Vision/Mission Statements

The Vision

Our vision is bold: "Georgia Tech will define the technological research university of the 21st century and educate the leaders of a technologically driven world."

The Mission

Our mission is clear: "to provide the state of Georgia with the scientific and technological knowledge base, innovation, and workforce it needs to shape a prosperous and sustainable future and quality of life for its citizens." It is achieved through educational excellence, innovative research, and outreach in selected areas of endeavor.

Georgia Tech's mission in education and research will provide a setting for students to engage in multiple intellectual pursuits in an interdisciplinary fashion. Because of our distinction for providing a broad but rigorous education in the multiple aspects of technology, Georgia Tech seeks students with extraordinary motivation and ability and prepares them for lifelong learning, leadership, and service. As an institution with an exceptional faculty, an outstanding student body, a rigorous curriculum, and facilities that enable achievement, we are an intellectual community for all those seeking to become leaders in society.

Georgia Tech values its position as a leading public research university in the United States and understands full well its responsibility to advance society toward a proper, fair, and sustainable future. By seeking to develop beneficial partnerships within public and private sectors in education, research, and technology, Georgia Tech ensures relevance in all that it does and assures that the benefits of its discoveries are widely disseminated and used in society.

Georgia Tech pursues its mission by giving the highest respect to the personal and intellectual rights of everyone in our community. In return, we expect that all members of our community will conduct themselves with the highest ethical principles.

National Rankings

Georgia Tech's College of Engineering ranked among the top 5 graduate schools in the nation according to *U.S. News & World Report*. Specific graduate programs ranked in the top 10 include:

- 1st in Industrial/Manufacturing Engineering
- 3rd in Biomedical Engineering
- 4th in Aerospace Engineering
- 5th in Civil Engineering
- 6th in Computer Engineering
- 6th in Electrical Engineering
- 7th in Mechanical Engineering
- 8th in Environmental Engineering

Other *U. S. News and World Report* rankings include:

- The College of Computing's graduate program ranked 12th.
 - The College of Architecture's graduate program ranked 15th.
 - Artificial Intelligence in the College of Computing ranked 12th.
 - Computer Systems in the College of Computing ranked 8th.
 - Georgia Tech's undergraduate program received a ranking of 9th among public universities and 37th overall.
- The Co-Op program is listed nationally as a "Program To Look For" by *U.S. News & World Report*, and is the largest optional program in the nation.
 - The National Science Foundation ranks Georgia Tech 2nd in engineering R&D.
 - The Engineering Workforce Commission ranks Georgia Tech 1st in the number of degrees awarded in engineering, and 1st in the number of degrees awarded to women in engineering.
 - *Forbes* magazine lists Georgia Tech's MBA program in the top 10 among public universities.
