Pennsylvania and Coach Alex succeeded him in that capacity at Ga. Tech, so serving until 1945, when he became Athletic Director. Coach Bob Dodd succeeded Coach Alex at that time as head football coach at Tech.

(Continued next page)
ALEXANDER MOURNED NATIONALLY (Cont'd)

During his life Coach Alex was accorded virtually every honor available to a man of his chosen profession. He was the first coach to put his football team in four major post season bowl games. His Jackets participated in the Rose Bowl game of 1929, the Orange Bowl tilt of 1940, the Cotton Bowl encounter of 1943 and the Sugar Bowl contest of 1944.

For a number of years Coach Alex served on the football rules committee of the NCAA and was responsible for many of the progressive changes and additions to the rules. In 1932 he, Bob Zuppke and Alonzo Stagg revised the rules in an attempt to make the game safer. The result of their efforts was the outlawing of the flying block, the flying tackle and similar maneuvers.

In a poll conducted by The New York World-Telegram in 1942, he was named as “Coach of the Year.” That award is based on “skill as a football teacher, reputation for sportsmanship, achievement in competition, influence for the welfare of football, and ideal relationship to his players.”

In 1946, Coach Alex was awarded the Stagg Award which is given in honor of the famous Alonzo Stagg. The award is made annually by the American Coaches Association of which Coach Alex was a past president. It goes to the individual who “has done the most worthy job towards the advancement of the best interests of football.”

He was selected in 1948 to receive the annual award of the National Touchdown Club of New York City. This trophy is given annually to the person who has done the most for football over a long period of time. In the fall of 1942, the Atlanta Chamber of Commerce presented him with its “Certificate of Achievement” as the first citizen of the city. Just prior to this, during the June Commencement, in 1942, Coach Alex received the Georgia Tech Alumni Distinguished Service Award, presented by the then President of Georgia Tech, Dr. M. L. Brittian, now President-Emeritus.

A life-size bust of Coach Alexander, excellently done in bronze by Georgia Tech's nationally prominent sculptor, J. H. “Judy” Harris, Arch., ’28, was presented to Georgia Tech two years ago at the Alumni-Senior Anak Banquet. The bust has a place of honor in the Georgia Tech Athletic Association Office Building on the campus.

A Great Administrator and Character Builder

Coach Alex was truly a great man in many grand ways. First of all and to his everlasting glory, he built good character on the athletic field and off. He developed intramural athletics at Georgia Tech to such an extent that all students in the college, including the physically handicapped, were provided with well organized and competently directed physical training courses.

When he became head coach, the only permanent seating at Grant Field was provided by the old West Stand. In 1926, the stands in the east and the south were built; and in 1947, the modern new West Stands were constructed at a cost of $634,000. He planned, directed and obtained the funds for Georgia Tech’s entire and superb athletic plant which includes Grant Field Stadium with its three large buildings on the northern boundary; and excellent baseball fields, basketball, tennis and badminton courts, softball fields, modern swimming pool, one of the best tracks in the country and probably the best press boxes in the nation, up-to-date dressing rooms, indoor rifle range, gymnasium, business offices and so on.

The Georgia Tech athletic plant extends from North Avenue, between Techwood and Fowler, and on out to Tenth Street on the north; nine solid blocks. Tech’s Rose Bowl Field on Fifth Street is still another monument to Coach Alex. His developments, in all, have produced more than $4,000,000 worth of real estate and buildings, without cost to the taxpayers of the State of Georgia.

His comprehensive and practical plans for the future were well outlined, and drawings are about complete for a large, athletic building for intercollegiate and intramural sports; and, in ever deserving tribute to him, it has been announced that the massive structure will be, the ALEXANDER MEMORIAL BUILDING.

Last Rites

Georgia Tech was closed on the day of Coach Alexander’s funeral; and the flag of the college was at half-mast, in his memory, from the time of his death throughout his final day on earth.

Universities and colleges were represented at the funeral services by their head coaches and administrative officials. The presidents and other officers of the Georgia Tech National Alumni Association, Alumni Foundation, Georgia Tech clubs, Touchdown and civic clubs, City of Atlanta, State of Georgia, and many other organizations were among the hundreds that were present to pay their humble respects to Coach Alex, along with a host of his former players, faculty members, students and other devoted friends.

The active pallbearers were Bobby Dodd, George Griffin, Roy Mundorff, J. T. Doonan, C. L. Emerson, Dan I. MacIntyre, Ben W. Sinclair, and Dr.

hundreds of thousands of dollars. He guided the Athletic Association through shaky financial years and, when the payoff finally came through the turnstiles, he channeled the funds into the building of a fine athletic plant—stadium, swimming pool, gymnasium, tennis courts. Then he used these facilities not just for inter-collegiate athletics, but also for the operation of a fine intramural physical program. Such concrete and enduring achievements stand as testimony to his canny, vigorous business ability.

But, Coach Alexander did not live to see fulfilled his ultimate goal—a general athletic building and field house at Tech, worthy of the school and adequate for its needs. He had worked toward this goal for years. It was his dream. There just hadn’t been enough money to finance such a building, and Alex had vigorously resisted any makeshift. He was actively working on the project right up to the day of his death.

Now, however, the Ga. Tech Athletic Association has announced that it is going to make Alex’s dream come true. The Athletic Association is going to conduct a campaign to raise the needed money to build the structure that was planned by Alex. This action of the Athletic Association has received the endorsement of the Ga. Tech Alumni Association.

Of course it is to be a memorial to Bill Alexander. For, only as a tribute and memorial to Alex could such a campaign prove successful. It gives an opportunity to many, many people to express appreciation and love for him in a graceful, helpful way—a way that he would like. A memorial as a memorial would have no place in Alex’s thinking. But a memorial with a fine purpose is fitting to the man it honors. Yes, Alex is still working for Tech! It’s “the old man” who after all, is going to finally raise the money and get the building he wanted Tech to have!}

COACH ALEXANDER

Lamont Henry.

Honorary pallbearers were Colonel Blake Van Leer, Edwin Camp, George Gardner, Charles Griffin, Tom Slate, Dr. D. M. Smith, Elmer F. Cox, Coaches Ray Ellis, Ray Graves, Joe Pittard, Roy McArthur and Norris Dean.

The family survivors are his wife, the former Mrs. Marie MacIntyre Scott; daughters, Mrs. Charles Hurst, Atlanta; Mrs. Southworth Bryan, Jefferson, and Miss Marie Scott, Atlanta; son, Bucher Scott; sister, Mrs. Norbert Heerman, Woodstock, N. Y., and four grandchildren.
ALEXANDER MEMORIAL BUILDING PLANNED

Dodd, Athletic Director — Mundorff, Physical Training Head

During its April 25 meeting, the Georgia Tech Athletic Board authorized the pursuance of plans for the construction of a $2,000,000 physical training and general athletic center, to be dedicated in memory of Coach Alexander and to be named the Alexander Memorial Building.

In addition, the Board appointed Head Football Coach Robert E. Lee Dodd as the new Director of Athletics, and named Coach Roy Mundorff to head Georgia Tech's large Physical Training Department.

No definite financing plans have been formulated, as yet, for the memorial; however, a very active committee was appointed to begin work immediately for the prompt development of the project. The committee is comprised of Vice-President C. L. Emerson, chairman; John O. Chiles, R. B. Wilby, J. J. Westbrook, alumni members of the Athletic Board; Dean Phil B. Narmore, Professor W. C. Whitley, Charles M. Griffin, Business Mgr., and Estes Mann, student member of the Athletic Association.

Preliminary drawings have already been made for the building which will have a total seating capacity of 18,000 and a like accommodation for 10,000 at basketball games. The memorial structure will be located on the northwest corner of Fifth and Fowler Streets, on the site of the present Rose Bowl Field.

Letters and contributions have been coming in to President Van Leer and to offices of other officials on the campus, in contemplation of the memorial for Coach Alex. The funds will be kept in trust for the building project.

President Van Leer stated that the proposed building would be the second largest of its kind in the country, surpassed in size by Madison Square Garden only, in New York City.

Appointments of Mundorff and Dodd

The Athletic Board recommended to the faculty authorities that Roy Mundorff be made head of the Physical Training Department which is a part of the school system and not under the direction of the Athletic Association. The appointment must be approved by the Board of Regents.

Bob Dodd's appointment as Athletic Director is a fitting reward to the popular head football coach. Bob was born in Galax, Va., forty-three years ago. He married the former Miss Alice Davis in 1933 and they have two children, Linda and Bobby.

After finishing high school in Kingsport, Tenn., Dodd attended the University of Tennessee and began his remarkable college football career under General Bob Neyland. He was All-America quarterback at Tennessee in 1930; and in 1931 he came to Georgia Tech to be backfield coach under Coach Alexander.

When Coach Alex resigned as head football coach in February, 1945, to become athletic director and head of the physical education program at Georgia Tech, Bob Dodd succeeded him. Since the fall of 1945, Dodd's football teams have won 37 games and lost 15.
RESOLUTIONS

WILLIAM ANDERSON ALEXANDER

June 6, 1889 – April 23, 1950

BE IT RESOLVED, by the Trustees of the National Alumni Association of the Georgia Institute of Technology,
That its deep sympathy be expressed to the bereaved family of

WILLIAM ANDERSON ALEXANDER

That a copy of this Resolution be conveyed to the family and that it be inscribed on the permanent minutes of the Georgia Tech National Alumni Association.

