Cc:Rhea Williams <R_Williams@acs.org>;

Megan-

Here are my thoughts. Dr. Williams can correct any of my misconceptions.

If the paper appears in your thesis first, your thesis will hold the main copyright. If you are accepted into ACS Catalysis relatively soon after our thesis is published (a few months), it should be no problem, with maybe a line added to the acknowledgements of your paper noting it also appears in your thesis (this assumes thesis only appears in GT library ad is not published somewhere else, for example as a book).

If the paper appears in paper before thesis, you just fill out the online permission to reproduce form at the ACS website, and then you can reproduce in thesis.

The only cases where we have had problems in these cases is where something was published in a thesis long before the paper submission (years). If they are essentially finished in parallel, there should be no problem.

Cheers,
Chris Jones

Subject: use of a manuscript submitted to ACS Catalysis in my thesis

Dear Dr. Jones -

I am writing to you regarding a submitted manuscript to ACS Catalysis that I would like to include in my thesis. The manuscript has been submitted (and rejected but allowed for re-submission upon revision). I have included the proper ACS credit line indicating that the work has been submitted to ACS Catalysis in my thesis. Is there anything else you would like me to include? I wanted to verify that this would not count as a prior publication and that I will not be violating any rules with ACS Catalysis. I plan to withhold the release of my thesis for one year.

Thank you for your response,

Megan

To: Hillman, Rob (Prof.)
Subject: use of a submitted manuscript in thesis

Dear Professor Hillman -

I am writing to you regarding the use of my manuscript that has been submitted to Electrochimica Acta as part of my thesis. The article is not yet accepted and is currently in review. I wanted to verify that using the manuscript in my thesis is not considered a prior publication. I have indicated in my thesis that the work has been submitted to Electrochimica Acta. Do you have any other requests for the use of the manuscript in my thesis? The manuscript I'm referring to is:

Ms. Ref. No.: RH15-514R1
Title: Diagnostic Criteria for the Characterization of Electrode Reactions with Chemical Reactions Following Electron Transfer by Cyclic Square Wave Voltammetry

Thank you for your response,

Betreff: Re: using a submitted manuscript in my thesis

Dear Bettina -

I have completed and attached the request form. I am seeking instruction on how to properly cite or annotate a chapter within my thesis/dissertation that has been submitted to ChemPhysChem for publication.

Thank you for your help. I look forward to hearing from you.

Best,
Megan

Megan (Damm) Mann
Dear Megan,

Thank you for your request. In order to process this query, please fill in the attached permission request form and return.

Please ensure all details are entered correctly before returning the form. This will ensure we have all the relevant information in order to review your request. If you feel that this form doesn't fully cover your intended use, please provide an accompanying explanation in writing.

Thank you for your co-operation. We look forward to hearing from you shortly.

Kind regards,

Bettina Loycke

Hello -
I am compiling my thesis. I would like to include my publication submitted to ChemPhysChem in my thesis. What is the protocol for using my own work in my thesis? Is there a special copyright line that I need to include? Other journals request something like "Submitted to X Journal. Copyright X Journal 2015." Is there a similar format requested by ChemPhysChem?

Thank you,

Megan
