GTAA Heritage Center - Final Report

This project entailed the development of multimedia kiosks and presentation systems for the GT Athletic Association for use in the Heritage Center. Two systems were developed. One system allows users to push buttons in an interactive theatre and see videos of the history of GT Sports. The other system allows users to interactively move through time and select events in Tech sports history to learn more about them. This system was partially installed, and will be completed at a later date with the assistance of the GTAA staff.