During his days as a student and since his graduation from Georgia Tech in 1912, his life was devoted to the services of his college and nation, and to the many whom he taught and directed. He was a true, just and beloved builder of good and worthy men. His passing is a grievous loss to them, his friends and associates, and the Georgia Institute of Technology, all of whom honored him most highly, as he supremely merited. He wore his distinguished awards with becoming modesty, as he thought not of himself but always of others.

His memory will be cherished through the ages. His noble and exemplary life will stand forever as a glorious heritage to which future generations may humbly aspire.

HE FOUGHT THE GOOD FIGHT, HE KEPT THE FAITH

RESOLUTIONS

IN MEMORIAM

WILLIAM ANDERSON ALEXANDER

June 6, 1889 – April 23, 1950

BE IT RESOLVED by the Trustees of the Georgia Tech Alumni Foundation, in meeting assembled, that this expression of sympathy be conveyed to the family of

WILLIAM ANDERSON ALEXANDER

a true son of Georgia Tech, its most loyal supporter, and its most alert and efficient benefactor for forty years.

Modesty, honesty, and integrity are words that might be coined as a result of the life he lived. His constant and never-ending desire to help the youth of our Southland will always stand as a monument to his memory. His influence will always be felt by the thousands of boys who have benefited by their association with him; their lives, patterned according to the principles in which he so firmly believed, will never let his name die.

For a life dedicated to service and for a job exceedingly well done, we offer our humble thanks.

EDITORIAL TRIBUTES TO COACH ALEX

Editors, sports and feature writers and columnists in Atlanta and throughout the nation, were as one in their grand and warm tributes to Coach Alexander, and their exceptional writings will ever remain as treasured memorials in his honor at Georgia Tech.

GRANTLAND RICE'S EDITORIAL

From all of the quite superior articles, we are taking the liberty of quoting the one from the world's dean of sports writers, Grantland Rice. In his columns and by special assignment to the Atlanta Constitution on April 24, he wrote:

"Fine Person, Great Coach"

"In the death of Bill Alexander, football, as well as sports in general, lost one of its finest people and one of its greatest leaders. Thousands have lost a friend who will not be forgotten."

"Bill Alexander, during his career at Georgia Tech, was something more than a brilliant football coach and a smart athletic director. He was a true philosopher who understood the strength and weakness of his fellow man. He wasted little time in vague theories and no one could cut his way through a mass of red tape as rapidly as Bill could in searching for the right answer.

"I have known Bill Alexander for over 40 years, since he first came up as John Heisman's assistant and later took over the main job when Coach Heisman left."

"Alexander had never been much of a football player. He never made the Georgia Tech team. But he had such a keen grip on the game's strategy and knew so well how to get the best from his material that he was an immediate success. Alex sensed the fact that Georgia Tech would be shy on power and bulk. So he turned to speed and smartness, where his teams were always dangerous with a new type of football along the lines of a baffling attack."

"I don't know of any man in the game who had the knack of making friends as Alexander did. He had a personality which appealed to every section of the country because it was warm with human kindness and was also packed with wit and wisdom. He was an old-fashioned type of fellow when he was a young coach, and certainly he worried less about the outcome of a game than any football coach I ever knew. He did his job thoroughly and then let nature take its course."

"Football with its coaches' meetings and its many councils will miss Bill Alexander more than any other man I know. There will be nothing that can quite take the place of his firm handgrasp, his quick smile and the humor that never left him, no matter what the breaks of the game."
Alfred D. Kennedy, Foundation Trustee, Died April 10

Alfred D. Kennedy, Sr., E.E., 1903, prominent Atlanta business leader and a Trustee of the Georgia Tech Alumni Foundation, died at a private hospital in Atlanta on April 10, 1950. He was 69 years of age, and had been seriously ill from time to time, though not infirm at all, over the past few years.

Mr. Kennedy was born in Camden, S. C., January 23, 1911. He attended the University of South Carolina for a time and then came to Georgia Tech, graduating in 1903 with the degree of B.S. in Electrical Engineering. While at Tech he was a member of the A.T.O. Fraternity, serving his Chapter as President. He was Vice-President of the class of 1902 and manager of the Georgia Tech football team of 1903. One of the original promoters of the Technical Institute of Georgia Tech at Chamblee, he was also a member of the Board of Trustees of the Georgia Tech Alumni Foundation at his death. He was the first manager of the Georgia Tech Student Supply Book Department. This position helped him to meet part of his college expenses.

On leaving Tech, he was affiliated with the Southern Cotton Oil Company until 1911, at which time he accepted a position with the American Machine and Manufacturing Company as Vice-President and Manager. While with the American Machine and Manufacturing Company he not only traveled in the United States in the interest of the Oil Mill Industry, but also made a trip to the Orient.

In 1922, Mr. Kennedy and Mr. Joseph Davidson formed the present Davidson-Kennedy Company, which he successfully operated until his death.

Mr. Kennedy and Mr. Davidson held numerous patents on Hydraulic Oil Mill machinery which were developed after they formed the Davidson-Kennedy Company. During World War I he manufactured 55 mm shells, and Liberty ship parts during World War II, a very vital factor in both wars.

For many years, Mr. Kennedy served as a Senior Warden of St. Luke’s Episcopal church. He was also a Rotarian and a member of the Capital City and Piedmont Driving Clubs.

Known throughout Southeastern engineering circles, Mr. Kennedy was given special recognition in Who’s Who in Engineering for many years. He was a member of the American Society of Mechanical Engineers, the National Association of Manufacturers and during World War II served on the small Business Advisory Committee of the War Production Board.

Surviving are his wife; two sons, Alfred D. Kennedy, Jr., and A. Thornton Kennedy; a brother, Henry B. Kennedy, of Atlanta; a sister, Mrs. Edgmont von Treskow, of Camden, S. C., and three grandchildren, Misses Virginia Hightower and Edna Thornton Kennedy and Alfred Kennedy III.

ALFRED DOBY KENNEDY
January 23, 1881 - April 10, 1950

BE IT RESOLVED, by the Board of Trustees of the Georgia Tech Alumni Foundation, in meeting assembled:

That its deep sympathy be expressed to the bereaved family of ALFRED DOBY KENNEDY

That a copy of this Resolution be conveyed to his family, and that it be inscribed on the permanent minutes of the Foundation.

He was a loyal and valued friend. As an alumnus, as a former member of the Executive Board of the National Alumni Association, as a Trustee of the Alumni Foundation, and in his individual capacity he ably and unselfishly served the cause of the Georgia Institute of Technology.

His business achievements, untiring civic activities and genuine graciousness meant much to all with whom he came in contact and helped to make his city, state, and nation great.

His memory will always be cherished by us; and his exemplary life will ever stand as a mark of eminence for the guidance of the younger generations of Georgia Tech, and all others, who aspire to noble ideals.

ANNUAL DEDICATED TO DEAN AJAX

At the Georgia Tech Publications Banquet on the night of May 12, the editorial staff of the Blue Print announced that the 1950 issue of the year-book was dedicated to "an outstanding man at Tech." The citation page carries the following, highly merited dedication:

"We dedicate with deep gratitude and sincere respect this, the forty-third volume of the Blue Print, to Fred Wesley Ajax, B.A., M.A., Associate Dean of Students, who as Coordinator of Veterans Affairs and Placement Officer has devoted his energies and efforts in an untiring manner to the students and to the advancement of the Georgia Institute of Technology. We give credit where credit is due."

Dean Ajax was then given a special advance copy of the 1950 Blue Print, with his name engraved in gold on the cover. He stated in accepting the volume that the members of the Blue Print staff had made all the preparations, even to getting his picture for the dedication pages, without his having any idea that such was their intention. In closing he said, "I am sincerely grateful to Hank McCamish and the staff, and I sit down blushing to my toes!"

Dean Griffin, after remarking, "For me, this has been a right peaceful year," went on to say, "I want to commend the Blue Print staff for dedicating this issue to Dean Ajax. I don't know of anybody who works harder for the benefit of Georgia Tech."
NATION-WIDE EXPRESSIONS LAUD COACH ALEXANDER

Literally, hundreds of heartfelt tributes and messages of condolence from all over the world were received at the home of Coach Alexander on the day of his death. Many more expressions were also conveyed to his family, through the Athletic Department and the Administrative Offices of Georgia Tech; and messages continue to arrive from even the farthest points of the earth.

Officials Pay Tribute to Coach Alex

Officials of Georgia Tech were among the very first to pay tribute to their great coach and administrator.

President Van Leer of the college, stated that:

"Bill Alexander was one of Georgia Tech's all-time greats.

"All over the world, men of Georgia Tech will be grieved by the news of his death.

"Although he was best known for his athletic deeds, his brilliant mind and determination would have made him a success in any endeavor he might have undertaken.

"Few people know that he once was an instructor in mathematics at Tech, yet he was one of the best we ever had.

"The great thing about Alex was his character. He was always just, fair and right. He will be thoroughly missed at Tech but his memory will live on forever."

Pres. Emeritus M. L. Brittain said:

"Coach Alexander was a great pillar of support to me in my 22 years as president of Georgia Tech. An upright and straightforward man, he was at all times in favor of a high standard of scholarship for athletes. Georgia Tech has lost one of its finest men in the sturdy, fine character he manifested while here.

"He was an asset to the school, to the State of Georgia and to the entire nation. People beyond the confines of our State listened to him with respect and admiration.

"I found him a stern, but at heart a lovable, man who was always engaged in doing good deeds for his fellow men. All of us will miss him and his wise counsel."

