UNIVERSITY SYSTEM OF GEORGIA

The University System of Georgia, which began operation in 1932, is among the oldest unified statewide systems of public higher education in the United States and includes all state-operated universities, four-year colleges, and two-year colleges in Georgia. The system, now in its seventh decade of operation, offers programs of instruction, research, and public service designed to benefit the entire population of the state. These programs are conducted through the various institutions and institution-related agencies. The following comprise the University System of Georgia:

BOARD OF REGENTS

The Board of Regents of the University System of Georgia is composed of 16 members appointed by the Governor and confirmed by the Senate for seven-year terms. One member is appointed from each of the 11 congressional districts, and five are appointed from the state at large. The Board of Regents exercises broad jurisdiction over all institutions of the University System of Georgia and establishes policies and procedures under which they operate. The Board receives all state appropriations for the University System and allocates these appropriations to the institutions and institution-related agencies. While the Board engages in both policy-making and administrative functions, each unit of the System has a high degree of academic and administrative autonomy.

The Chancellor of the University System, the chief administrative officer, is appointed by the Board as its chief executive officer and serves at the Board's request. The chancellor has broad discretionary power for executing the resolutions, policies and rules, and regulations adopted by the Board for the operation of the University System.

The System currently includes 35 institutions: four research universities, two regional universities, 13 state universities, two state colleges, 13 two-year colleges, and one independent research unit. These institutions are both individually distinctive and interrelated. They are geographically dispersed so that approximately 96 percent of the people in Georgia reside within 35 miles of at least one university or college.

G. Wayne Clough
1994-Present

G. Wayne Clough is the tenth President of the Georgia Institute of Technology and the first alumnus to serve as president. Under his leadership, Georgia Tech has served as the Olympic Village for the 1996 Centennial Games and launched a \$600 million Capital Campaign. Sponsored research has increased to \$280 million per year, and nearly 300 courses have been redesigned to incorporate web enhancements under a technology initiative that requires all students to have a networked computer. His tenure at Georgia Tech has also been marked by increased recognition for the Institute.

Dr. Clough received his B.S. and M.S. in Civil Engineering from Georgia Tech in 1964 and 1965 respectively, and his Ph.D. in 1969 from the University of California, Berkeley. In 1994 he returned to Georgia Tech as president from the University of Washington, where he was provost and vice president of academic affairs. He also served as dean of engineering at Virginia Tech and as a faculty member at Duke University and Stanford University. His research interests lie in geotechnical engineering. He has consulted with more than 70 firms and government agencies, published more than 120 papers and reports, written six book chapters and is the author of several widely used computer codes for geotechnical engineering. He was elected to the National Academy of Engineering in 1990. The recipient of a number of national honors for teaching and research, including seven from the American Society of Civil Engineers, he is one of only a handful of engineers to have twice received Civil Engineering's oldest award, the Norman Medal.