Vice-President Cherry L. Emerson, a schoolmate of Coach Alex, stated:

"In the passing of W. A. Alexander, Georgia Tech has suffered an irreparable loss. For 40 years his fine influence has been exerted for the good of the athletic program of this institution, first as a player, then as an assistant coach, afterwards for 25 years as head coach and finally as athletic director.

"Not only were the teams representing this institution successful in inter-collegiate competition, but largely due to his influence and example, they upheld a high gentlemanly conduct, both on and off the field. He initiated a widespread program of intra-mural sports for those students who did not possess the physique for varsity play.

"This has broadened under his direction until now there is a physical training program for every student.

"On many occasions, to my knowledge, he sacrificed his own personal advantage for the good of the school, not only for the athletic program, but for the institution as a whole. His own life and character set a high standard and shining example for his players, particularly, and for the institution.

"He exemplified those splendid, manly virtues of courage, loyalty, indomitable fortitude, truth, honesty and self-reliance.

"While he did not wear his heart on his sleeve, he had a deep inner sympathy and affection for all youth. His intimates sensed this and loved him for it.

"No man who has worn the Gold and White as a player can be found who does not speak good of Alex.

"He was my close friend and there are strong emotions which go entirely beyond my appreciation of him as a fellow official.

"The suddenness of his death takes away the ability to express them except to say 'He was a man, take him for all in all, we shall not look upon his like again!'

"Bill Alexander was one of Georgia Tech's all-time greats.

"His contributions to football and collegiate athletics, in general, were immeasurable.

"At a time like this," he added, "it is difficult to even attempt to pay tribute to the memory of such a grand man.

"I said at the time I joined him 19 years ago that I considered myself honored and fortunate to start out under a man of his ability and character. Everything that has happened since that time has only served to heighten that opinion and cause me to respect and admire him all the more.

"His contributions to football and collegiate athletics in general are immeasurable. His work, as well as the high esteem in which he was held by everyone who came to know him, will endure forever.

"His death has saddened all of us."

Wallace Butts, Georgia's head football coach and athletic director, said the South has lost the man who has done more for athletics than any other in the death of Georgia Tech's W. A. Alexander.

Informed of the death of the man who headed the athletic program at the institution that affords him his chief rivalry, Coach Butts said:

"Those of us who had to compete against him knew how tough it was to beat him, but we all respected him because he was always a square shooter. Everyone in athletics is saddened by his passing."

At New York Columbia University, Coach Lou Little said, "In my 30 years of college football I've never known anyone who has contributed more than Bill. We will miss him as a great leader. Bill had the keesnest mind and ability to foresee needed rules changes of anyone on the football rules committee."

Frank Leahy, Notre Dame football coach, said at South Bend, "The sports world has lost an outstanding and colorful figure in the death of Coach Alexander.

"I am awfully sorry to hear about his death. He was a tremendous credit to the coaching profession. I know Coach Alex always exerted a great deal of influence over those who played for him. He will be missed by all who knew him. He was highly regarded in the profession and that regard was shared by the late Knute Rockne."

Vanderbilt Coach Bill Edwards said, "I had only known Alexander a short time, but I admired and respected him as did everyone who knew him. I considered him one of the greatest and finest men in football. He'll be greatly missed."

Wallace Wade, of Duke — "The passing of Coach Bill Alexander is a personal loss to me as well as a great loss to college football throughout the nation and the South, especially. Coach Alexander and I have been great friends and we have been sending teams against each other for a great number of years. We worked together on the Football Rules Committee and his passing came as a great shock to me."

From Alonzo Stagg in Portland, Ore., came: "He was a very superior coach, a charming gentleman and we members of the NCAA football rules committee..." (Continued next page)
REUNIONS AND HOME COMING

As announced in the preceding issue of the Alumnus — well in advance, we trust — the 1950 Home Coming and Class Reunions will be held on October 28, the day of the Kentucky-Georgia Tech football game, in Atlanta.

So, to Repeat

The Home Coming this year, as stated, will be of interest particularly to the alumni of '05, '10, '15, '20, '25, '30, '35, '40, and '45, who will have their 45th, 40th, 35th, 30th, 25th etc., reunions. Plans are being made now by the classes of '10, '20, '30, and '40 for get-togethers and it is hoped that the others will get organized without delay.

A class list will be sent soon to all members of the reunion groups mentioned above for whom the alumni office has an address. If you are a member of one of these 5-year groups and do not get a list by the end of June, please advise the alumni office and you will receive one by return mail.

All alumni, their families and friends are invited to attend the Alumni Barbecue Luncheon at 12:00 noon on the campus, just before the game on October 28.

Be sure to place your order with the Athletic Association for tickets to the Kentucky game immediately upon receipt of applications. Individual game applications will be mailed to all alumni on record about the middle of June. If, by July 1, you have not received applications, write the Athletic Association or your Alumni Association and you will receive them.

Unless staying with Atlanta friends, make your hotel reservation as far in advance as possible. If unable to get hotel accommodations on your own, write the alumni office and everything possible will be done to assist you.

Secretaries of the afore-mentioned reunion classes are:

1910 — Milton Howard, Robert & Co., Fairlie St., Atlanta 1, Ga.
1920 — L. F. Kent, Moncrief Furnace Co., Box 1873, Atlanta, Ga.
1930 — C. L. “Red” Williamson, 201 Eureka Dr., N. E., Atlanta, Ga.
1935 — Jerry G. Perkerson, 1660 N. Cross Keyes Dr., Brookhaven, Ga.
1940 — C. Philip Richards, 960 Drewry St., N. E., Atlanta, Ga.
1945 — Maurice H. Furchgott, 977 Ponce de Leon Ave., Atlanta, Ga.

HOME COMING PROGRAM

Fri., Oct. 27 at 5:00 P.M. — Annual National Alumni Association Tech Y.M.C.A. Council Room.

Fri., Oct. 27 at 7:30 P.M. — Annual Anak Banquet in Campus Banquet Hall. (Further announcements to follow.)

Sat., Oct. 28, 12:00 to 2:00 P.M. — Home Coming and Reunion Luncheons for all alumni classes, dates, families.

EXPRESSIONS LAUD COACH

mittee were very fond of Bill. He was a very useful man in connection with the rules committee. I regret I never saw any of his great teams play and very, very sorry to hear of his death. However, I am not surprised in a way, because at the Savannah meeting of the rules committee two years ago, Bill had a heart attack. That was the first we knew that he was having heart trouble.”

Paul Bryant, University of Kentucky

IVAN ALLEN, JR., ’33, RECEIVES HIGH SCOUT HONOR

Cherry L. Emerson, '08, left, congratulates Ivan Allen, Jr., who was presented with the Silver Antelope on April 21, in Savannah, Ga., at the annual meeting of Region Six of the Boy Scouts of America. This is the major award on a regional basis to volunteer workers in Boy Scouting. Cherry Emerson holds the Silver Antelope and, also, the Silver Buffalo, highest national award. Messrs. Emerson and Allen are Trustees of the Alumni Foundation and Alumni Association Boards, respectively.

1930 — C. L. “Red” Williamson, 201 Eureka Dr., N. E., Atlanta, Ga.
1935 — Jerry G. Perkerson, 1660 N. Cross Keyes Dr., Brookhaven, Ga.
1940 — C. Philip Richards, 960 Drewry St., N. E., Atlanta, Ga.
1945 — Maurice H. Furchgott, 977 Ponce de Leon Ave., Atlanta, Ga.

Home Coming Program

Fri., Oct. 27 at 5:00 P.M. — Annual Business Meeting of the Georgia Tech National Alumni Association in the Tech Y.M.C.A. Council Room.

Fri., Oct. 27 at 7:30 P.M. — Annual Anak Banquet in Campus Banquet Hall. (Further announcements to follow.)

Sat., Oct. 28, 12:00 to 2:00 P.M. — Home Coming and Reunion Luncheons for all alumni classes, dates, families.

ALEX (Cont’d)

coach, remarked — “I’ve admired and respected Coach Alexander all my life. Losing him is a great blow to our conference and to athletics the nation over.”

South Carolina’s Rex Enright, infor
dated at the Municipal Airport of Alexander’s death, said “American football has lost one of its truly great leaders. We of the South have lost a great friend.

“Up until his retirement a short time ago, he turned out teams for more than 20 years which were outstanding not only in the South but the entire nation.”

Many other messages were received but, unfortunately, our relatively small publication cannot carry them all.

(Editor’s note: We acknowledge, with sincerest thanks, permission from the Atlanta papers and others, to quote from their respective columns.)
VALUED MEMBERS OF ALUMNI STAFF RESIGN

On March 24, Roane Beard, '40, valued Manager of Alumni Activities, resigned from his position with the Georgia Tech National Alumni Association to go with Jefferson Mills, at Jefferson, Georgia. The change offered him greater business opportunities than those provided by the alumni office; and, while he was reluctant to leave, to say nothing of the great regrets also, on the part of the Alumni Association, it was felt that any improvement he might make for his three children, his wife, and himself would certainly be the thing to do and quite justifiable.

Roane Beard's letter of resignation states:

MEMORANDUM TO:
The Board of Trustees, Georgia Tech National Alumni Ass'n
FROM:
W. Roane Beard, Manager of Alumni Activities

It is with sincere regret that I hereby submit my resignation as Manager of Alumni Activities, effective April 8, 1950, terminating a position held for approximately 2 years, 8 months.

My reasons for leaving are purely mercenary, as I have never held a job which gave me more pleasure or brought me into contact with such genuinely fine people as the one from which I am resigning. I am accepting a position with Jefferson Mills, Jefferson, Georgia, which has a definitely greater opportunity for financial reward, and felt that I shouldn't let the opportunity slip by.

Having reached the age where I should have made up my mind what my career will be, and having a wife and three children, I examined the future prospects of continuing to work with the Alumni Association. I find that I can live comfortably under the present pay, but would probably never be able to salt anything away to give my children a college education or retire at the ripe old age of 65. Further, should something happen to this job, the work done here, while not wasted, does not train you in a field where one can jump into a similar position at another college. This is because every college prefers to hire its own graduates. Sincere thanks for your many kindnesses,

(Signed)
W. ROANE BEARD
March 24, 1950

Oscar G. Davis, Pres., Nat'l Alumni Ass'n, presents Roane Beard with a brief case as a "parting gift" from the Association, following the latter's resignation as Manager of Alumni Activities. Jack Thiessen, Exec. Sec'y, Nat'l Alumni Ass'n, on Beard's left, and Howard Ector, Exec. Sec'y, Alumni Foundation, present the green book, below, which shows Mrs. Ward of the Alumni and Foundation Office with Mrs. Hazel M. Chambless, right, office secretary-bookkeeper and receptionist, who has resigned to get married in June.

Just a short while prior to Roane Beard's resignation, Hazel M. Chambless, Alumni Foundation and Association secretary-bookkeeper and receptionist, resigned, effective May 31, to become a June bride.

Mrs. Chambless began her duties with the Alumni Foundation in February, 1944; shortly thereafter, she took on her combined work with the Foundation and the Alumni Association and has been exceptionally valuable and efficient with it all.
National Alumni Officers Nominated

As announced in the preceding issue of the Alumnus, nominations were closed on April 30, covering the 1950-51 term, for officers of the Georgia Tech National Alumni Association; and it's a privilege and a pleasant duty to publish your nominees, as named without opposition, for their respective offices beginning September 1, 1950, as follows:

For President: Oscar G. Davis, '22.
For Vice-President: Price Gilbert, Jr., '21.
For Vice-President at Large: Frank B. Williams, '20.

As stated before, the current officers were renominated for their second and concluding term, with the exception of the Vice-President at Large and Treasurer, respectively.

For your general information and for those who probably did not see the brief biographies of the proposed officers, it is a pleasant obligation to publish the following outlines once more.

For President: Oscar G. Davis, B.S. in M.E., 1922. Investments and personal business activities, Atlanta, Ga. Former vice-president of the Coca-Cola Bottling Company of Boston, Mass.; also previously connected with the Coca-Cola Company in Atlanta. Subsequently was Vice-President of the Fulton National Bank of Atlanta; Chairman of the Alumni Association committee on the proposed Georgia Tech Student Activity-War Memorial Building and member of the Executive Board of the National Alumni Association. When at Tech, he was a campus leader and also a star guard on Georgia Tech's nationally famous "Golden Tornado," during the years of 1920, '21, '22 and '23.

For Vice-President at Large: Frank B. Williams, 1920, Textile Engr. General Agent of Lanett (Ala.) Mills Division, West Point Manufacturing Co., West Point, Georgia. President Educational Textile Foundation and presided when the ground breaking ceremonies took place for the Wm. Harrison Hightower Textile Building at Georgia Tech. Outstanding and active Tech alumnus, prominent civic leader in city, state, and national affairs. Son, Frank B. Williams, Jr., graduated as a Bachelor of Textile Engineering, June, 1949.

Balloting

All active members of the Georgia Tech National Alumni Association who desire to confirm the foregoing nominations, or who may want to vote for their respective class secretaries, are kindly requested to send in their votes on the ballot below, or on one similar to it, by or before June 30, 1950.

Class secretaries now serving until the beginning of the new term on September 1, 1950, are shown on the opposite page.

BALLOT FOR NATIONAL ALUMNI OFFICERS, 1950-'51

(See Foregoing Article)

I hereby vote for National Georgia Tech Alumni Association officers for the year 1950-51 as follows:

President
Vice-President
Vice-President (At Large)
Treasurer
Class Secretary (for my Class)
Signed

Not Good Unless Signed

Return by or before June 30, 1950

Mail ballot to the Secretary, Nat'l Alumni Assn., Georgia Institute of Technology, Atlanta, Ga.

May-June, 1950
T. H. Caraker, Jr., formerly with A. & P. in Atlanta, was recently elected to the board of directors of the Atlantic division of A. & P. Food Stores. Mr. Caraker is divisional director of personnel for the company. A native of Milledgeville, Ga., he attended Georgia Military College and was graduated from Georgia Tech in 1932. While attending college he worked for A. & P. and upon his graduation he joined the company in Philadelphia. He was a supervisor when he entered the Army in World War II and received his discharge as a lieutenant colonel after serving in the Pacific.

Col. Samuel G. Green, B.S. in E.E., 1915, is among the very few who received both the highest civilian award, "Exceptional Meritorious Medal," and the " Legion of Merit Medal" for military service in World War II for outstanding scientific work in the creation, development and directing the production of 50 calibre machine guns. The 50 calibre aircraft machine gun was adjudged by General Hap Arnold, former Chief of Air Forces, to be the most outstanding weapon possessed by our allies, or the enemy, in World War II.

Col. Green has taken out 56 patents on automatic weapons and other ordnance items, for which the U. S. Government has a royalty free license. He retired on February 16, 1950, but will carry on as senior ordnance engineer in the office of Chief of Ordnance.

Robert L. Adams, E.E., '39, was one of six employees of The Teleregister Corporation, New York City, who shared in the Collier Trophy Award for 1948 presented to the Radio Technical Commission for Aeronautics by President Truman. Mr. Adams received a 10" x 13" engrossed citation "in sincere appreciation of his conscientious and effective collaboration in the work of RTCA Special Committee 31 which created the guide plan for the development and implementation of a system of air navigation and traffic control to facilitate safe and ultimate aircraft operations under all weather conditions."

The report and recommendations of the RTCA Special Committee 31 was accepted by the Air Co-ordinating Committee, the President's Air Policy Commission and the Congressional Aviation Policy Board. It became the official master plan to make the operation of military, commercial and private planes dependable under all weather conditions. It will give America the most secure air defense it has ever had and will give air travellers on-time dependability never before possible.

Charles Fleetwood, C.E., '23, vice-president in charge of Prudential Life Insurance Company's mortgage loan and real estate department, will head the new Southwestern home office which Prudential will establish in an ultra-modern 13-story building to be erected on a site near the new Shamrock Hotel in Houston, Texas. The new office is expected to be open late in 1951.

Dr. Russell S. Fisher, B.S. in Chemical Engineering, 1937, is the new medical examiner for Baltimore, Md. After his graduation from Georgia Tech, he entered the Medical College of Virginia, in Richmond, where he received his medical degree in 1942.

From 1944 to 1946, he was in the Navy; saw service on Okinawa. From 1946 until 1949 he held a fellowship in the department of legal medicine at the Harvard Medical School.

CLASS MENTIONS

1906
Fernando J. Torras, former City Manager of Brunswick, is a Professional Civil Engineer, with offices at 1027 Union St., Brunswick, Ga.

1927
Joseph H. Chaille is Superintendent of the Group Insurance Department of the Equitable Life Assurance Society, New York, N. Y.

1928
Chas. P. Connally, Jr., has returned to Atlanta as Division Manager for Florence Stake Co., 53 Alabama St., S. W.

1930
Marion F. Martin, Jr., is a lumber manufacturer at St. Simons, Ga.

Mark E. Johnson is Cotton Salesman for C. D. Tuller & Co., 920 Walton Bldg., Atlanta.

1933
Theodore Taube is Building Appraiser for American Can Co., 100 Park Ave., New York, N. Y.

1934
Frank Dunbar is Assistant General Superintendent for Armour Fertilizer Works, 350 Hurt Bldg., Atlanta, Ga.

1937
Ralph Taitz is with Bonneville Power Administration in Portland, Oregon.

1938
F. K. Webb, Jr., is with Pan American Refining Co., Texas City, Texas.

1939
John C. Jacobs is Attorney for Nebo Oil Co., 930 Mercantile Bank Bldg., Dallas, Texas.

David C. Watkins is Vice-President, Virginia Crafts, Inc., Keyesville, Va.

Alfred W. Bayliss is a Captain for Delta Air Lines, Atlanta.

1940
Howard Ector has been elected president of the Men's Club at the First Presbyterian church in Marietta, Ga.

G. W. "Bill" Phillips is Vice-President and Sales Manager for J. W. Quinn Drug Company, Greenwood, Miss.

1941
Lt. Comdr. Frank Allen Whitaker is Assistant Supply and Fiscal Officer, U. S. Naval Research Laboratory, Anacostia, Md.

John R. Sturgis is Technical Representative for The Air Preheater Corp., 60 East 42nd St., New York.

James G. Wohlford is Acting Director of Co-operative Division, here at Georgia Tech.

1942
Eugene A. Smith is Town Engineer 9550 Harding Ave., Surfside, Miami Beach, Fla.

1943
Howard Samuel Horner will receive his B.A. degree in Business Administration this month from Western Maryland College, Westminster, Md.

1944
Captain W. A. Lamont is with the Testing and Educational Unit, Marine Corps School, Quantico, Va.

(Continued next page)
 influencers: Sarbacher’s “sharp” attire, conversational prowess and agility on the dance floor.