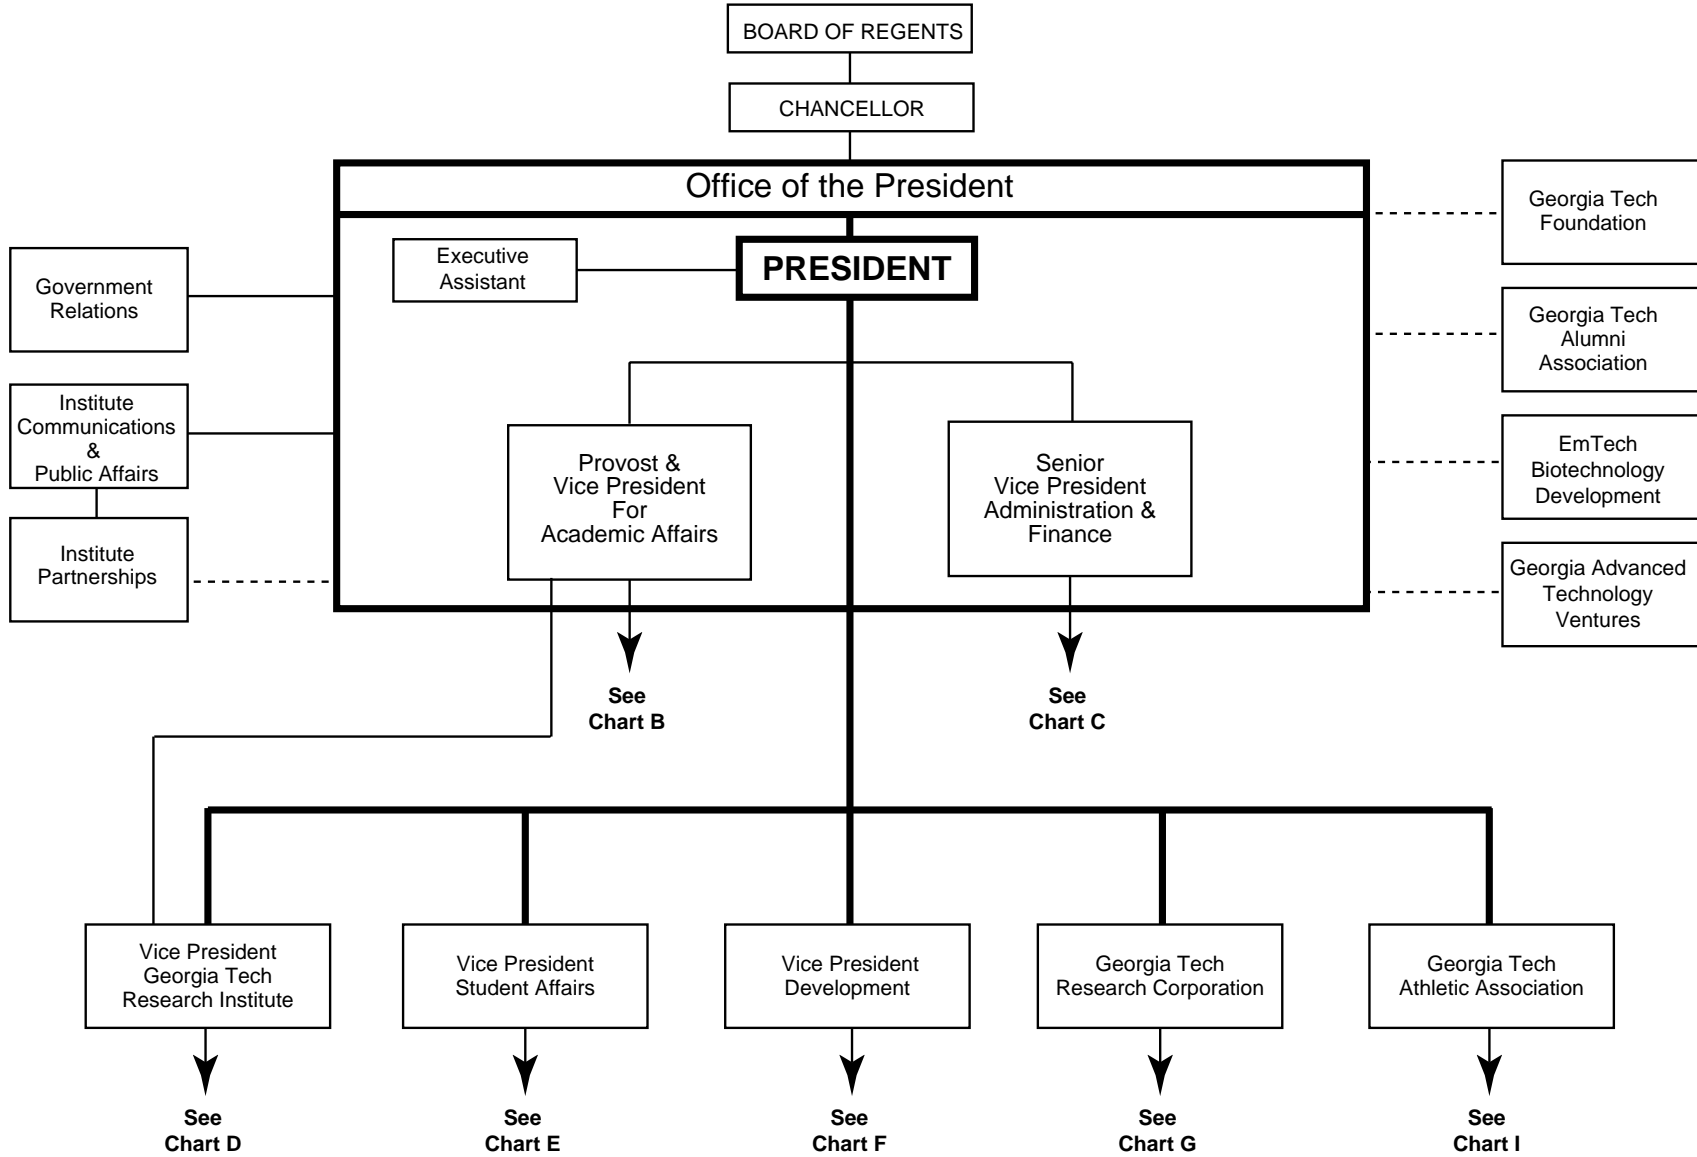

Dr. Clough serves on the executive committee of the National Council on Competitiveness and co-chairs the board of the Internet Policy Institute. He also sits on the boards of the Malcolm Baldrige National Quality Award and the Institute of Paper Science and Technology. Named one of the 100 Most Influential People in Georgia by *Georgia Trend* magazine, he is a trustee of the Georgia Research Alliance; a director on the board of the Atlanta Chamber of Commerce; an executive committee member of Central Atlanta Progress; an advisory board member of Noro-Mosley Partners, the southeast's largest venture capital fund; and an active member of the Atlanta Rotary Club.