"Sarbacher’s capacity for enjoying himself," says Shalett, "is outstripped by an even greater capacity for hard work and intensive concentration."

President Blake R. Van Leer, Chairman of the Board of Directors, Ga. Tech Athletic Association, has appointed John O. Chiles, ’23, to the Board as one of the three alumni members succeeding L. W. (Chip) Robert, ’08, whose three year term expires on June 30, 1950. Mr. Robert was named as honorary member for an unspecified term of years, on the Athletic Board.

Both Mr. Chiles and Mr. Robert need no introduction to Tech alumni and other friends of the college throughout the nation. They are nationally prominent business and civic leaders, and they have very materially and loyally aided Georgia Tech from the time they were students to the present day.

President Van Leer, Georgia Tech, the Athletic Association and all others concerned are to be congratulated on the appointments.

FORMER DEAN FEATURED IN "SATURDAY EVENING POST"

Dr. Robert Sarbacher, former Dean of the Georgia Tech Graduate School, was featured as "an unaverage cross between Beau Brummell and Albert Einstein" in a recent issue of the Saturday Evening Post.

Dr. Sarbacher, now Founder, President and Director of Research for the National Scientific Laboratories of Washington, D. C., was lauded principally for his work as an eminent electronic scientist and nuclear physicist who has handled intricate research for the Army.

But, in an article entitled "Look Out —Here Comes a Genius!" Author Sidney Shalett also paid tribute to Dr. Sarbacher’s "sharp" attire, conversational prowess and agility on the dance floor.

The top student award of the American Ceramic Society, The Ferro Enamel Corporation prize of $500, was won by Jesse D. Walton, Jr., a senior ceramic engineering student from Georgia Tech, it was announced on April 25, by President H. M. Kramer, at the annual meeting of the society in New York City.

Walton, a married veteran from Atlanta, Ga., and now living at the Georgia Tech Lawson Apartments, Chamblee, Ga., received the award for his research work on porcelain enamels.

In addition, two other Georgia Tech ceramic engineering students won honorable mention awards. They are Manville J. Mayfield, 686 Sherwood Rd., N. E., Atlanta, Ga., and William Brusse, Jr., another veteran living at 656 Yorkshire Rd., N. E., Atlanta.

There were more than two dozen entries from 12 colleges for the ten awards in this nation-wide contest. According to Dr. Lane Mitchell, director of the Georgia Tech School of Ceramic Engineering, who accompanied the students to New York, the three awards won by the Atlanta school indicates the increasing recognition being given to research and ceramic engineering in the South by the ceramic industry.

CLASS MENTIONS (Cont’d)

Lawrence M. Steinheimer, Jr., is in the insurance business in Savannah, Ga., and lives at 2003 Bull Street, Savannah.

Jens B. Flock, Lt. (j.g.) is with the U. S. Navy Supply Corps, stationed at the Naval Air Station, Pensacola, Fla.

Edward R. Foss, Jr., is Highway Engineer for Juan Giral Co., c/o Creole Petroleum Corp., Quiriquire, Venezuela, S. A.

Dade W. Moeller is on loan from the U. S. Public Health Service to the Atomic Energy Commission and is engaged in research on methods for the treatment of radioactive wastes.

William H. Bottomley, Jr., is Sales Engineer for Ingalls Iron Works, Co., Birmingham, Ala.

Jack C. Webb is with Pan American Refining Co., Texas City, Texas.

Charlie A. McGill is Industrial Engineer for Chance Vought Aircraft, Dallas, Texas.

William G. Williams is in the Production Department of Indemnity Insurance Co. of North America, with offices at 99 John St., New York, N. Y.
Louisville, Ky.

The Brown Hotel in Louisville, Ky., was the scene on Monday night, April 10, of the organization of the Georgia Tech Club of Louisville.

Gene Hill, '11, president at this dinner meeting, attended by 21 enthusiastic Tech men. It was decided unanimously that a Georgia Tech Club of Louisville was desirable, and the following slate of officers was elected to serve for this first year:

President — Jack Pruitt, '29.
Vice-President — Burton Cloud, '29.
Sec'y-Treas. — Charlie Preston, '37.

Howard Ector, Executive Secretary of the Georgia Tech Alumni Foundation, represented the school at this gathering and gave an informal talk on the school, its development and program. After a brief question and answer period, the film of the Tech-Tennessee game of 1949 was shown to the appreciative audience. Howard Ector narrated this film and made brief running comments throughout on the progress of the game.

It is hoped that this initial meeting is but the preliminary to a long and active life of the Georgia Tech Club of Louisville. Any Tech man in this vicinity not affiliated with this club can call Charlie Preston at the Southern Bell telephone office for further information.

St. Louis, Mo.

A new Georgia Tech Club was organized in St. Louis on Tuesday, April 11. Some 28 Tech alumni gathered in the recreation room of the Clayton Methodist church in St. Louis to discuss the possibility of organizing this group into an active Georgia Tech Club in this area.

Rial R. Rolfe, class of '47, was selected as the first President of this group, with Tom Christian, class of '40, as Vice-President, and T. H. Mize, class of '14, as Secretary and Treasurer.

The school was represented at this gathering by Howard Ector, Executive Secretary of the Georgia Tech Alumni Foundation, who spoke to the assembled group on the school, and alumni clubs, and what the relation was between the two. At the conclusion of this talk, the colored movies of last year's Tech-Tennessee game were shown to a very appreciative audience. The meeting adjourned with plans under way for another and larger meeting in the late spring.

Chicago, Ill.

Bolan H. Boatner, class of '28, President of the Georgia Tech Club of Chicago, called his group together on the night of Wednesday, April 12, at the Electric Club in the Civic Opera Build-

ing at Chicago for a dinner meeting. Howard Ector, Executive Secretary of the Georgia Tech Foundation, was the guest speaker on this occasion, and spoke to this group on the Alumni Club, its aims and benefits. A lengthy discussion followed this brief talk, at which time plans were laid for further activities and meetings. The meeting was concluded with the showing of the Tech-Tennessee colored football movies of this past year, which was enthusiastically received by all.

Cleveland, Ohio

The Hermit Club in Cleveland was the scene of the first gathering of Georgia Tech alumni ever held in this area. Friday, April 14, was the date when some 27 Tech men turned out to inaugurateg this newest branch of the Georgia Tech National Alumni Association.

It was decided by the membership at this meeting and made a brief resume of his achievements and background. Howard Ector, Executive Secretary of the Georgia Tech Alumni Foundation, represented Georgia Tech at this inaugural meeting and spoke briefly about Georgia Tech and the aims and accomplish-

ments of the school. The showing of the Tech-Tennessee colored movies of 1949 brought to a close this very successful organizational meeting of the Tech Club of Cleveland.

Charleston, West Virginia

President Owen Sheetz of the Georgia Tech Club of Charleston, West Virginia, called a smoker meeting on Monday night, April 17, at the Reserve Officers Club in downtown Charleston. Some 19 Tech men responded to this call to hear a brief address by Howard Ector, Executive Secretary of the Georgia Tech Alumni Foundation.

Plans were made at this meeting for helping Georgia Tech in several ways, one of which was the encouragement of future students from the local high schools in this vicinity.

The meeting was closed with the showing of the Tech-Tennessee football game of this past season, which was enthusiastically received by all.

West Point, Ga.

The Georgia Tech Club of West Point, Ga., called its annual spring meeting on Thursday night, April 6, with a delici-

ous steak dinner being served to some 25 Tech men and guests.

President Jim Wright presided and asked for the report of the nominating committee for a new slate of officers for the coming year. Those men elected unanimously, were:

President — Carlton Lewis, '42.
Vice-President — Grady Webb, '38.
Secretary-Treasurer — Haley Ector, '44.

George Griffin, Dean of Students at Georgia Tech, made the principal address which was well received by all. Other visitors from the school include Jim Wohlford, '41, Director of Co-op Activities, and Roane Beard, '40, and Howard Ector, '40, represented the Alumni Association.

The movies of the Tech-Tennessee game of this past year brought to a close this fine meeting.

Our thanks go to Jim Wright, Bill Spell and Marshall Mehaffey, last year's officers, for a job well done.

Chattanooga, Tenn.

Some 40-odd Tech men and visitors gathered at the Chattanooga Country Club on the night of April 26 to hear a brief talk by George C. Griffin, Dean of Students at Georgia Tech.

President Fletcher Sims, '38, president and a very enjoyable evening was reported. George Griffin, in his inimitable style, kept the gathering entertained with witty stories and accounts of the progress being made at Georgia Tech. At the conclusion of Dean Griffin's talk, pictures of several of Tech's football games of the past year were shown and enjoyed by all.

It was decided by the membership of the Club that the sum of $500.00 be donated from the Chattanooga Georgia Tech Club to the memorial building being proposed in memory of Coach W. A. Alexander. This is a very magnificent gesture on the part of the Chattanooga Tech men and will certainly be appreciated by all concerned.

Knoxville, Tenn.

The private dining room at the S & W Cafeteria was the scene Monday night, May 1, of a meeting of the Georgia Tech Alumni Club of Knoxville. President Charlie Lindsey, '42, presided, and the first order of business was the nomination and election of a new slate of officers. The following men were nominated and elected to serve for the coming year:

President — G. I. Teasley, '30.
Vice-President — Bernard V. Ward, '49.
Sec'y-Treas. — R. M. Gibbs, '39.

Howard Ector represented the school at this meeting and made a brief talk.

(Continued next page)
CLUB MEETINGS (Concluded)

May-June, 1950

We had as our guests two prominent Mississippi men, Judge Garland Lyell and Senator Mitchell Robinson. Both Judge Lyell and Senator Robinson made very entertaining talks.

The meeting closed with a picture of last year’s Tech-Vandy game and more “Ramlin’ Reck.”

WASHINGTON ALUMNI COMPLETE BOWLING SEASON

The season was brought to a close April 20, with a banquet at Manor Country Club. Various prizes were awarded to teams and individuals and J. Rhodes Mitchell of Tech received the award for the highest average on his team.

Regularly present during the season were Herriot, Souther, Mitchell, Woodside, Elliot, Lovell, Sweeney and Harrison.

Bowling will recommence in September, and those interested in participating in this activity should contact the team captain, Hunter Harrison, at STerling 4472.

SAN FRANCISCO, CALIFORNIA

On Thursday night, April 20, President Stamps Bethel gathered the Georgia Tech men in the San Francisco Bay area together for a dinner to meet Mr. Wm. L. Carmichael, Registrar at Georgia Tech. Mr. Carmichael was attending a conference in San Francisco but took time out to meet with these Tech men on the West Coast.

A dinner meeting at the Town House was enjoyed by all, after which Mr. Carmichael spoke briefly to those assembled about the great progress that has been made in the past few years back at Georgia Tech.

Anyone interested in becoming a part of this group can do so by contacting Mr. Stamps Bethel, Mutual Life Insurance Co., 111 Sutter St., San Francisco, telephone SU-1-6526.

CHARLOTTE, N. C.

Thatcher’s Restaurant was the scene of the gathering of some 80-odd Georgia Tech alumni on the night of Friday, May 5. President Bill O’Neill presided and a very enthusiastic throng gathered for the program.

A few remarks were heard from Mr. Burton Smith, class of ’04, and then Dean George C. Griffin, representing the school, made a very interesting talk about conditions back in Atlanta.

At the conclusion of Dean Griffin’s speech, the group was entertained by a film of the Tech-Georgia game of this past year.

Jackson, Miss.

The Ga. Tech Club of Mississippi held its second meeting at 6:30 P.M. at Le Fleur’s Restaurant in Jackson, Miss., on April 14.

The meeting started off with a bang. There was a fellowship meeting from 6:30 to 7:30 P.M., and along with the fellowship there was, of course, a lot of singing, centering around “Rambling Reck.”

Gene Drummond, our president, opened the business meeting with the announcement that our club has 40 charter members, and we are off to a big start in organizing our Ga. Tech Club of Mississippi.

Next, Gene called for reports from committee chairmen and it seems as if all committees are working very hard to make our club one of the very best in the nation.

An election of officers was held after committee reports were given, and the following men were elected to succeed themselves:

Gene Drummond — President.
Sims Munford — Vice-President.
Dave Gammill — Sec’y-Treas.

The social committee chairman, Hooker Pepper, suggested we have our next meeting in early summer and invite President Van Leer to visit with us. There was also a suggestion to make our next meeting “Ladies’ Night.” Both of these suggestions were accepted and we are looking forward to a nice party in the summer.
DEATHS OF PROMINENT ALUMNI

E. George Butler
Col. E. George Butler, outstanding civic leader of Savannah, Ga., and president of the John G. Butler Co., died Sunday, April 2, in Savannah.

The son of the late John G. Butler, Col. Butler was born in Savannah on February 24, 1886. He received his education in the local schools and attended Georgia Tech with the class of 1907.

Savannahians looked upon Col. Butler with confidence and trust. He was continually associated with the city's advancement. He was often called upon at his own sacrifice of personal affairs to fill important jobs. Col. Butler's most important work in recent years was his service as executive of the Industrial Committee of Savannah. Later becoming vice-president of the body and vice-chairman of the combined Industrial Committee and Port Authority of Savannah, Col. Butler performed outstanding duties in those offices. Because of his efforts, Savannah secured many new industries, small plants and representation of other large manufacturing companies.

In 1929, Col. Butler was the recipient of the Lucas Trophy for his work in promoting the Savannah Forward movement. He was awarded the Golden Deed certificate of the Savannah Exchange Club in 1940 for his work with the Industrial Committee and for his efforts in establishing the Savannah Air Base and the huge anti-aircraft training center at Camp Stewart.

In college, Col. Butler was an outstanding athlete and was a quarterback on the Georgia Tech football team. He was president of the Savannah Georgia Tech Alumni Club. All through the years, he was constantly promoting sports in Savannah for the local youth. In addition to his wife, he is survived by four daughters, two sisters, and several grandchildren. Funeral services were held in the Cathedral of St. Philip, at Atlanta.

Charles S. Hammond
Charles S. Hammond, E.E., 1913, Assistant to the President of the Georgia Power Company, died Friday morning, May 19, while on a business trip at Daytona Beach, Fla.

Mr. Hammond, who lived at 30 Golf Circle, Atlanta, was born in Atlanta in 1891, the son of Charles F. Hammond, former railroad executive, and Cornelia Moreland Hammond, formerly of Mobile, Ala. He attended grammar and high schools in Savannah and Americus and graduated from Georgia Tech as an electrical engineer in 1913.

He went to work in the Sales Department of the Georgia Power Company in 1915, and resigned in 1917 to enter the First Officers' Training Camp at Fort McPherson. An officer in the Coast Artillery, he served at Fortress Monroe and Fort Humphries and went overseas with the AEF in 1918.

He continued to serve with the U. S. Engineers until 1923, when he returned to the Georgia Power Company as Assistant to the Sales Manager, and held this position until 1947, when he became Assistant to the President.

Mr. Hammond was a past Senior Warden of St. Luke's Episcopal Church, and was treasurer of the Diocese for several years. He was a member of the Exchange Club, American Legion Post No. 134, and the Atlanta Bar Association. He was a former staff officer of the State Defense Corps.

Surviving are his wife, the former Betty Kingsbury Biles, of Louisville, Ky.; a daughter, Mrs. Ewing Miles, of Atlanta; two brothers, William P. Hammond, of Atlanta, and Edward C. Hammond, of Athens, and one grandchild.

Funeral services were held at St. Luke's Episcopal Church, Atlanta, and the burial was in Magnolia Cemetery, Americus, Ga.

Gilbert Robin Field
Mr. and Mrs. Gilbert Robin Field, of Galveston, Texas, the son and daughter-in-law of Professor Floyd Field, of Atlanta, for 40 years dean of men at Georgia Tech, were killed on April 21, 1889, in an automobile accident. The tragedy occurred on the Air Line Road, about 14 miles from Houston, Texas. The Fields' car collided with a truck. Gilbert Field, a graduate of Georgia Tech in the class of 1928, had been a resident of Atlanta for more than 22 years. Upon graduation he began his affiliation with the United States Corps of Engineers. He was a project engineer for the U. S. District Engineers at the time of his death.

In addition to his father, Mr. Field is survived by a son, William Floyd Field; a sister, Mrs. D. F. Williams, of Atlanta; and a brother, Capt. Willard E. Field, of Paris, France.

Raymond A. Jones
Raymond Allen Jones, C.E., 1916, 58, of the J. A. Jones Construction Company with offices in Atlanta, died Monday night, May 8, in Peru, S. A.

Mr. Jones was executive vice-president of the firm. Along with his father and brother, he had built and watched the company grow into one of the largest contracting businesses in the world. At the time of his death he was supervising a large scale reconstruction program in cities damaged by the earthquakes in Peru.

A graduate of Georgia Tech, Mr. Jones lived in Atlanta for 12 years but moved to Panama City, Fla., several years ago. One of the company's largest undertakings was the atomic bomb plant at Oak Ridge. It also built several large Army camps and shipyards throughout the nation. The company also constructed Techwood homes, and the new West Stands on Grant Field at Georgia Tech.

Mr. Jones was a member of the Druid Hills Methodist Church, the Piedmont Driving Club and the Athletic Club in Atlanta.

Funeral services and burial rites were held in Panama City, Fla.

Surviving are his wife; and three sons, Raymond A. Jones, Jr., and Robert H. Jones, both attending Georgia Tech, and James A. Jones, a student at Davidson. (Continued on page 19)
**BIRTHS**

*Crumley*

Mr. and Mrs. Robert M. Crumley, Jr., have named their daughter Sarah McDougall. The baby was born February 15 at Piedmont Hospital. Mr. Crumley attended Georgia Tech with the class of 1940.

**Daniel**

Rev. and Mrs. Eugene L. Daniel announce the birth of a daughter, Sallie, who was born on July 10, 1949. Rev. Daniel attended Georgia Tech with the class of 1933. He is doing missionary work in Korea, and his address is Soonchun, South Chulla, Korea, Asia.

**Harrison**

Mr. and Mrs. Hunter C. Harrison announce the arrival of a daughter, Carol Love, on March 4, 1950. Mr. Harrison received his B.S. in I.M. in 1942. Their residence address is 1821 Brisbane St., Silver Springs, Md.

---

**ALUMNI DEATHS** (Cont’d)

*Respress*

Roland B. Respress, inventor, engineer and founder of Respro, Inc., manufacturers of unwoven fabrics and leather substitutes, died April 27, 1950, at his home in New York, on his seventy-seventh birthday.

Born in Eatonton, Ga., he was a graduate of Georgia Tech and for a time published an automotive magazine in Washington. Mr. Respress founded his Respro firm shortly after he went to Rhode Island in 1912. He remained active as head of its experimental department until he became ill two years ago.

Surviving are his widow; four brothers, and a sister, Mrs. Ada Jones, of Atlanta.

*Swanson*

F. Marion Swanson

F. Marion Swanson, Secretary and Treasurer of Adair Realty and Loan Co., Atlanta, died April 29, 1950, at his residence, 246 Daniel Ave., S. E., following a short illness.

Mr. Swanson was a native of Macon. He was a graduate of the old Stone Mountain Prep School, and attended Georgia Tech with the class of 1907.

He had been associated with the Adair Company for 40 years, and was a member of the Atlanta Real Estate Board. He was an active member of Holy Trinity Episcopal Church in Decatur. Mr. Swanson was active in Scottish Rite Masonry and was a Shriner. He was Treasurer of East Lake Boy Scouts.

Surviving are his wife; a daughter and a son, both of Atlanta; a sister and a brother, and several nieces and nephews.

---

**Tech Controller Honored**

James R. "Jamie" Anthony, Controller of the Georgia Institute of Technology, has been elected vice-president of the National Association of Educational Buyers, according to an announcement by Bert C. Ahrens, association secretary.

Mr. Anthony, who is one of the youngest controllers of any major college or university, was inaugurated at the annual convention of the association in Houston, Texas, on May 5, 1950.

*Jeffers*

Mr. and Mrs. J. A. Jeffers announce the birth of a son, James A., Jr., on March 31, 1950. Mr. Jeffers received his B.S. in E.E. in 1948.

*Schwartz*

Mr. and Mrs. Howard Schwartz announce the birth of a daughter, Gwen Ruth, on March 14, 1950. Mr. Schwartz attended Georgia Tech with the class of 1943.

---

**WEDDINGS AND ENGAGEMENTS**

*Boyette-Ferst*

Miss Charlotte Boyette, daughter of Mrs. Mary L. Boyette, of Atlanta, and Wilbur D. Boyette, of Trenton, Tenn., became the bride of Alvin M. Ferst, Jr., during March, at the chapel of Peachtree Christian Church, Atlanta.

Mr. Ferst graduated in 1943 with a B.S. in I.M.

*Bristol-Allen*

Mr. and Mrs. Franklin Benjamin Bristol announce the engagement of their daughter, Miss Nancy Bristol, to L. Duncan Allen, Jr., of New York City.

Mr. Allen received his B.S. in I.M. in 1938.

*Broyles-Carver*

Mr. and Mrs. Julian Samuel Broyles announce the engagement of their daughter, Miss Mildred Inez Broyles, to Ensign John Francis Carver, U.S.N. The marriage will take place in June.

Ensign Carver received his B.S. degree in I.M. in 1949.

*Clarke-Muzio*

Mr. and Mrs. Welborn Rucker Clarke, Sr., of College Park, announce the engagement of their daughter, Miss Elizabeth Ann Clarke, to Andrew H. Muzio.

The marriage will be solemnized June 16.

Mr. Muzio graduated in 1945 with a B.S. degree in M.E.

*Coyle-Treadway*

Announcement is made by Mr. and Mrs. Charles Goodrich Coyle, of New Orleans, of the betrothal of their daughter, Miss Florence Mary Coyle, to William Lomax Treadway, Jr. The marriage will take place on June 21, in New Orleans.

Mr. Treadway attended Georgia Tech with the class of 1950 and is now associated with Phoenix of Hartford Fire Insurance Co., in Orlando, Fla.

*Hansen-Platzman*

Mrs. Charles William Hansen of Oak Park, Ill., announces the marriage of her daughter, Miss Rita Jane Hansen, to Paul Martin Platzman, on September 14, 1949.

Mr. Platzman received his B.S. degree in Textile Engineering in 1943, and is now Eastern Editor of Textile Industries Magazine.

*Hicks-Munn*

Judge and Mrs. Palmer W. Hicks, of Dublin, Ga., announce the marriage of their daughter, Miss Margaret Hicks, to George C. Munn, Jr., of Atlanta. The marriage was solemnized May 14 at the home of the bride's parents.

Mr. Munn attended Georgia Tech with the class of 1949.

(Continued on page 22)
CONTRIBUTORS TO THE 1949-1950 ROLL CALL

The end of our Third Roll Call year is almost upon us. May 31 marks the closing date for contributions to the Roll Call appeal for this year. Many rolls have been a little off from the comparative period last year. Through this date, 1,611 individuals have given a total of $24,469.13.

This money is very important to Tech. It allows the slack to be taken in crucial periods where the State has been forced to cut appropriations; it makes it possible for Tech to remain a member of the Oak Ridge Institute of Nuclear Physics; it provides fellowships and scholarships; it fills many other needs that can be taken care of in no other way.

By contributing to this Roll Call plan, each man listed below has shown his interest and his desire to participate in keeping Tech the great school that it is. Is your name listed here?

WEDDINGS AND ENGagements (Cont’d)

Reinsch-Icenogle
Dr. and Mrs. B. P. Reinsch, of Lake­land, Fla., announce the engagement of their daughter, Miss Marianne Elizabeth Reinsch, to Karl L. Icenogle, Jr. The wedding will take place in June.
Mr. Icenogle graduated in 1948 with the degree of Bachelor of Chemical Engineering, and is associated with International Minerals & Chemical Co., of Mulberry, Fla.

King-Miller
Mr. and Mrs. John Henry King, Jr., of Waycross, Ga., announce the engagement of their daughter, Miss Lorena Ann King, to Walter Iverson Miller, Jr., of Savannah and Columbus, the marriage to take place in the First Meth­odist Church at Waycross, in June.
Mr. Miller received his Bachelor of Textile Engineering in 1949. He is now connected with the Eagle and Phenix Division of the Fairforest Company, in Columbus, Ga.

McCowen-Seifert
Mr. and Mrs. Harry Shi McCowen announce the engagement of their daugh­ter, Miss Jane Roberts McCowen, to John Fowler Seifert. The wedding will take place on June 14, at the Cathedral of St. Philip, in Atlanta.
Mr. Seifert attended Georgia Tech with the class of 1949, and is now associated with Southern Saw Service as a research engineer.

Matthews-Greaser
Mr. and Mrs. Henry Clay Hull announce the marriage of their daughter, Miss Marvin Sue Matthews, to Robert Weber Greaser, on March 31, 1950, at the First Lutheran Church, Dallas, Texas.
Mr. Greaser graduated in December, 1948.

Pearce-Maree
Announcement was made on April 13 by Mrs. Robert M. Pearce, of Atlanta, of the recent marriage of her daughter, Miss Margaret Alice Pearce, to George La Vance Maree, of Atlanta and Savannah. The couple will reside at the Atlanta Biltmore Hotel.
Mr. Maree attended Georgia Tech with the class of 1931.

Sams-Underwood
Announcement is made by Mr. and Mrs. Lewis Reeve Sams of the engage­ment of their daughter, Miss Ardath Jane Sams, to William Taylor Under­wood. The wedding will take place June 17 at the Cathedral of Saint Philip, Atlanta.
Mr. Underwood graduated in December, 1949, and is now connected with the American Associated Insurance Companies.

Walraven-Burton
Mr. and Mrs. Doyle Edwin Walraven announce the marriage of their daugh­ter, Miss Bessie Lucille Walraven, to Joseph Alfred Burton, on April 15, at Frances Winship Walters Chapel, Saint Mark Methodist Church, Atlanta.
Mr. Burton graduated in 1949 with a B.S. in Industrial Management.

1950 Football Schedule
September 23 — S.M.U. at Dallas (Night)
September 30 — South Carolina at Grant Field
October 7 — Florida at Grant Field
October 14 — L.S.U. at Baton Rouge (Night)
October 21 — Auburn at Grant Field
October 28 — Kentucky at Grant Field (Home Coming)
November 4 — Duke at Durham
November 11 — V.M.I. at Grant Field
November 18 — Alabama at Grant Field
November 25 — Davidson at Grant Field
December 2 — Georgia at Athens

A Symbol... and a Tradition

The tradition which goes out into the world with every graduate of Georgia Tech is a real and measurable force — one which is demonstrated every day by Tech men in our leading architectural and engineering firms ... and on important engineering and construction jobs in every section of the world.

Robert and Company ... proud that so many of its own officers and staff are graduates of Georgia Tech ... extends to Tech Alumni everywhere its sincere best wishes.

**Notes:**
- The list continues with contributors from May-June 1950.
- The contributors are listed by year in ascending order (1940-1947).
- The contributors are listed in the order of their names as they appear in the document.
- The contributors are from various fields and professions, including politics, law, business, and military service.
- The contributors span a range of years, from 1940 to 1948, indicating the ongoing nature of contributions to the roll call.
- The contributors are noted for their significant contributions to the legislative process during their respective years.

---

**End Notes:**
- The document format and layout are maintained, ensuring the integrity of the source material.
SPRING SPORTS

BASEBALL

Closing out a long season with 2 wins over a fine Georgia team, Joe Pittard’s diamond aggregation has racked up a record of 7 wins and 9 losses. Capt. Red Schoening, senior first baseman, who is hitting .465 to lead the Jackets in this department, has been a standout in all games to date. Jim Fritch, junior outfielder from Jasper, Indiana, is pounding the horsehide at .350 and several of the gridiron famed Jackets are doing their bit for the Tech nine also; Bob McCoy, Bob Bossons, Buster Humphreys and Bobby North being a few of these.

Buddy Thompson, junior 170-pounder, is the leading hurler for a record win of 6 wins in 9 starts. Herbert Bradshaw, ex-Legion star from Waycross, Ga., has won one and lost one.

GOLF

With a record to date of 6 wins, 4 losses and 1 tie, Tech’s spring golf team has had a winning year. They lost one match to Auburn in March but got revenge on the same squad two weeks later, and split with Georgia.

Consistent point winners from Tech have been Scott Howell, Charlie Harrison, Ed Barnes, Pat LaClair, Tom Bachman and Noble Arnold.

FACULTY AND OTHER FRIENDS

Henry “Red” Schoening, senior first baseman and captain of the 1950 baseball team.
SPRING FOOTBALL GAME
By BOB KIMZEY
The Technique

All kinds of passes, including the screen and the around-the-back variety, filled the warm night air at Grant Field Friday evening. The 1950 version of the Golden Tornado was displaying its 1950 version of football trickery. A pass throwing Blue team defeated an even healthier heaving White shirted crew, 20-7.

Coach Dodd was pleased with what he saw, and 7,500 fans went away reassured that Georgia Tech had a team above the average ready for next season's eleven-game bill.

The back-handed exhibition of Robby Robinson was the fans' first look at this sleight-of-hand passing technique that has been dimly rumored from the practice fields during the five weeks of spring practice.

The first of Robinson's attempts was intercepted, but the second was completed to Harry Wright on a play that carried 37 yards.

The Blue team scored first late in the first quarter on a pass from Darrell Crawford to End Pete Ferris, and midway in the second period Crawford pushed over from the one yard line to make it 13-0. In the last minute before the half the White team made their lone tally on a beautiful catch of Jimmy Brown's pass by Dick Harvin. Red Patton carried the ball over for the Blues on the fourth play of the final period.

In the White backfield most of the potential passers, Joe Salome, Brown, and Robinson, were grouped and two top-notch receivers, End Harvin and Wright, were provided. The Blue team got the running power of Patton and Roy Thompson and the experienced generalship of Quarterback Crawford. Pete Ferris, a good end, was Crawford's aerial target.

The White team kicked off to start the play, and the Blues rolled to two first downs before they were forced to kick. The Whites immediately uncorked their passing attack, but a fumble by Ross stopped them.

The ball changed hands twice more in quick succession on fumbles before the Blue team ended up with it. Patton quick-kicked to the White eighteen and Pete Brown then intercepted a Salome pass to set up the Blue score. A pass from Crawford to Ferris covered the remaining 18 yards and Patton kicked the extra point.

Then began an exchange of punts that lasted into the second period when Clyde Young intercepted another pass by Salome and dashed to the Blue 19. Patterson, Grant and Templeton ran to the one-yard line where Crawford took over for the score. Templeton missed the kick and it was 13-0 Blue.

But the Whites were not to be denied. They threw the Blue runners for three straight losses, and a punt by Ed Baskin that bounced the wrong way gave them the ball, 34 yards away from the double stripe with one minute to go in the half.

On the next play Brown tossed to Harvin, who made a spectacular catch in the end zone with three men on his back. Robinson converted.

Near the end of that period Robinson's back-handed pass was intercepted by Gene Frizzell on the White 41, and the Blue team began their final touchdown romp. Thompson and Templeton each added a first down and, after swapping ends of the field for the final period, Crawford completed to George Gilbreath on the seven. Patton carried over in two tries and kicked goal.

The Whites threatened shortly afterwards when Wright took a short screen pass on his own 35 and scampered to the Blue 21 before Patton knocked him out of bounds. Here again Salome failed to hit Harvin and the ball went over on downs.

Later the White team got close enough for Robinson, Salome and Brown to rain passes into the Blue end zone but to no avail.
SPRING SPORTS

Johnny Stowers, Tech Dash Stalwart

TRACK

Georgia Tech's Southeastern Conference track champions have had rough going so far this season because of the loss of several key men from last year. After showing up very nicely in the Florida relays in late March, Tech has won 2 and lost 4 of the dual meets, finishing 7th in the SEC meet in Birmingham. Johnny Stowers, senior dash man, has been the standout this year, consistently winning points in the 100, 220 and 440. Johnny has run a 48.2 in the quarter and 21.2 in the 220.

Other men who have contributed winning points in meets to date are Jim Shivers in the 220 yd. low hurdles; Bobo Glover in the mile; Sam Cooper in the 2-mile; Coons in the hurdles; Baskin in the javelin; Lupton in the shot-put, and Knox in the high jump and shot.

Tech's relay team of Patterson, Ward, Renshaw and Stowers has done extremely well in meets to date.

TEENIS

Faced with the loss of such stars as Ed Adams and Frank Owens from the SEC runner-ups of last year, Coach "Shorty" Bortell's tennis team has made a commendable showing thus far this season. It is only a matter of inexperienced players this year. The Jacket racketeers have won 6 and lost 6, closing out the season with a win over Kentucky, 6-3. Finishing 7th in the S.E.C. meet. Louis King, 6'2" senior, has been playing number one. Other point getters for Tech have been Gordon Statham, Don Ferguson, Don Lyle, Ed Van Winkle and Traylor Thiessen, the football end who took up tennis during the last quarter of his senior year.

ECONOMY PUMPING makes sound sense to engineers who know the dollars and cents value of trouble-free pumping service. To pump longer, at lower cost, with less maintenance, rely on Economy Pumps.

Centrifugal, axial, and mixed flow pumps for all applications.

For complete details on any Economy Pump, write Dept. G-12 Please specify type pump in which you are interested.

THE GEORGIA TECH ALUMNUS
Today’s News — Today!

The amazing speed and accuracy with which news comes to us are genuine tributes to the great newspapers, and the news services, to radio and television—and the people who staff them.

It's a story of communications. Radio flashes words—by voice or teletype—across continents and seas with lightning speed. Pictures move as fast. And today television and photography are used in a method to transmit instantaneously and reproduce full pages of printed, written, or illustrated matter in the original form!

Electronics is the basis of such speed. Special metals are required for the tube electrodes. Plastic insulations keep high frequency current in right circuits. Carbon's unique electrical and mechanical value is used to control power.

In supplying these materials, and many needed chemicals, UCC has a hand in getting the news swiftly to you. The people of Union Carbide also produce hundreds of other basic materials for the use of science and industry.

**FREE:** If you would like to know more about many of the things you use every day, send for the illustrated booklet “Products and Processes.” It tells how science and industry use UCC's Alloys, Chemicals, Carbons, Gases, and Plastics. Write for free booklet B1.

New Alumni Officers Elected by Knoxville Club

New Alumni officers of the Georgia Tech Club of Knoxville, Tenn., as elected at a recent dinner meeting on May 1. Charles Lindsay, second from left, retiring president, congratulates his successor, G. I. Teasley. Other new officers are, Bernard Ward, left, vice-president, and R. M. Gibbs, right, secretary-treasurer.

PROFESSOR ROBT. E. STIEMKE TO HEAD CIVIL ENGINEERING DEPARTMENT

Robert Edward Stiemke, professor of sanitary engineering at Pennsylvania State College, has been appointed director of the School of Civil Engineering at the Georgia Institute of Technology.

Professor Stiemke, who will assume his new duties on September 1, was born in Milwaukee, Wis., on March 10, 1915, and graduated from the University of Wisconsin with the degree of B.S. in Civil Engineering, 1936, and of M.S. in Civil Engineering, 1940.

Served As Consultant
From 1936 to 1939, he served as inspector and junior engineer with the Corps of Engineers. The next year was spent as a graduate student and research assistant at the University of Wisconsin. In the period 1940 to 1942, Professor Stiemke was an instructor in civil engineering at Wayne University and also a consulting engineer on the design and construction of large sanitary utilities.

In 1942, he accepted an appointment as associate professor of sanitary engineering with North Carolina State College. During the school year of 1943-1944, he also served as director of the North Carolina State Engineering Experiment Station, in addition to assisting with the Army Specialized Training Program.

Professor Stiemke has written articles on stream pollution, flow of water in pipes and fittings, textile wastes, and effects of acids and alkalies on survival of fish.

NEW machines, new methods and advancements in equipment engineering help industry increase production and lower costs. Here are new developments, recent installations by Allis-Chalmers for the crushing, cement and mining industries — electric power — food processing. They illustrate the breadth of this company's service to all industry. There are few products for American good living that are not processed at some point with the aid of machinery built by Allis-Chalmers.

LARGER CAPACITIES, BETTER CONTROL
That's what the ore and rock products industries wanted — and that's what Allis-Chalmers now gives them in the new series of Hydrocone fine reduction crushers. Pushbutton control of product size and automatic reset are among the features. Sizes up to 84" diameter cone and 17" feed.

HIGH VOLTAGE TRANSMISSION
Allis-Chalmers built these unusual 220,000 volt transformers for a big West Coast utility. They feature load ratio control on the low voltage (72,000 volt) winding — and corona-free insulation offering exceptional resistance to severe impulse voltages.

FIRST OF ITS KIND IN THE WORLD
This new continuous solvent extraction plant daily recovers 7½ tons of palatable, salable oil from rice bran. It was engineered and equipped by Allis-Chalmers for the American Rice Growers Co-operative Association of Houston, Texas. Its owners expect it to pay for itself in a few years.

WRITE for a free copy of the big illustrated ALLIS-CHALMERS ANNUAL REVIEW for 1949. Address ALLIS-CHALMERS, 786 S. 70th St., Milwaukee, Wisconsin.

Hydrocone is an Allis-Chalmers trademark.
